The foregoing does not include certain expenditures for construction work for other divisions and departments, which work was supervised by the engineers of this division.

Under orders of the Department of Public Utilities, Commonwealth of Massachusetts, schedules of tolls and charges for the use of the Sumner Traffic Tunnel, between Boston Proper and East Boston, were approved, covering the year 1944.

The city has been operating only one ferry, the so-called "South Ferry," since early in 1933, with the

Boston terminus at Eastern avenue and the East Boston terminus at Lewis street.

The more important works undertaken during the past year in the Bridge and Ferry Division were repairs to the draw fender pier of Chelsea Bridge North; repairs to westerly sidewalk, span 1, of Charlestown Bridge; making wash borings at Meridian Street Bridge; grouting the abutments and piers of Granite Avenue Bridge; construction work on the Malden Bridge, over the Mystic river; repairing Winthrop Bridge; resurfacing in Sumner Tunnel with granite block, Ultimate block and white center marker blocks; repairs to steel ferry bridge, etc., South Ferry, north slip, Boston side; repairs to the south fender, south slip, South Ferry, Boston side; resurfacing with granite block, Ultimate block, etc., Sumner Tunnel; repairing hull, etc., ferryboat "Charles C. Donoghue"; repairs to steel ferry bridge, South Ferry, south slip, Boston side; repairs to wharf at Spectacle Island; removing snow in area No. 2 and East Boston and removing snow in area No. 3 and Roxbury.

#### BRIDGE SERVICE.

##### *Repairs to Westerly Sidewalk, Span 1, Charlestown Bridge.*

Due to corrosion the steel sidewalk brackets and fascia of the sidewalk were found to be in a very bad condition, and on June 26, 1944, the Mayor approved a contract with A. Orlando, Inc., the lowest bidder, to make necessary repairs. Work started on the contract on June 5, 1944, and will be completed about June, 1945.

##### *Repairs to Draw Fender Pier of Chelsea Bridge North.*

Due to failures of the draw fender pier, downstream end, adjacent to the portion repaired in 1943, it was necessary to rebuild the walkway and face piles for the full length.

On February 15, 1944, the Mayor approved a contract with W. H. Ellis & Son Company, the lowest bidder, to remove the damaged material, drive new piles and spurs and connect the new work with the old, etc., necessary to complete the repairs. Work started on the contract on April 18, 1944, and was completed on July 18, 1944, at a cost of \$24,448.18.

*Construction Work on the Malden Bridge, over the  
Mystic River.*

Under a contract entered into in 1942 between the city and A. D. Daddario, for general construction work on the Malden Bridge, the contractor, due to war conditions and his inability to obtain the necessary materials, has been compelled to allow the work to run into its third year.

The steel Irving type floor was furnished and placed by the end of 1942, on the tower and draw spans.

Work commenced on the approach roadways in May, 1944, and continued to the end of the year. Total work done amounted to \$96,790.40. It is expected that the work will be completed early in 1945.

*Making Wash Borings at Meridian Street Bridge.*

Due to the necessity of rebuilding the Meridian Street Bridge to provide a 175-foot clear waterway and to obtain necessary data for preliminary studies and plans, the Mayor approved a contract with the Raymond Concrete Pile Company, the lowest bidder, to make a series of wash borings on both sides of the bridge.

Work started on the contract on June 15, 1944, and was completed July 14, 1944, at a cost of \$1,961.95.

*Summer Street Bridge, over Reserved Channel.*

A contract with Marinucci Brothers & Co. for construction work on the Summer Street Bridge, over the Reserved Channel, was completed September 29, 1943.

At the close of the fiscal year the contractor had been paid the sum of \$154,814.47. On account of a claim by the contractor against the city, the amount of \$3,790.79 is still being retained by the city.

*Repairing Winthrop Bridge.*

On December 14, 1943, the Mayor of Boston and the chairman of the Board of Selectmen of the town of Winthrop approved a contract with Baker & Co., the lowest bidder, to remove the existing roadway pavement, repair the 5-inch Y. P. deck, sidewalks, stringers, etc., as necessary and to place new 4-inch Y. P. T. & G.

planking on the present 5-inch deck and after waterproofing the roadway with hot asphalt place a 2-inch wood wearing surface.

Work commenced December 27, 1943, and was completed April 19, 1944, at a cost of \$13,428.79. Sixty per cent of the cost was paid by the City of Boston and 40 per cent by the town of Winthrop.

#### GRANITE AVENUE BRIDGE COMMISSION.

##### *Grouting the Abutments and Piers of Granite Avenue Bridge.*

Due to the washing out of the joints in the masonry piers and abutments of the Granite Avenue Bridge, and to prevent further settlement, the Granite Avenue Bridge Commission approved a contract with Marinucci Brothers & Co., the second lowest bidder, to fill all voids and point the masonry by the "Gunite" process.

Work commenced on August 28, 1944, and was completed September 29, 1944, at a cost of \$6,121.80. One half of this cost was paid by the County of Suffolk and one half by the town of Milton.

#### SANITARY DIVISION.

##### *Repairs to Wharf at Spectacle Island, Boston Harbor.*

Several times since this wharf was built it has been repaired and strengthened but the condition of the outer half of the wharf was so bad that it was necessary to rebuild this portion.

It was decided that a wharf 10 feet wide instead of the present 20-foot wharf, would serve the purpose.

This division designed and supervised the construction of the new section of wharf.

A contract was awarded to the James B. Rendle Company, approved by the Mayor June 7, 1944, for this rebuilding. Work started June 30, 1944, and was completed August 14, 1944, at a cost of \$11,825.30.

##### *Removing Snow and Ice, Areas Nos. 2 and 3.*

A contract was awarded to Walter Reed Corporation, approved by the Mayor December 31, 1943, for removing snow in snow area No. 2. The work was completed February 13, 1944, at a cost of \$2,369.10.

A contract was awarded to Baker & Co., approved by the Mayor December 31, 1943, for removing snow in snow area No. 3. The work was completed February 13, 1944, at a cost of \$2,509.42.

A contract was awarded to Walter Reed Corporation, approved by the Mayor December 28, 1944, for removing snow in snow area No. 2. No payment was made under this contract in 1944.

A contract was awarded to Baker & Co., approved by the Mayor December 28, 1944, for removing snow in snow area No. 3. No payment was made under this contract in 1944.

#### *Day Labor Force.*

The day labor force patched and replaced deck sheathing, headers and sidewalk planking on the various bridges; repaired platforms, refastened treads, cleaned and painted drawhouses and shelter houses; made repairs to drawhouses and controller houses; added to and deducted from counterweights; repaired steps; removed snow and ice from bridges and sanded same; repaired piers; painted fences and gates; did general carpenter work and painting and made mechanical repairs, etc., repaired wood block paving, refastened treads on various bridges; repaired and rebuilt gates at various bridges; repaired floats; built and repaired sand boxes; rebuilt coal bins at various bridges; repaired boats; set glass at various drawhouses; made miscellaneous small repairs at various bridges, etc.

The maintenance force cleaned the bridge sidewalks and steps in the intown areas of snow and other refuse during the year. Electrical and machinery maintenance was taken care of by the electricians and machinists.

Another duty of the division during the winter months was the supervising and inspecting of snow loading and removal from snow areas Nos. 2 and 3, in common with other divisions of the department. This work was done under contract.

In the course of the year part of the activities of the office force was taken up in work for other divisions and departments of the city. While these efforts, spread over the entire period, did not require a considerable amount of time, the nature of the work was of an advisory and investigating nature.

## FERRY SERVICE.

The following ferryboats are in commission:

NAME.	When Built.	Length.	Gross Tons.
Charles C. Donoghue.....	1926	174 feet, 4 inches	756.77
Daniel A. MacCormack.....	1926	174 " 4 "	756.77
Ralph J. Palumbo.....	1930	174 " 4 "	779

All these boats are of the propeller type and are all steel boats.

The work of this service for the year consisted of the following:

## FERRIES.

*Ferryboat "Charles C. Donoghue."*

On December 20, 1945, formally advertised bids were called for to make general repairs to this boat which had been out of commission for over one year due to the utter failure of the main condenser. At that time no bids were received from any repair yard on account of press of work required by the armed services.

In order to insure at least a one boat service on the ferry route, steps were taken at once to attempt completing the necessary repairs as soon as possible, since after January 2, 1944, the only boat on the run was the "Daniel A. MacCormack," the ship's papers of which would expire on June 9, 1944.

After authority was granted by the Mayor to expend up to \$23,855 to make the annual repairs, the boat was delivered to the Quincy Dry Dock and Yacht Corporation, which finally had been able to arrange its government work so as to take over the "Donoghue."

On April 17 work stated under a contract awarded without advertising to make the routine repairs which included painting, hull work and machinery repairs. At this time the contractor installed the whole of the water end of the jet condenser, which was furnished by the city; this work included the cutting in of an access opening in the monitor and fitting a removable section in place. Work under this contract was completed on May 24, 1944, at a cost of \$21,423.90.

Since June 9, ferry operation has again been reduced to a single boat since the "Palumbo" and the "MacCormack" have been decommissioned on account of the expiring of the United States ship's papers under which every vessel of United States registration operates. In event of accident or unpredictable machinery failure to the one boat in commission, ferry service ceases. In view of the fact that the city has three good boats, it is but reasonable to keep at least two boats in commission with Federal ship's papers at all times to avoid an extended stoppage of the service.

*Repairs to Steel Ferry Bridge, South Ferry, North Slip,  
Boston Side.*

A contract was awarded to J. A. Singarella Company, approved by the Mayor November 26, 1943, for necessary repairs to the steel work of the north drop, South Ferry, Boston side.

Work started November 29, 1943, but very little work was done under the contract until January of 1944. Work was completed January 22, 1944, at a cost of \$4,220.90.

*Repairs to Steel Ferry Bridge, South Ferry, South Slip,  
Boston Side.*

A contract was awarded to Frederick W. Byron, approved by the Mayor June 13, 1944, for necessary repairs to the steel work of the south drop, South Ferry, Boston side. Work started June 15, 1944, and was completed September 27, 1944, at a cost of \$14,140.42.

*Repairs to the South Fender, South Slip, South Ferry,  
Boston Side.*

A contract was awarded to the Roy B. Rendle Company, approved by the Mayor December 29, 1943, for rebuilding the outer half of the fender and making minor repairs to the inshore end.

Work started April 10, 1944, and was completed April 26, 1944, at a cost of \$7,411.09.

*Department Force.*

During the year machinists, carpenters, painters, riggers and electricians, who are included in the personnel

of the Ferry Service, made all repairs possible to the plant to the extent of equipment at their disposal. This work consisted mainly of minor repairs to the machinery on the boats, repairs to ferry bridge machinery, ferry bridge roadways and headhouse repairs in general.

#### SUMNER TRAFFIC TUNNEL.

##### *Resurfacing the Sumner Tunnel with Granite Block, Ultimate Block and White Center Marker Blocks.*

A contract was awarded to the Rufo Construction Company, approved by the Mayor October 19, 1943, for resurfacing the Sumner Tunnel. Work started November 7, 1943, and was completed January 8, 1944, at a cost of \$14,605.00.

##### *Resurfacing the Sumner Tunnel with Granite Block, Ultimate Block, Etc.*

Due to the failure of additional areas of the pavement, a contract was awarded to the Rufo Construction Company, approved by the Mayor February 16, 1944, for further resurfacing in the Sumner Tunnel. Work started February 18, 1944, and was completed April 13, 1944, at a cost of \$10,610.50.

#### *Summary of Work During 1944.*

##### 1. *Personnel.*

During the year 1944 three employees entered the armed services of the United States. This makes a total of eleven men who have entered the service.

6. *Fires.*

During the past year there was only one fire in the tunnel for a duration of two minutes caused by a defective brake band on a United States Army truck.

7. *Tunnel, General.*

Extensive roadway repairs were undertaken during the past year. This work was started on February 18 and finished April 27, 1944. During this period the tunnel was closed to vehicular traffic from 12.30 a. m. to 5.30 a. m. Tunnel walls are washed two or three times a month as needed. During the past year a total of 5,552 200-watt lamps were used in the relamping of the Tunnel lights. All catch-basins and sump rooms have been cleaned.

8. *Tolls.*

All Army, Navy, Marine Corp and Coast Guard vehicles started paying tolls by a special military ticker for the use of the Tunnel as of March 15, 1944, previous to this time all of these government vehicles passed through the Tunnel free of tolls.

9. *Toll Booths.*

Electric heaters were installed in all toll booths at Boston and East Boston and were completed in November, 1944. These heaters replaced a steam heating system that had proven unsatisfactory.

10. *Automotive Equipment.*

On July 21, 1944, a Ford emergency ambulance was installed at the Tunnel and is subject to calls from outside of the Tunnel in the event of any emergency that might require its use.

11. *Ventilating Fans, Motor, Dampers.*

The twenty-eight motors used in the operation of the ventilating system have been oiled, cleaned and greased as the occasion required. All switches and controllers used in conjunction with these motors have been cleaned and overhauled and adjusted and are in good working order. All damper motors, switches and controls have been cleaned and adjustments were made as needed.

12. *Circuit Breakers, Air Type, Oil Type.*

During the year all circuit breakers have been tested, set and adjusted in order to assure efficient operation.

13. *Transformers, Relays.*

The oil in all transformers has been tested and changed as it was needed. All of the relays have been calibrated, set and adjusted for proper operation.

14. *Toll Registering Equipment.*

All key boxes and toll registers are in good working condition. Monthly and periodic insulation, resistance and pressure tests are made on all treadles.

15. *Pumps.*

The main harbor pumps and the two portal pumps have been cleaned, overhauled, painted and lubricated. Various changes to pipes and valves were made as needed.

16. *Telephone System.*

All switchboard relays have been adjusted and set for efficient operation. All defective cords, instruments, coils have been replaced.

17. *Storage Batteries.*

These emergency power storage batteries are inspected and tested at regular intervals. The telephone storage battery has also been inspected and tested and in good operating condition.

18. *Traffic Signal Controls.*

All broken glass in the traffic signals replaced as needed. During the past year 353 60-watt lamps were used in the relamping of these units. All traffic signal controls have been repaired and tested, all defective coils and contacts have been replaced.

19. *Motor Generators.*

All four of the motor generators are in excellent working condition. These machines have been cleaned and painted. The commutators have been undercut, and new brushes installed as required.

Yours respectfully,

JOHN DEMEULENAER,  
*Division Engineer.*

## APPENDIX B.

---

 REPORT OF THE DIVISION ENGINEER OF THE  
 HIGHWAY DIVISION.
 

---

BOSTON, January 2, 1945.

*To the Commissioner of Public Works.*

DEAR SIR,— I submit the following report of the operations and expenditures of the Highway Division for the year ending December 31, 1944.

The following is a summary of the budget appropriations for 1944 for the below-mentioned items:

<i>Maintenance.</i>	
Appropriation for 1944 . . . . .	\$934,256 00
Transfers to this appropriation . . . . .	2,800 00
	<hr/>
	\$937,056 00
Transfers from this appropriation . . . . .	21,177 06
	<hr/>
	\$915,878 94
Amount expended . . . . .	911,355 37
	<hr/>
Balance unexpended . . . . .	\$4,523 57
	<hr/> <hr/>

The amount of money taken in through the Permit Office of the Paving Service was \$10,245.62. Of this amount \$8,009.62 was deposited with the City Collector, and \$2,236 was billed to Public Service Corporations. There are now on file 1,824 bonds covering the city against claims for damages, etc., through the use of permits.

The regular forces of the Paving Service were employed as usual in the maintenance of all public streets, resurfacing and patching macadam pavements, patching all permanent pavement such as asphalt, granite blocks, etc., and taking care of all gravel, brick and artificial stone sidewalks.

Contracts were let for the construction and reconstruction of one hundred and eighty-four streets during the year. Artificial stone sidewalks were installed on twenty of these streets.

Some of the most important thoroughfares reconstructed during the year were as follows:

Rutherford Avenue, Charlestown, Chapman to Cambridge Streets.

Dorchester Street, South Boston, Andrew Square to West Ninth Street.

Columbus Avenue, Roxbury, Dudley to Centre Streets.

Blue Hill Avenue, Dorchester, American Legion Highway to River Street.

Washington Street, Dorchester, Bowdoin Street to Talbot Avenue.

Centre Street, West Roxbury, South Street to the Arborway.

In the City Proper work was done on the following-named streets:

Summer Street; Kneeland Street; Massachusetts Avenue; Beacon Street; Newbury Street; Hampden Street.

#### LIGHTING SERVICE.

The Lighting Service Appropriation of the Highway Division called for \$961,198. A transfer of \$1,500 was received from the Paving Service and \$961,732.22 was expended, leaving a balance of \$965.78.

Mazda lamps of 1,000 c.p. were installed as follows: Brookline Avenue (2), City Proper; Main Street (2), Charlestown; Washington Street (1), Dorchester; Porter Street (1), East Boston; Hyde Park Avenue (1), Hyde Park.

One 600 c.p. lamp was installed on American Legion Highway, West Roxbury.

Mazda lamps of 400 c.p. were installed as follows: Goodenough Street (1), Egremont Road (1), Brighton; Breed Street (1), East Boston.

Mazda lamps of 250 c.p. were installed as follows: Bower Street (1), Delle Avenue (5), Roxbury; Wood Avenue (4), Hyde Park.

Mazda lamps of 80 c.p. were installed as follows: Hallowell Street (1), Regan Road (1), Columbia Road (1), Stow Road (1), Dorchester; Tower Street (1), East Boston; Lewis Street (3), Magee Street (3), Sherrin Street (2), Milton Avenue (1), Crown Street (1), Hyde Park; La Grange Street (1), Prospect Street (1), Byrd Avenue (1), Buchanan Road (1), Bullion Road (1), Furbush Road (1), Bryant Road (2), Gloria Road (3), West Roxbury.

Mazda fire lamps were installed as follows: Cambridge Street (1), City Proper; Chestnut Hill Avenue (1), Commonwealth Avenue (2), Lanark Road (1), Brighton Avenue (1), Brighton.

Owing to war conditions there was no prescribed underground district for the year 1944.

Yours respectfully,

R. J. KELLEY,  
*Acting Division Engineer.*

*Garbage and Refuse Collection Work.*—The garbage and refuse collection work, as heretofore, has been done principally under the contract system. The collection by city forces includes only the City Proper, South, North and West Ends, and a part of Roxbury. These

districts are known as 9, 10 and 7, respectively. There are thirteen contract collection districts, numbered 1, 2, 3, 4, 5A, 5B, 6, 7A, 7B, 7C, 9A, 9B and 11, comprising the South Boston, East Boston, Charlestown, Brighton, West Roxbury, Jamaica Plain, Dorchester, and part of Roxbury sections, the Back Bay section and part of the City Proper.

The collection work by city forces has been maintained satisfactorily throughout the year despite wartime conditions, with attendant shortage of adequate equipment, coupled with an understandable unrest in labor circles because of the differential in wages paid to municipal employees and those in private employment.

The employees engaged in this work, however, were intensely loyal, and it is to their credit that Boston did not have to curtail or suspend any garbage or refuse collection work at any period of the year, whereas many cities throughout the country had intervals of strikes among municipal collectors, and many had to curtail the collection work due to shortages of labor and equipment.

Publicly advertised bids for the collection of garbage and refuse in the contract areas were opened on December 21, 1943, with very few competitive bids being submitted. In nine out of the thirteen districts, only one bid was submitted in each district; in one district, only three bids, and in the remaining three districts, only two bids were received in each of the three districts. Only ten contractors submitted bids, nine of whom had the contracts in the year 1943.

The lack of competition for this work at this time is understandable because of the shortage of labor. The contractors who are currently doing the work have the advantage over potential competition because all employees of the contractors engaged in garbage and refuse collection work have been designated by the War Production Board as being "locally needed," with the result that they cannot change their jobs without the permission of the W. P. B. and the contractor to whom they are assigned. Under the circumstances, therefore, the present contractors have, in great measure, cornered the employment market, and have practically eliminated competition. Appeals were made to the War Production Board to correct this condition and have the employees assigned to garbage and refuse work, rather than to contractors doing this kind of work. The

W. P. B. replied that the policy of assigning employees to contractors and not to industries or trades was in effect all over the country, and no exception could be made for Boston.

The contract collection work proceeded satisfactorily throughout the year, considering the wartime conditions; and, as in the case of collections by city forces, there was no curtailment or suspension of this important service during the year.

*Garbage and Refuse Disposal.*— At the completion of the ten-year disposal contract, which terminated on June 30, 1942, a one-year contract was entered into with the Coleman Disposal Company. This contract was followed by another one-year contract, which terminated on June 30, 1944. Prior to the completion of this contract, an examination was made by a competent auditor of the books and records of the company affecting the disposal contract, and several meetings were held with representatives of the Coleman Disposal Company and of this department for the purpose of negotiating another one-year contract to start on July 1, 1944.

As the result of the audit and following negotiations between representatives of the department and the Coleman Disposal Company, a contract was executed covering the period from July 1 to December 31, 1944, with the option on the part of the city, if agreeable to the contractor, to extend the time to June 30, 1945. It was agreed that the base sum paid to the contractor for this service would be the same as provided in the previous contract, namely, \$30,000 per month. It was also further agreed that the city would pay—up to a limit of \$5,000 for the six-month period of 1944—one half of any increases in pay for the contractor's employees if said increases were approved by the War Labor Board.

The work required under the provisions of this contract has been proceeding most satisfactorily, and no serious complaints were received regarding the condition of the dumps at Spectacle Island or at Mile road, or at the water-front receiving stations on Atlantic avenue, Albany street and Victory road.

This contract, in substance, required the contractor to dispose of all refuse collected by city forces and by the contractors in the City Proper, North and South and West Ends, Back Bay, Roxbury, South Boston, Charles-

town, and also all garbage collected in the above-listed districts and from the Dorchester district.

The yearly disposal contracts of the past three years have all terminated on June 30, which has made it necessary for us to insert a provision in the collection contracts affected by the Coleman Disposal Contract to the effect that the contracts would terminate on June 30, with the option of extending them to December 31. The collection contracts affected by the Coleman Disposal Contract were in those districts where the refuse and garbage were required to be delivered to the dumps and water-front stations operated by the Coleman Disposal Company.

Such a provision in the collection contracts was unsatisfactory, and in order to have the collection contracts and the disposal contract cover the same period, namely, a calendar year, negotiations were entered into by the department and the Coleman Disposal Company in December to execute a contract for the calendar year of 1945. These negotiations ended satisfactorily, and a contract was executed in December for the calendar year of 1945 on the same basis and at the same price that governed the contract which was in effect from July 1 to December 31, 1944.

*Street Cleaning Work.*—The city is divided into thirteen street cleaning districts, one pusheart patrol district in the downtown area, and one district combining the market area and the North and West Ends where cleaning is done at night. Three of the thirteen districts, Brighton, Jamaica Plain and Hyde Park, are cleaned by the Highway Division. The division has been handicapped to some extent in keeping the streets clean by our inability to purchase trucks and an adequate number of street cleaning machines, but we have been handicapped to a far greater extent by the so-called "extracurricular" duties that we have had to assume because of the war.

All street cleaning employees and equipment have been assigned for one full week of each month to the house-to-house collection of waste paper and tin cans, and all street cleaning employees have likewise been required to participate in the air raid precaution drills and tests conducted by the local Safety Committee. Assignments of the latter-mentioned nature, worthy and necessary though they may be, have had practically

the same effect on the division that a 25 per cent reduction in personnel and equipment would have. Despite handicaps of this kind, we were able to keep the streets in most sections of the city in a reasonably clean condition, but, unquestionably, we did not reach the degree of efficiency that we hope to reach when we shall be able to purchase modern street cleaning equipment, and when we shall be able to devote the time and efforts of the street cleaning personnel to street cleaning work only.

*Spring Clean-Up Drive.*—A most successful spring clean-up drive was conducted by the division with the cooperation of the Health Department for the two-week period from March 27 to April 8.

Detailed preparations for the drive were started early in March, and full cooperation of the Boston newspapers and the general public was obtained. During this two-week period, every public street in the city was cleaned at least once of the winter's accumulation of sand, mud and other debris. The residents cooperated by cleaning out their back yards, cellars and attics, and by placing the debris and rubbish on the sidewalks on the regular rubbish collection days. The collectors were instructed to remove all such rubbish and haul it to the dump.

In order to arouse public interest in the clean-up, and to obtain the cooperation of all residents, the following steps were taken:

Each school child was given a pledge card and letter signed by the Mayor asking the full cooperation of the children and parents in the Clean-up Drive. The pledge was to be signed by the parent and returned by the pupil to the school.

Each family in the city was furnished with a card containing a copy of Boston's Clean City Code. This card was to be hung up in the kitchen as a daily reminder to the householder.

Three thousand (3,000) cardboard posters were printed and placed in store windows throughout the city.

One hundred (100) full-sized bill posters were erected on prominent billboards in the city.

Three hundred (300) posters were placed on the fronts of street cars and four hundred and fifty (450) posters were placed in subway stations.

The general theme of all these posters, billboards, etc., was to call attention to the big clean-up to be held in Boston from March 27 to April 8, and asking the people to cooperate by cleaning up yards, alleys and vacant lots.

In addition to this printed publicity, meetings were held for a period of two weeks prior to the start of the drive in the various health centers. Our object was to get as many of the residents as possible to attend these meetings, and to take part in informal discussions as to the steps to take to make the clean-up drive a success and to keep the city in a clean condition thereafter. At these meetings, Mayor Tobin, Health Commissioner Gately, and Public Works Commissioner Hyland addressed the gatherings and participated in the informal discussions.

A newsreel was also made, with Mayor Tobin as narrator appealing to the people for cooperation, and portraying unsanitary conditions, improper refuse disposal methods, proper methods, etc. This newsreel was shown in the principal theaters of Boston one week before the drive, and during the first week of the drive.

Radio talks were also given in the interest of the drive by Mayor Tobin, Commissioner Gately, and Commissioner Hyland. As a result of this extensive publicity, and the cooperation of the residents and newspapers, Boston held one of the most successful spring clean-up drives, and the city was in a nearly spotless condition for Easter, April 9, the day following the end of the drive.

*Wartime Activities.*— Every employee in the Sanitary Division was assigned to some task in connection with Air Raid Protection, sponsored by the Boston Safety Committee. Each employee had a card containing his name, address, place of assignment and the type of work to which he was assigned, and which he would be required to perform in the event of an air raid. Several air raid tests were held by the Safety Committee, and the employees responded with alacrity to all such calls and reported to their previously assigned locations, and to the scenes of all so-called "incidents" upon receipt of calls from the various report centers located in all sections of the city.

The collection system adopted by the Boston Salvage Committee for the collecting of waste paper and tin

cans provided for a house-to-house collection in the third week of every month. This collection work was done principally by employees and trucks of the Street Cleaning Service, and the men did an outstanding job, as evidenced by the results. Every street in the city was covered in this important wartime salvage work, and each month complaints of noncollections were rare. This is an outstanding record in view of the fact that there are approximately 200,000 families in Boston, most of whom saved waste paper and tin cans faithfully.

During the year, 15,868,140 pounds of waste paper and 3,010,510 pounds of tin cans were collected and shipped to the waste paper mills and detinning plants.

*Personnel and Expenditures.*—The number of employees working in the Sanitary Division during the year averaged 815, and the budgetary expenditures totalled \$3,093,460.32.

I wish to take this opportunity to pay tribute to the employees of the Sanitary Division for their devotion to duty throughout a most difficult war year. The work of the division was carried on without interruption, and Boston was one of the few cities that did not experience any labor trouble on refuse collection work, or any curtailment or suspension of garbage and refuse collection services.

Former Commissioner of Public Works, George G. Hyland, resigned from that position on December 21, 1944, and was assigned as engineer in the Sanitary Division on the following day.

Respectfully submitted,

ADOLPH J. POST,  
*Division Engineer.*

## APPENDIX D.

REPORT OF THE DIVISION ENGINEER OF  
THE SEWER DIVISION.

BOSTON, January 2, 1945.

*To the Commissioner of Public Works:*

DEAR SIR,—I submit herewith statement of the activities and expenditures of the Sewer Division for the year ending December 31, 1944.

During the fiscal year 1944, there were built by contractors and day labor 0.52 miles of common sewers and surface drains throughout the city. After deducting 0.06 miles of sewers and surface drains, rebuilt or abandoned, the net increase for 1944 is 0.46 miles, which added to the existing 1,222.05 miles of common sewers and surface drains and 30.93 miles of intercepting sewers, makes a grand total of 1,253.44 miles of all sewers belonging to the City of Boston, and under the care of the Sewer Division on January 1, 1945.

There were 50 catch-basins built or rebuilt and 3 abandoned or removed during the year, making a net gain of 47 catch-basins and a grand total of 22,586 catch-basins under the care of the Sewer Division on January 1, 1945.

Entrance fees to the amount of \$1,153.08 have been deposited with the City Collector for collection from estates upon which no sewer assessments were ever paid, in accordance with Ordinances of 1925, chapter 27, section 10.

424 permits have been issued, viz., 221 to district-foremen and contractors and 203 to drainlayers for repairing or laying new house drains. Inspectors from this office have personally inspected the work done under these drainlayers' permits.

Plans for the assessments of estates for sewer construction have been furnished the Board of Street Commissioners, representing 892.23 linear feet of sewers.

1,923 complaints have been investigated and inspectors are instructed to report in writing in each case.

829 catch-basin complaints were received.

100 gasoline traps have been examined in garages and cleansing establishments.

100 grease traps have been examined in hotels, restaurants and commercial establishments.

Reported in writing on 1,917 municipal liens to the City Collector, in accordance with chapter 60, section 25, of the General Laws. Reported orally on about 2,100 requests for information on municipal liens.

Notices have been mailed to abutters in conformity with the Ordinances, chapter 27, section 8, apprising them of the construction of new sewers or repairs to old sewers.

During the year 1944, 3,427 catch-basins were cleaned by day labor. None were cleaned by contract.

Respectfully,

ROBERT P. SHEA,  
*Division Engineer.*

## APPENDIX E.

REPORT OF THE DIVISION ENGINEER OF  
THE WATER DIVISION.

BOSTON, January 2, 1945.

*To the Commissioner of Public Works.*

DEAR SIR,—I respectfully submit the following report of the activities, operations and expenditures of the Water Division for the year ending December 31, 1944.

The department was able to cope with the increased demands for water service to government agencies and private manufacturing plants engaged in war work without extension of additional water mains or the relaying of old mains.

In order to cooperate with the United States Government in the conservation of critical material, the work of laying and relaying water mains has been severely curtailed so that but very little work of this nature was performed during the year.

365 linear feet of water mains were extended, this work being performed to provide facilities to new housing areas developed in connection with the war work. 374 linear feet of pipe were relaid due to defective water mains.

## ENGINEERING BRANCH.

This branch of the Water Division was engaged principally in supervising the installation of additional service pipes to premises occupied by government forces, occasioned by the war.

Due to the decrease in the personnel, and the difficulty of replacing employees during the war, the department has engaged the services of contractors to assist the departmental forces in the City Proper, Dorchester and West Roxbury districts.

## DISTRIBUTION BRANCH.

The regular work of the Distribution Branch, consisting of installation of new services and fire pipes,

repairing of leaks, caring for complaints, shutting off and letting on water, freeing of stoppages in pipes, etc., was performed in such a manner and at such periods as to cause minimum delay and inconvenience to applicants for water, water takers and the general public.

The machine shop and plumbing shop were forced to handle all the drilling and connecting of services in addition to the regular work carried on in these shops, such as the machining and assembling of gates, valves and hydrants, and the department assisted the other branches of the Public Works Department in performing special jobs.

In order to check the leakage of water, a Pitometer Survey of East Boston and parts of Roxbury and Dorchester, known as Pitometer Sections 5, 6 and 14, was completed in 1944, and the contractor was paid for the actual leakage found, not to exceed \$17,000.

#### BUSINESS OFFICE.

The campaign inaugurated in 1938 to enforce the payment of outstanding water bills is still in force. Customers in arrears are notified that the flow of water will be reduced, but yet enough water is left on the premises to provide a minimum for health and sanitary requirements. As a result of this campaign the Water Division ended the year 1944 with a surplus of \$1,350,-224.10, this surplus being due mainly to the collection of bills past due, and the increased consumption of water in government properties and war plants.

Amount of money collected during the year . . . . .	\$5,527,886 19
Amount expended from all sources . . . . .	\$4,177,662 09

The Metropolitan assessment for 1944 amounted to \$2,974,083.69, an increase of \$294,918.37 over the assessment for 1930.

Total amount billed in 1944 . . . . .	\$5,655,497 65
Total amount collected for 1944, bills as of December 31, 1944 . . . . .	\$4,455,844 04
Total amount abated for 1944, bills as of December 31, 1944 . . . . .	\$59,217 72
Total amount collected in 1944 on bills rendered prior to 1944 . . . . .	\$756,423 77

This department contacts the water consumers very frequently throughout the year, and the conduct of the office has been such that I believe a spirit of good will between the customers and the employees has been brought about which is beneficial to the consumer and the City.

Another service to the consumer was inaugurated this year, namely, the issuance of a statement of outstanding water bills. The appreciation of the customers is shown by the fact that the number of liens placed on premises this year has been reduced more than fifty (50) per cent.

Respectfully submitted,

D. M. SULLIVAN,  
*Division Engineer.*

## APPENDIX F.

REPORT OF BOSTON AND CAMBRIDGE  
BRIDGES COMMISSION.

BOSTON, January 2, 1945.

*To the Honorable the Mayor.*

SIR,—As Commissioner for the City of Boston, I respectfully submit herewith the annual report of the Boston and Cambridge Bridges Commission for the year ending December 31, 1944.

The Commission is composed of two members, one appointed by the Mayor of the City of Boston and the other by the Mayor of the City of Cambridge, under provisions of chapter 467, Acts of 1898.

The Commission has charge of the maintenance of the following-named bridges between Boston and Cambridge:

Cottage Farm, Longfellow and Prison Point.

As there is no separate appropriation for the City of Boston's portion of the expenses of this Commission, the same is taken from the appropriation for the Bridge and Ferry Division, Bridge Service. The amount expended during the fiscal year ending December 31, 1944, was \$4,414.57.

Respectfully submitted,

WILLIAM T. MORRISSEY,  
*Commissioner for the City of Boston.*

ANNUAL REPORT  
OF THE  
SUPERINTENDENT OF CONSTRUCTION  
OF THE  
DEPARTMENT OF SCHOOL BUILDINGS

FOR THE TWELVE MONTHS ENDING DECEMBER 31, 1944.

---

HON. MAURICE J. TOBIN, *Mayor of the City of Boston*,  
DR. PATRICK J. FOLEY, *Chairman*, JOSEPH C.  
WHITE, MICHAEL J. WARD, CLEMENT A. NORTON,  
DANIEL J. McDEVITT, *Members of the School  
Committee.*

ANDREW J. DAZZI, *Chairman*, ROBERT A. MACLELLAN,  
FRANCIS C. GRAY, *Board of Commissioners of  
School Buildings.*

GENTLEMEN,— Under the provisions of section 2, chapter 351, of the Acts of 1929, the Superintendent of Construction of the Department of School Buildings is required to submit to his Honor the Mayor, to the School Committee and to the Commissioners of School Buildings, a written report annually, or oftener as required.

In compliance with this statute I therefore respectfully submit for your consideration the following report which contains a financial statement showing in detail all expenditures charged to appropriations made by the School Committee.

<sup>3</sup>\$5,425 obligated 1944 to be paid in 1945 from 1944 funds.

It will be noted that the total budget amount requested and appropriated by the School Committee was \$804,125, while the actual expenditures from this appropriation totalled for the year \$772,423.23, thus leaving at the close of the financial year 1944 an unexpended balance of \$31,701.77. Table No. 2 which follows shows the various items which made up this unexpended balance.

\* Note increase over 1942 expenditure; this is due to absorption of land and buildings pay roll.

Under statutory provisions \$1,223,088.48 was available for alterations and repairs for the financial year 1944. That amount could have been legally appropriated and could have been expended in its entirety by this department.

In reality only \$804,125 was appropriated by the School Committee, and of that amount only \$772,423.23 was actually spent. In other words, for the year 1944 the amount appropriated for alterations and repairs was \$418,963.48 less than the total amount available under statute for that year, and further, the amount actually expended from the annual appropriation for the entire year was \$450,665.25 less than the total amount available under statute, due to an unexpended balance of \$31,701.77.

It is interesting to note here that for the years 1930 to 1937, inclusive, the average appropriation for alterations and repairs was \$1,257,601.89, while the average appropriation for the last seven years, namely, 1938, 1939, 1940, 1941, 1942, 1943 and 1944, was \$769,768.50.

\* \$52,254.36 additional available and appropriated for liquidation of 1937 over expenditure. This allowed under provisions of the Special Act of 1938.  
 † Includes \$1,004.50 balance from appropriation under Special Acts of 1938.

Liquidation cleared as follows:

1938.....	\$49,370 46
1939.....	1,859 15
1940.....	20 25
1941.....	* 1,004 50
	<u>\$52,254 36</u>

\* Balance reappropriated for general alterations and repairs.

NOTE.— Reference to the above table will show that during the year 1944 there was raised for alterations and repairs \$751,268.59, or 52 cents on each \$1,000 of the assessors' valuation for the three preceding years, whereas it is permissible to expend 85 cents as provided by statute.

The total amount appropriated each year by the School Committee provides for the following:

- A. Salaries.
- B. Office expenses.
- C. Alterations for special educational needs.
- E. General alterations and repairs.

On December 31, 1944, the department closed its books with an unexpended balance on the repairs and alterations account of \$31,701.77. In addition to the balance of \$31,701.77, an unexpended balance of \$486 remains from the 1943 account for reappropriation by the School Committee.

The unexpended balance on the land and buildings account was \$7,617.31.

The following table is a financial statement of the Land and Buildings appropriation account:

The following is a reply to criticisms made by George D. Strayer, Director of a Survey of the Boston Schools, conducted under the auspices of the Finance Commission of the City of Boston:

November 3, 1944.

To the Board of Commissioners of School Buildings:  
 ANDREW J. DAZZI, *Chairman*; FRANCIS C. GRAY,  
*Member*; ROBERT A. MACLELLAN, *Member*.

GENTLEMEN,— On Friday, October 27, at the monthly meeting of the Board, I presented that part of the Strayer report pertaining to school building construction and repairs, and I was requested to submit at a later date a complete reply to the findings of the Survey Committee.

In the discussion which took place, it was the consensus of opinion of all present that, because of the publicity given the Survey report, great anxiety might be felt on the part of the parents as to the safety of the children who are occupying school buildings. I was, therefore, instructed to render immediately in writing to the Board my answer to some of the major criticisms.

There are today in the City of Boston 252 buildings now in use for school purposes, divided substantially as follows: One hundred and five first-class or fireproof buildings, 128 second-class or semi-fireproof buildings and 19 third-class all wood constructed buildings. In the report the Survey Committee recommends the

immediate closing of 35 buildings classified as follows: Two first-class, 26 second-class and 7 third-class buildings.

Eliminating the first-class buildings from this discussion, there remains 128 second-class buildings and 19 third-class buildings. These buildings, in general, are old and have been in constant use for a great many years. Because of their age and type of construction, we have been zealous in our attention to them by having frequent inspections and by keeping them always in good repair. I know of no school building in our entire school system which I consider structurally unsafe for everyday occupancy by the pupils and teachers.

I have been interested in reading that part of the Survey Committee report which recommends the immediate closing of 35 buildings. In no instance can I find where the committee states specifically that any one of these buildings is structurally unsafe. It gives as its reasons for closing them and for transferring the pupils to other buildings the following: Decreased enrollment, better housing of children and a saving in the cost of maintenance. They do not charge that they are unsafe, as the recent publicity would indicate.

I repeat what I have said many, many times. We realize that Boston school buildings are old. We would all like to see the school children housed in modern structures. To accomplish this, however, would mean a large financial outlay which in my opinion the city cannot afford at this time.

After a careful study of the criticisms found in the report I submit the following findings:

*Stairways.*—In reference to the criticisms made of open stairways as a hazard in certain school buildings, particularly those not of fireproof construction, I would point out that other means of egress are provided for these buildings, namely, fire escapes, the use of which is in compliance with the requirements of the Boston Building Law. Because of the design of most of our buildings, it would be impossible to install interior fire wells without extensive alterations and without a complete redesigning of the entire structure. If the city were to undertake this work, it would mean tremendous expense and when the alterations were completed we would still have old buildings.

*Fire Escapes.*— We have endeavored on all occasions to see to it that our fire escapes are kept in first-class condition by constant inspection, frequent repairs and painting. Even the Survey Committee offers words of praise for the fire escapes where it states in its report, "An inspection of fire escapes in the Boston schools reveals them in general good condition, fire escape structures are frequently well designed, well supported and carefully maintained." In the report a criticism was made of gates at the base of our fire escapes. These gates are necessary and are equipped with a proper latch which allows the gates to be opened from the inside of the fire escape at all times. The fire escapes on our school buildings are used constantly by the children attending school, and when fire drills are sounded they are very familiar with the use of them.

*Fire Extinguishers.*— It has been the practice of this department to provide fire extinguishers in all buildings and in any part of the buildings recommended by the Fire Department. Each year these extinguishers are recharged according to law by a reputable fire extinguisher company. The work is done regularly during the summer months and is supervised by a representative of the Fire Department. The Survey Committee makes this comment in reference to fire extinguishers in Boston schools, "Commendable progress has been made in the installation of fire alarm systems and soda acid extinguishers." In the same part of the report appears a suggestion that carbon tetrachloride extinguishers be used. Our answer to that suggestion is that the Boston Fire Department does not approve of this type of fire extinguisher for school buildings because of the danger attached. Our extinguishers are in accordance with the requirements of the National Board of Fire Underwriters.

*Fire Standpipes.*— When I took over the work of the department I was much concerned over the condition of the fire hose in many buildings. I found that the hose connected to the standpipe equipment was constantly being tampered with and damaged by the pupils in the schools. I conferred with the Chief of the Boston Fire Department and we both came to the conclusion that, in the event of a fire occurring in a Boston school, it was the chief duty of those in charge to escort the children from the building as quickly as possible and leave the fire fighting to the Fire Department.

*Self-Inspection Blanks.*—The suggestion has been made in the report of the Survey Committee, page 61, chapter 4, that an inspection routine be established. The report further states, "one finds quite often in other communities provisions for inspection by a member of the school, the custodian and a member of the Fire Department, using a blank form supplied by the National Board of Fire Underwriters." For the benefit of the Survey Committee, may I state that this form of self-inspection has been carried out regularly in all of the schools of our city for a long period of years.

*Fire Boxes.*—Criticism has been made of the fire stations in school buildings. It is stated in the report that the hammers which sound the signals are missing in a great many instances. Our answer to this is as follows: Employed in this department are two specialists on fire alarm systems. The duties of both of these specialists are confined wholly to fire alarm systems and fire boxes. They make frequent inspections and are constantly in touch with the Fire Department officials. In reference to the lack of hammers, both employees are constantly replacing fire hammers which have been removed by the pupils during school sessions.

We pride ourselves on the manner in which our fire alarm systems are kept up. Every building contains a fire box connected directly with the Boston Fire Alarm Headquarters. Every station throughout every school building is connected to the existing fire boxes, making it possible to sound a signal from any floor in any building and notify the Fire Department in case of actual fire. The fire stations, of course, may also be used for fire drills within the building. The Chief of the Fire Department of the City of Boston has declared on many occasions that the Boston schools have the finest inspection and fire drill systems in the nation. He has also stated that any school building in his opinion can be vacated in less than three minutes. He believes that our fire alarm and fire drill systems are the best.

In addition to the fire inspections by the members of the Fire Department, our own force of inspectors are constantly visiting schools and making inspections of fire hazards and other conditions, which might endanger the health or lives of the children occupying our buildings.

The Boston Building Department inspectors are also visiting our school buildings, and they make known to us the results of their findings.

The inspectors of the Department of Public Safety also inspect our buildings.

The Electrical Inspection Division of the Boston Fire Department has a corps of electricians who also make inspections of electrical equipment and who report to us any defects found.

In accordance with the requirements of Massachusetts State Laws all boilers in our schools are inspected twice each year by the employees of an authorized insurance company.

I requested the Deputy Superintendent and the Supervisor of Plumbing to submit to me a report on the criticisms made by the Survey Committee regarding the sanitation in Boston schools. A copy of their report to me follows:

*Toilet Room Locations.*— There is something to be said for and against toilet rooms being located on upper floors of school buildings. It has been our experience that unless a secluded section of the building is available for toilet facilities there is always the danger of odors seeping into the classrooms.

*Floor Drains.*— Floor drains are always installed in toilet rooms except in cases where it is possible to pitch the flooring toward the urinals.

*Type of Floor Surface.*— The department in the past has experimented with various types of floor surfaces for toilet rooms. We are convinced that the use of asphalt is preferable to other materials because it is not subject to expansion cracks as is, for example, ceramic tile and terrazzo.

*Water-Closet Seats.*— It is our experience that the integral type of water-closet fixture that is used in the Boston schools is superior to the type having separate seats. The integral fixture has been found to be sanitary and any soiling can be readily detected. We believe there is less danger from contamination in this type of fixture than from that having separate wooden seats.

*Toilet Compartment Partitions.*— The use of marble in place of slate for water-closet compartment partitions is recommended in the report. The reason given is that marble is non-absorptive, and that slate is absorptive and dark in color. We do not agree that marble is

non-absorptive, because from our experience we find it will easily stain and the stain cannot be removed. We have installed marble partitions and metal partitions, and have found out by trial and not by theory that slate makes the best partitions. It is a fact that while pencil marks show clearly on marble, they are hardly noticeable when made on slate. Metal was found to be unsatisfactory, because the finish of the metal could be marked by a sharp instrument and it is impossible to remove the mark. If slate is marked with a sharp instrument, the slate can be refinished and the mark removed.

*Drinking Fountains.*— The report says that “Boston drinking fountains do not provide (1) inclined jet of water, (2) guard to prevent nose and mouth contact with nozzle and (3) an orifice located above the top of the basin.” This statement is incorrect. We have been using for at least 25 years a “Donavan” bubbler head which has inclined jet, top wash, and orifice which is located properly. We do not approve of the guard because our experience shows that it is a source of, and not a protection against, contamination. For the past 30 years no drinking fountains have been installed in toilet rooms; neither have bubblers been installed in wash sinks.

*Unnecessary Fixtures.*— We do not agree with the statement on page 165, last paragraph, that the schools are generally oversupplied with fixtures (plumbing). Our experience proves that the use of many fixtures is not only desirable, but is in accord with state law requirements. We find in practice that our many fixtures work very well, and we certainly cannot agree with the recommendation to have one water-closet for each one hundred boy pupils, and one urinal for each thirty boy pupils.

*Lavatories.*— The type of lavatory wash bowl which is used in our schools is specified in our standard specifications. The specifications call for china, and full description is given. The inference made in this paragraph that we are installing slate or soapstone sinks is wrong. Slate or soapstone sinks have not been installed for washing purposes in our schools for at least 25 years. The recommendation that the lavatory wash bowl be placed inside toilet rooms is all right in theory but not in practice. Our experience has been that lavatories placed in toilet rooms are not

used for the purpose for which they were installed, and as a result unsanitary conditions exist.

*Wash Sinks.*—Service sinks and sinks for class activity rooms have been installed as requested by the School Committee.

*Future Program.*—This department has a program for replacing sub-standard toilet rooms. The plans are already drawn. This program has been temporarily halted for the duration because the critical material necessary to install new sanitation is unobtainable on account of the war.

May I acquaint the members of the Board with the method used by the Strayer Committee in the evaluation of the school buildings now in use. To obtain all of the building data, the Strayer Engelhardt Score Card was used. Each building was visited and analyzed, and the information gathered was filled out on the questionnaire or score card. On each score card there are over two hundred items recorded. Each building could be given the mark of a possible one thousand, if perfect conditions were observed. As far as I have been able to learn, the scorers who collected the information on the various buildings are members of the teaching profession from outside the city who had little or no knowledge of Boston Building Law, schoolhouse construction, heating, electrical or plumbing engineering. The failure mark given each building was in each case the personal opinion of the scorer. I am frank to admit that the score card can give satisfactory results on schoolhouse construction when used by architects or engineers who know all the answers. I haven't much faith in the opinions of the scorer who is responsible for the complaint, so silly and untrue, that intermediate stair landings in our school buildings are cluttered with teachers' toilets and offices. I cannot understand why such an exaggerated statement is published in the Survey report. There are other exaggerations and contradictions in the report which have only resulted in portraying an entirely wrong picture of the safety of our school buildings.

We are not objecting to the recommendation of the Survey Committee that 35 old buildings be closed if the School Committee decides that they are no longer needed for school purposes. We would, however, ask these questions. Why is the Henry Abrahams School recommended for closing? This building is only 15

years old, one story high, and is of fireproof construction throughout. Again, if the age of the building is being considered, then why are no recommendations made for the closing of the Louisa May Alcott School in Roxbury which is 99 years old, and the Parkman School in South Boston which is 102 years old. The last two buildings referred to are much older than many of the others named in the list of the 35 schools.

It is most unfortunate that the impression has been widely spread that the Boston school buildings are fire traps and unsafe for occupancy. Statements giving these impressions are untrue and are thoroughly unfair.

I desire to repeat that I know of no school building now in use in our system that is structurally unsafe, nor do I know of any building which, in my opinion, is a fire trap or which constitutes a fire hazard.

The Fire Department, through its Fire Chief, District Chief, wire inspectors and members of the Fire Prevention Bureau, is doing an excellent job. These men frequently visit our buildings and submit to our office detailed reports of their investigations.

May I cite below the opinion of Samuel J. Pope, Boston Fire Chief, on the safety of our school buildings:

“There is in the Boston schools the finest inspection system to be found anywhere in the country. Any Boston school can be completely emptied in three minutes or less in case of fire. To be sure there are some old buildings, but we do the best we can with what we have.

“There is little danger of a catastrophe in our schools, thanks to our alert and efficient inspection service, frequent drills and a large number of fire alarm boxes.

“We operate in accordance with the rules of the National Board of Fire Underwriters. The school authorities make a monthly inspection and are accompanied every third month by officers of the Fire Department. The Fire Prevention Department maintains a permanent man, Lieut. Thomas Lane, on the job checking these schools. He does nothing but inspect.”

From 1930 up to the time when the war started, this department carried out a well-organized program for the replacement of old buildings with new fireproof structures. During that time, 26 new fireproof buildings have been erected, and 27 fireproof additions have been made on other buildings. In the same

## NOTES ON APPENDICES IV AND V.

I.—Intermediate. G.—Elementary, higher grades. P.—Elementary, lower grades. K.—Kindergarten. M.—Manual Training. S.—Special. T.—Trade School. D.—Domestic Science. E.—Elementary, lower grades.

The cost of building does not include the architect's commission.

The cost of the buildings erected between 1875 and 1894 taken from City Architect's Report, 1894.

Previous to 1909 in counting rooms only classrooms are taken, and pupils are averaged at fifty to a room; since 1909, rated number of pupils and cost per pupil are figured by actual seating capacity of building according to size of classrooms.

**TYPE I BUILDING**—Building of incombustible materials in all structural parts; exterior bearing walls and frames are of four-hour fire-resistive construction, and floors and roof of three-hour fire-resistive construction, and furnish protection of three-hour fire-resistive rating against the spread of fire.

**TYPE IV BUILDING**—Building with exterior bearing walls of masonry or other construction of incombustible materials of four-hour fire-resistive construction, and frames, floors and roof of wood.

**TYPE VI BUILDING**—Building with walls, frames, floors and roof of wood.

## CHANGES IN PERSONNEL OF THE BOARD OF COMMISSIONERS OF SCHOOL BUILDINGS.

On November 30, 1945, Mr. Francis C. Gray, 349 Commonwealth avenue, a member of the Board, completed his term of office. Because of his many outside interests in educational and charitable institutions, together with his arduous duties and responsibilities as President of the Fiduciary Trust Company, Mr. Gray reluctantly decided that it would be impossible for him to continue as a member of our Board for another term. In Mr. Gray's departure, the Department loses a fine, capable leader, and one who brought to the Board a wealth of business experience. The Board acceded to Mr. Gray's wishes and proceeded to elect his successor.

Mr. A. Emmet Logue, a prominent building contractor, was unanimously chosen as Mr. Gray's successor. The Department is fortunate in having Mr. Logue as Commissioner. He has had vast experience as a builder of many important structures throughout the United States. He served as Chairman of the Court House Commission and had full charge of the construction of the Suffolk County Court House. Mr. Logue was pleased to accept the appointment and has already rendered valuable service because of his building knowledge and experience. It will be recalled to the minds of the older men in the Department that Mr. Logue's father at one time served as Chairman of the Schoolhouse Commissioners. His administration stands out prominently because of the important building projects which were undertaken and completed during his many years of efficient and honorable service.

## CONCLUSION.

I wish to express to His Honor the Mayor, the School Committee, the Superintendent of Schools and to the members of the Commission of School Buildings my grateful appreciation for their kindness to me and for their continued support.

Respectfully submitted,

JAMES J. MAHAR,  
*Superintendent of Construction.*

ANNUAL REPORT  
OF THE  
STREET LAYING-OUT DEPARTMENT

FOR THE YEAR ENDING DECEMBER 31, 1944.

---

BOSTON, January 1, 1945.

HON. MAURICE J. TOBIN,  
*Mayor of Boston.*

DEAR SIR,— The Board of Street Commissioners presents the following report of the Street Laying-Out Department for the year ending December 31, 1944.

Streets having a total length of .70 miles were made public ways.

Under authority of the Acts of the Legislature for the levying of assessments on account of benefits derived from the laying out and construction of highways, there has been assessed on real estate, especially benefited, the sum of \$16,118.21. For benefits derived from sewerage works construction, assessments to the amount of \$2,483.36 have been made. For benefits from construction of sidewalks and edgestones in public streets, assessments to the amount of \$18,601.57 have been made.

In accordance with the provisions of Chapter 60, Section 23, of the General Laws, the Assessment Division of this department is required to submit reports on street and sewer betterments. The number of municipal liens upon which reports were made during the year was 1,917.

Under the provisions of the Act of the Legislature giving the street commissioners authority to take land

for and order the construction of sewerage works, twelve hundred and fifty-one square feet of land was taken.

Damages in the amount of \$2,907.31 were awarded for street improvements.

Assessments were levied on account of the improvement of the following streets:

STREET.	Assessment.
Maverick street.....	\$1,981 70

## ENGINEERING DIVISION.

The regular work ordered by the Board of Street Commissioners was completed. This work covered surveys, levels, plans (complete with grades), estimates of costs and calculations of assessments to be levied upon abutting estates of streets which were to be laid out and constructed and surveys and plans of all lands taken or to be sold by city departments.

Other work of the Engineering Department for the year ending December 31, 1944, has consisted of making such surveys and plans as have been required by the several city departments; giving lines and grades for abutters intending to build or remodel; giving information to the general public; to private engineers whose surveying is based on data available only in this

office; to publishers of directories, maps and atlases; and approving plans of proposed lay-outs of conduits, or pipes, submitted by the public utilities companies.

Engineering and drafting services were rendered to the following departments:

Assessors	School
Auditors	School Buildings
Budget	Traffic
Election	Vital Statistics
Fire	George Robert White Fund
Foreclosed Real Estate	Dorchester Municipal Court
Institutions (Long Island)	Roxbury Municipal Court
Law	Boston Housing Authority
Municipal Survey	U. S. Army and Navy
Park	Boston Consolidated Gas Company
Penal Institutions (Deer Island)	Boston Edison Company
Police	Boston Elevated Railway
Public Buildings	New England Telephone and Tele- graph Company
Public Works	
Public Market	

Three hundred and fifty orders were executed for the Public Works Department; these consisted of the staking out of new streets for construction, giving lines and grades for repairs and reconstruction of old streets, testing lines and grades after completion of work, measuring amount of work performed, and making plans showing the quantities to be assessed upon abutting owners. Among these orders were:

Seven plans of streets showing proposed locations for future catch-basins furnished Sewer Service.

Thirty-two catch-basins were staked out at request of Sewer Service and duplicate sketches were furnished showing the location of spikes, ties, etc.

Measurements have been obtained for the Sewer Service for the purpose of making sewer assessments on fifteen streets.

Forty-three plans, representing 9,753 linear feet of underground pipes, conduits, etc., were examined for the sewer service, and, when necessary, locations for proposed catch-basins were marked on plans.

Three notices of contracts to lay artificial stone sidewalks were received, lines and grades marked. The work when completed was measured and reported upon to the Paving Service. In one case the Paving Service was notified that the existing edgestones should be reset to line and grade, preparatory to the laying of artificial stone, and upon completion of the work edgestones were tested and reported upon.

Twelve requests for edgestones were received, lines and grades marked, and measurement of amount of edgestones required was reported to the Paving Service.

Four notices requesting that lines and grades be given were received from the Park Department, acted upon, and, when necessary, sketches were furnished showing lines and grades. One survey and plan for Park Department of land conveyed by Convalescent Home. One survey and plan of land acquired by Park Department on Forest Hills Street. Land Court plan also made.

Sidewalk grades and street lines were furnished to thirty-eight owners or architects for buildings to be built or remodelled.

Eighteen plans for the Paving Service showing the estates, owners' names and the quantities to be assessed on five streets were made.

Seventy-six estimates of the amount of damages caused by grade changes made during construction of streets were furnished to the Board of Street Commissioners.

Three surveys have been made for the Schoolhouse Commission.

Two surveys and plans have been made for the Fire Department.

Information furnished Water Department as to construction details of wall on Dorchester Avenue opposite Post Office building.

Ten plans of streets to be laid out, widened or altered, and estimated benefit plans have been made for the Board of Street Commissioners.

Petitions for the registration of land in the Land Court are referred to the Mayor whenever the City of Boston is an interested party. These cases are examined by the Law Department and this Engineering Division for the purpose of protecting the city's interests. During the past year fifty such cases have been investigated.

Twelve hundred and twenty-five titles were examined and fifty-two plans copied from the Registry of Deeds.

Six instruments were tested for magnetic variation.

Thirty-nine hundred blueprints have been made during the year.

Three plans of easements to be taken for sewerage works have been made during the year.

Three sewer takings have been staked out.

There are on file in this division 50,840 plans.

Under the provisions of chapter 323 of the Acts of 1891, and acts in amendment thereto, all plans of proposed streets on any new developments must be submitted to the Board of Street Commissioners for approval. During the year two such plans have been submitted and approved.

Five plans for discontinuance of public streets have been made for the Boston Housing Authority; one for United States Navy and one for private owners.

Six plans of accident cases have been made for the Law Department.

Eight surveys and plans were made for the Foreclosed Real Estate Department.

Seventy consultations regarding accidents, street widenings, damage claims, etc., have been held with the Law Department. On twenty-eight occasions our engineers have been summoned to give expert testimony pertinent to cases on trial in the Courts of Suffolk and Middlesex Counties.

Four graphic diagrams were made for Budget, Municipal Survey and Auditor's Departments.

All ward maps and atlases brought up to date for Election Department.

Four surveys made for the Public Buildings Department on the question of unsafe buildings.

Fifteen men assigned to snow removal work in various districts.

Full engineering services during the year were rendered to the Penal Institutions Department including plans and specifications for Eastern Avenue wharf repairs.

Preliminary work, including Triangulation surveys, in connection with the construction of the Long Island Viaduct, has been extended. A contract for test borings on the site of the Viaduct was supervised; and the necessary field work in preparation of and during the progress of the contract was under our direction.

DATES OF CHANGES MADE IN THE BOUNDARY LINE  
BETWEEN THE CITY OF BOSTON AND THE CITIES  
AND TOWNS BORDERING THEREON.

---

Boston incorporated as a town Sept. 7, 1630; as a city Feb. 23, 1822; act accepted by the town March 4, 1822. Suffolk County incorporated May 10, 1643.

Common land called Tri-mountain. Nov. 7, 1632, "ordered that the neck of land betwixt Powder Horne Hill and Pullen Poynte shall belong to Boston." Mar. 4, 1633, bounds between Boston and Roxbury established. May 14, 1634, "Boston shall have convenient enlargement at Mount Wooliston," to be reported to the next general court. Sept. 3, 1634, "ordered that Wynetsemit shall belong to Boston." Sept. 25, 1634, Mount Wooliston and Rumney Marshe annexed. March 4, 1635, Deer, Hog, Long, and Spectacle Islands granted to Boston. March 4, 1635, Thompson's Island granted to Dorchester. July 8, 1635, bounds between Boston and Charlestown established. March 28, 1636, bounds between Boston and Charlestown and Boston and Dorchester established. Oct. 28, 1636, Lovel's Island granted to Charlestown provided they use it for fishing purposes. March 9, 1637, Noddle's Island annexed. May 13, 1640 "Mount Woolaston" established as Braintree. Oct. 7, 1641, bounds between Boston and Roxbury, at Muddy river established. Oct. 7, 1641, bounds between Boston and Cambridge established. Oct. 27, 1648, Lovel's Island granted to Charlestown provided "half the timber and firewood shall belong to the garrison at the castle." Nov. 13, 1705, part called Muddy river established as Brookline. Jan. 10, 1739, part called Winnissimet, Rumney Marsh, and Pullen Point (excepting Noddle's Island and Hog Island) established as Chelsea.

In the records of the Selectmen of Boston, 20th May, 1788, the boundary line between Boston and Roxbury is defined in accordance with the provisions of the General Court, passed April 30, 1787 (Statutes 1786, Chap. 87). The line was subsequently modified by the following Acts:—Statutes 1836, Chap. 37, established Mar. 16, 1836; 1837, Chap. 202, established April 19, 1837; 1850, Chap. 281, established May 3, 1850; 1859, Chap. 210, established April 25, 1859; 1860, Chap. 172, established May 8, 1860. See C. C. 906, Engineering Dept. (Surveying Division.)

Norfolk County set off from Suffolk county, March 26th, 1793.

South Boston, under the name of "Dorchester point," was annexed to Boston, March 6th, 1804. Chap. 111, Acts of 1803. Jan. 27, 1816, part of Cambridge annexed to Brighton.

Thompson's Island set off from Dorchester and annexed to Boston, while it shall be used for charitable purposes, Mar. 25, 1834.

Portion of Newton north-west from a line drawn from the corner in the boundary line, near Church St., south-westerly to Charles river, annexed to Roxbury April 23, 1838. Chap. 117, Acts of 1838.

April 21, 1852, part of Dedham annexed to West Roxbury upon payment of \$400 by West Roxbury, April 30, 1852, the act accepted by West Roxbury; July 4, 1853, \$400 paid by West Roxbury to Dedham, and the act took effect.

Washington Village, formerly part of Dorchester, was annexed to Boston, May 21st, 1855. Chap. 468, Acts of 1855. See C. C. 906, Engineering Dept. (Surveying Division.)

Portion of the Back Bay District between Arlington street and Hereford street was annexed to Boston from Roxbury by an act of the Legislature passed April 6, 1859. Chap. 210, Acts of 1859. Provided, however, that the same be accepted by the voters of each city. Accepted April 25th, 1859. See C. C. 906, Engineering Dept. (Surveying Division.)

An act changing the boundary line between Boston and Roxbury, making the centre of Hammond street the boundary line instead of the thread of the creek, was passed April 2, 1860, Chap. 172, Acts of 1860. Provided, however, that the line be accepted by the city councils of Boston and Roxbury. Passed May 8th, 1860. See C. C. 906, Engineering Department. (Surveying Division.)

Roxbury (incorporated as a town, Sept. 28, 1630) was annexed to Boston, Jan. 6th, 1868, Chap. 359; Acts of 1867.

Dorchester (incorporated as a town, Sept. 7, 1630) was annexed to Boston, Jan. 3d, 1870. Chap. 349; Acts of 1869.

The change in the Boundary Line between Boston and West Roxbury, between Glenway and Morton streets, was made April 2, 1870. Chap. 144; Acts of 1870.

The change in the Boundary Line between Boston and West Roxbury, at Seaver street, was made April 2, 1870. Chap. 146; Acts of 1870. See C. C. 906, Engineering Dept. (Surveying Division).

Portion set off from Boston to West Roxbury, between Morton street and the Hyde Park line, April 2, 1870. Chap. 146; Acts of 1870.

The Brookline marshes annexed to Boston from Brookline, under provisions of Chap. 374, Acts of 1870, approved June 18, 1870; accepted by the City Council of Boston, Nov. 4, 1870.

The whole of Mt. Hope cemetery annexed to Boston from West Roxbury, April 12, 1872. Chap. 197; Acts of 1872.

Three changes were made in the Boundary Line between Boston and Brookline, April 27, 1872; viz., from Washington street in a generally north-easterly direction to just beyond Aspinwall Avenue (in Brookline); from the centre of Muddy river at a point on the southerly side of Longwood Avenue bridge, west 610 feet to the centre of said river; the changing of the boundary from the west side of St. Mary's street to the east side and the extension of the same north to Charles river, south to the centre of Muddy river, and west to the former corner in the Boundary Line. Chap. 267; Acts of 1872. See Vol. 28, p. 77; Engineering Dept. (Surveying Division.)

Charlestown, incorporated as a town Aug. 23, 1630; annexed to Boston, Jan. 5, 1874; Chaps. 303 to 314, Acts of 1873.

Brighton, set off from Cambridge and incorporated as a town Feb. 24, 1807; annexed to Boston, Jan. 5th, 1874. Chap. 286; Acts of 1873.

West Roxbury, set off from Roxbury and incorporated as a town May 24, 1851. Annexed to Boston, Jan. 5, 1874. Chaps. 303 to 314. Acts of 1873.

The portion of Brookline west of St. Mary's street extended; and north of the southerly line of Brighton (now Commonwealth) Ave., annexed to Boston May 8th, 1874. Chap. 220; Acts of 1874.

The portion of territory comprising the southwesterly half of Chestnut Hill reservoir annexed to Boston from Newton, May 29, 1874. Chap. 227; Acts of 1874.

Portion of Boston north from Nonantum street to Charles river, set off to Newton, July 1, 1875. Chap. 184; Acts of 1875.

The change in the Boundary Line between Boston and Brookline, between St. Mary's street extended and Chestnut street, through Muddy river, made May 27, 1890. Chap. 339; Acts of 1890. See C. C. 571. Engineering Dept. (Surveying Division.)

The change in the Boundary Line between Boston and Somerville (between Miller's river and a point about 150 feet south from Roland street) made May 4, 1891. Acts of 1891; Chap. 294. See C. C. 74. Engineering Dept. (Surveying Division.)

An Act annexing the territory known as Old and New Squantum, and Big and Little Moon Island, was approved May 12, 1893. This Act was passed with the proviso that the mayor and city council of the city of Boston and the mayor and city council of the city of Quincy accept the same within two years from its passage. This was not done on account of objection by the city of Quincy. Chap. 336; Acts of 1893.

The change in the Boundary Line between Boston and Brookline, from Commonwealth Avenue, near its junction with Brighton Avenue, to the Newton Boundary Line at Chestnut

Hill reservoir, was made April 13th, 1894. Chap. 242; Acts of 1894. See T. 666 Engineering Dept. (Surveying Division.)

The change in the Boundary Line between Boston and Newton, between Commonwealth Avenue and Reservoir Driveway, made March 29th, 1898. Chap. 242; Acts of 1898. See L. 2974. Engineering Dept. (Surveying Division.)

The change in the Boundary Line between Boston and Cambridge (through Charles river from Harvard bridge to a point nearly opposite Fruit street) made March 29th, 1898. Chap. 243; Acts of 1898. See L. 2973. Engineering Dept. (Surveying Division.)

The change in the Boundary Line between Boston and Hyde Park, at the corner in said boundary line (at Ashland street) made April 1st, 1898. Chap. 251; Acts of 1898. See L. 2972. Engineering Dept. (Surveying Division.)

The change in the Boundary Line between Boston and Newton, between Commonwealth Avenue and Nonantum street, made May 13th, 1898. Chap. 431; Acts of 1898. See L. 2990-2991-2992. Engineering Dept. (Surveying Division.)

The change in the Boundary Line between Boston and Cambridge, from a point in Charles river about 1,880 feet southwest from the northeasterly line of Cambridge bridge, through Charles river and Miller's river, to the corner in the boundary line between Cambridge and Somerville, made March 29, 1910. (Acts of 1910, Chap. 312. See L. 4207, Street Laying-Out Department.)

Hyde Park, comprising sections of Dorchester, Milton, and Dedham, incorporated as a town April 22, 1868, annexed to Boston Jan. 1, 1912, by St. 1911, chapters 469 and 583, accepted Nov. 7, 1911.

HIGHEST RECORD TIDES.

- Feet.
- 15.62 April 16, 1851, average of seven observations, North Market street and vicinity, leveled on in 1854 by Charles Harris, Surveying Division n. b. 22, p. 54 (15.10) above mean low water, (United States Coast Survey Chart of Boston Harbor, 1857).
  - 15.64 December 26, 1909, average of twenty-nine observations, on waterfront. Nut Island to Deer Island, elevations determined in most cases by John H. Edmonds, before January 1, 1910, from points put in for that purpose, 1902 to 1905.
  - 15.50 Actual elevation at North Ferry, Boston proper, as observed on staff gauge, at high water. From comparison of contemporary diary and newspaper accounts the only tide of this class, prior to 1851, found by John H. Edmonds, was that of February 24, 1722-23, which was in all probability about 16.00.

## THE HIGH TIDE OF DECEMBER 26, 1909.

The morning tide of December 26, 1909, attending the severe storm of this date on the New England coast, was one of the highest ever recorded in Boston Harbor. At Boston Light the predicted time of high tide was 10.20 a. m. The wind from the late afternoon of the 25th until nearly noon of the 26th was from the east and northeast over Boston Harbor and Massachusetts bay, rapidly increasing in force during the evening of the 25th to very high velocities soon after midnight, which continued undiminished through the morning and day of the 26th. At Cape Cod, Highland Light, the velocity at 8 a. m. of the 26th was 48 miles north-east; noon, 72 miles; 2.15 p. m., 84 miles; at 5 p. m., 66 miles, all from the eastnortheast, and at midnight

it was 60 miles north. At Hull, Mass., the hourly movements on the 26th were as follows: Midnight to 1 a. m., 37 miles; 1 to 2 a. m., 43; 2 to 3 a. m., 46; 3 to 4 a. m., 63; 4 to 5 a. m., 58; 5 to 6 a. m., 60; 6 to 7 a. m., 56; 7 to 8 a. m., 60; 8 to 9 a. m., 54; 9 to 10 a. m., 65; 10 to 11 a. m., 55; 11 a. m. to noon, 48. During the afternoon the velocity ranged between 40 and 50 miles per hour. The maximum velocity at Hull was about 72 miles per hour at 9.35 a. m. At Boston the hourly movements from midnight to noon of the 26th ranged between 25 and 39 miles, the hourly maximum rates between 32 and 45 miles per hour, the latter occurring at 5.10 a. m. from the northeast. The increasing and high wind occurring with the rising tide, together with a high run of tide, caused the water in Boston Harbor to reach approximately the record height of the tide of April 16, 1851, which at the United States Navy Yard was 15 to 15.1 feet, the height of the tide of December 26, 1909, being, at the same station, 14.98 feet. In general, the tide in Boston Harbor and Massachusetts bay was approximately 3.5 feet above the predicted height. The actual height, as given by the United States Engineers and other reliable authorities at the following places, was as follows: Newburyport, Mass., Harbor, Black Rock Wharf, 12.68 feet; Sandy bay, Rockport Harbor, 13.64; Boston Harbor, Deer Island, 14.56; Plymouth Harbor, 14.8; Barnstable bay, 13.25; Provincetown Harbor, 14.35. The tide at all of these stations, with the exception of Plymouth and Barnstable, was approximately 5 feet above mean high water.

The high water caused great damage to waterfront and shore property in many places by the flooding of cellars and by washouts. The greatest damage occurred in portions of Chelsea and Everett, Mass., where the breaking of a dike permitted the tide to cover a large residential section to a depth of several feet, causing the death of two persons and temporarily driving several thousand persons from their homes.—J. W. Smith, District Forecaster. (Climatological Service of the Weather Bureau. Report for January, 1910.)

ANNUAL REPORT  
OF THE  
**BOSTON TRAFFIC COMMISSION**  
FOR THE  
YEAR ENDING DECEMBER 31, 1944.

BOSTON, January 3, 1945.

HON. MAURICE J. TOBIN,  
*Mayor of Boston.*

DEAR MR. MAYOR,— In accordance with the Revised Ordinances, the Boston Traffic Commission herewith submits its annual report for the year 1944.

Recent predictions by our military leaders establish the end of the war in 1945.

The immediate post-war period, with increased motor vehicle registrations, will cause greater motor vehicle mileage on city streets. The intown truck movement will be much greater, and peak traffic loads will continue higher than before.

Existing street systems will be wholly inadequate, and stagnation will result.

Immediate construction of new facilities is imperative.

The creation of a north-south express highway traversing the easterly side of the city from the vicinity of the Charles River Dam to a point in Albany street south of Dover street would be the solution to the problems we immediately face.

The Boston Traffic Commission is represented on and has consulted with the legislative Post War Highway Commission, which has been engaged during the war in the preparation of traffic data to indicate the number, capacities and approximate locations of new highways

which must be constructed to achieve a comprehensive solution of Boston's traffic problem for at least a quarter of a century after the war.

### EXPENDITURES.

The expenditures for this department during the year 1944 under the segregated budget system were \$146,085.50.

### STATISTICS.

Number of vehicles checked in above studies . . . . .	2,100
Number of intersection vehicular volume counts made, . . . . .	16
Number of vehicles checked in above intersection counts . . . . .	210,000
Number of miscellaneous investigations made . . . . .	55
(These miscellaneous investigations include truck counts, vehicle by type counts, speed runs, pedestrian counts, and so forth.)	
Number of loading zones established . . . . .	793
Number of emergency permits issued . . . . .	32

## ACCIDENTS.

The Boston Traffic Commission during the past year received from the Registry of Motor Vehicles and the Boston Police Department over 5,000 reports of personal injury automobile accidents.

Accidents are again on the increase in the City of Boston. Eighty-two per cent of all persons killed in motor vehicle accidents were pedestrians. Throughout the United States in the year 1944, pedestrian killings in traffic occurred at the rate of one every hour.

Of the 78 persons killed, 20 were over sixty-five years of age who were pedestrians. This age group then represents 26 per cent of all pedestrian fatalities. This figure for Boston is one per cent less than the national average, which was 27 per cent for the year 1944. Only 7 per cent of the United States population is over sixty-five years of age. These statistics prove that a person in this age group is four times more vulnerable to death by automobile accident than those in any other age group.

It is for all of us to "Hold That Line" against further increase in accidents. If we again revert to pre-war driving methods students of the situation are agreed that the annual toll of traffic deaths in the United States will exceed 50,000. Pedestrians particularly must adjust their habits to more traffic and higher speed.

## TRAFFIC SIGNALS.

This commission is now maintaining automatic traffic signals at 164 intersections, comprising 621 posts, 950 signal faces and 2,898 individual lamps. The signals at six of these locations, which were temporarily discontinued during 1942 and 1943 in accordance with the gasoline conservation program, were also kept out of service during 1944. However, the signals at two other locations, which had been discontinued for the same reason, were restored to service in 1944.

No new signal installations were made during 1944 because of continued wartime restrictions on materials and equipment. Nevertheless, several important changes were effected in existing signal installations in order to increase their operating efficiency.

The control mechanism at the intersection of Commercial street and Foster street was changed from pre-timed, fixed cycle operation to flashing operation

with pedestrian push-button control. This change has eliminated much unnecessary delay to vehicular traffic at this intersection.

Further progress in the program for substitution of plain yellow for green-yellow change periods was accomplished by the installation of non-overlap timers at three more intersections in the Unit I signal system, at the following locations:

Beacon street and Park street.  
Beacon street, School street and Tremont street.  
Bromfield street and Tremont street.

As a result, thirty-four timers in the Unit I system have now been converted to non-overlap operation, in addition to all of the isolated signals.

At the intersection of Chapman street and Rutherford avenue, Charlestown, an automatic time switch and flasher mechanism were added to the traffic signal controller for night-flashing operation. All of the isolated signals are now equipped with this feature.

Due to an increase in vehicular traffic and the resultant hazards, the hours of automatic operation were extended and the hours of night-flashing operation correspondingly shortened at eight isolated intersections to previous pre-war settings.

The following list is a summary of major traffic signal repairs effected by our maintenance force during the year 1944:

Traffic signal lamps replaced . . . . .	1,475
Signal posts (non-control) replaced . . . . .	6
Control posts replaced . . . . .	10
Signal housings repaired . . . . .	66
Timers changed and repaired . . . . .	76
Control board repairs . . . . .	32
Miscellaneous minor trouble calls . . . . .	605

#### LOADING ZONES.

A loading zone, as defined in the traffic regulations, is that portion of a roadway adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials, indicated by yellow paint applied to the adjacent curb, marking the limits of the reserved area, as authorized by the Boston Traffic Commission.

Chapter 319, Acts of 1935, gave the Traffic Commission authority to charge a fee of fifty cents per foot per year for the establishment and maintenance of loading zones.

That the maintenance of these reserved spaces is of great assistance to business firms in that it insures access to their premises for the delivery and shipment of merchandise is evidenced by the fact that practically every holder of a permit for one of the loading zones has renewed it during 1944.

Anyone interested in obtaining a loading zone can call or write this commission and an investigator will call on him and advise what steps should be taken to obtain authorization for a loading zone. Seven hundred ninety-three zones were established in 1944 and \$10,224 was received in fees and deposited at the City Collector's office.

#### PARKING.

Prior to the war economists were agreed that the automobile had by no means reached its fullest use. Therefore it certainly can be expected that when the war is finally over this headache will become worse. A great jump in city traffic will correspondingly multiply parking problems. If post-war job and wage demands are to be met at all then production and consumption of goods must greatly increase. The providing of parking facilities therefore becomes most urgent.

As a member of the Post War Highway Commission, the Boston Traffic Commission has made available parking studies for research. It is well understood that the creation of adequate parking facilities is almost as important as the construction of arteries that carry heavy volumes of traffic.

#### NEW ONE-WAY STREETS.

Steady flow characteristics must be built into the streets of Boston. Until such time as redesign can be brought about by new construction the Boston Traffic Commission is committed to a policy of inexpensive installation of one-way systems. One-way streets are one of the oldest forms of street traffic control. Judiciously applied such systems will move traffic more freely with less hazard than almost any other adjustment. Because of this value the Boston Traffic

Commission in 1944 continued its policy by making the following streets one way:

Intervale street, Roxbury:

From Warren street to Blue Hill avenue.

Jewett street, West Roxbury:

From Mt. Hope street to Neponset avenue.

Philbrick street, West Roxbury:

From Neponset avenue to Jewett street.

St. Stephen street, Roxbury:

From Public Alley No. 801 to Gainsborough street.

#### DAMAGES TO CITY PROPERTY.

During the year, as the result of being struck by motor vehicles, equipment maintained by this commission suffered damages in the amount of \$1,980.42.

Through bills submitted to persons identified as causing the damages, the city has been reimbursed in the amount of \$795.58 for damages sustained during 1944.

#### PAINTED ROADWAY MARKINGS.

During the year 240,275 linear feet, or 46 miles, of painted roadway markings were installed. This includes stop lines, center lines and lane lines, whose principal function is in regimenting the alignment of motor vehicles and expediting the movement thereof. Also included are many miles of crosswalks, the primary purpose of which is the safety of pedestrians, principally children in the vicinity of schools.

#### POLICE OFFICERS' SPOTLIGHTS.

Ninety-one spotlights are being maintained at street intersections for illuminating traffic officers during the evening hours. In addition, there are two spotlight poles still standing from which electric service has been discontinued.

During the year 1944, our maintenance force replaced fifty burnt-out spotlight lamps and refocused twelve spotlights.

#### SIGNS.

Fifty permanent traffic signs of various types, principally warning signs, were erected during the year.

In addition, 250 permanent signs were erected to enunciate new rules adopted during the year.

We are maintaining 9,600 permanent signs in public streets.

Two thousand portable-type signs are maintained at our shop and have been placed out during the year in connection with street closings, detours, parades, sport events, and to designate coasting streets and homes where serious illness exists.

#### AUTOMOBILE REGISTRATION.

During 1944 the Massachusetts registration of passenger vehicles and motorcycles, including reissues, was 775,068, and the registration of trucks, including reissues, was 107,302, a total of 882,370. This is a decrease of 17,984, or 1.9 per cent, as compared with the 1943 registration.

Very truly yours,

ANNUAL REPORT  
OF THE  
WEIGHTS AND MEASURES DEPARTMENT  
FOR THE YEAR 1944.

---

BOSTON, January 2, 1945.

HON. JOHN E. KERRIGAN,  
*Acting Mayor of Boston.*

SIR,—In compliance with the requirements of the Revised Ordinances, I have the honor to submit the annual report of the Weights and Measures Department for the year 1944.

ORGANIZATION.

The department was established by ordinance in 1890. The present force consists of a Sealer, a chief clerk, sixteen deputy sealers and a coal inspector. At the present time, three members of the department are serving with the armed forces of the United States.

The work performed is both mechanical and supervisory and requires the transportation of working standards of weights and measures. A fleet of nine trucks are in daily use. Daily reports of all work performed with all fees collected are submitted by the employees.

The headquarters of the department, consisting of an office and work room, in which are kept the primary standards issued by the Commonwealth of Massachusetts, are located in Rooms 105, 106 and 107 of the City Hall Annex, Boston.

## GENERAL DUTIES.

The general duties of the Sealer and the deputies are set forth in the General Laws of Massachusetts, chapters 94, 98 and 101. Briefly, they state the requirements regarding the sealing, adjusting or condemning of all weighing or measuring devices that are in use for the buying or selling of goods, wares or merchandise, for public weighing or for hire or reward. Sealers are also authorized to enforce the laws pertaining to the giving of false weight or measure; the laws relative to the licensing of hawkers, pedlers, and transient vendors; the examination of coal as to quality, and the weighing of coal when offered for sale; the inspection of containers, the size, shape and dimensions of which are established by law; the investigation of complaints and the prosecution of violations found when the evidence warrants such action.

## SUMMARY OF THE YEAR'S ACTIVITIES.

Business concerns serviced for sealing of weighing and measuring devices . . . . .	12,064
Devices tested and sealed . . . . .	68,742
Fees charged for sealing and adjusting devices . . . . .	\$19,542.75
Expenditures of the department . . . . .	\$46,464.53
Food and fuel commodities reweighed . . . . .	27,651
Inspections and tests of devices after sealing . . . . .	57,652
Complaints investigated and adjusted . . . . .	131
Violations prosecuted in the courts . . . . .	31
Fines imposed by the courts for violations . . . . .	\$845.00

## REWEIGHING OF FOOD, FUEL AND OTHER COMMODITIES.

The vast majority of the merchants in this city are honest and fair in their dealings with the public. They welcome inspections by this department, they know that after having their weighing or measuring devices tested and sealed by this department that they are protected against loss arising from incorrect devices.

There are however some few who seek to enrich themselves by selling commodities by short weight or measure.

To protect the consumers of this city against this class of dealer and to correct errors that do arise due to inexperienced help and haste in the packaging of merchandise, this department during the past year devoted considerable time to the reweighing of goods put up in

advance of sale. This work also consisted of reweighing of orders awaiting delivery, and the ordering of merchandise to determine whether charges were made for trays, paper, etc., used in the packages; merchandise was also reweighed to determine whether the correct weight was received. A list of the reweighings made during the year follows.

### COMPLAINTS AND PROSECUTIONS.

During the year 1944 the department received 131 complaints from citizens, each one being investigated, and when possible a report of our findings sent to the person making the complaint.

This department needs the active support of the purchasing public in reporting violations of weights and measures laws. Their cooperation is earnestly requested; they can greatly aid by reporting any irregularity to this department.

In addition to the investigation of complaints made to the department, investigations on our own initiative were made, with the result that 31 violations were presented to the courts and fines amounting to \$845 were imposed.

#### ENFORCEMENT OF THE HAWKER AND PEDLER LAW.

The department is charged with the enforcement of all laws relative to the licensing of the above-named dealers and during the year devoted much time to this work. These dealers are required to be licensed annually and in order to secure the various types of licenses must first obtain the approval of this department specifying that all weighing or measuring devices used by them have been tested and sealed. Licenses and permits are issued by the Health Commissioner of the City of Boston and the Director of Standards at Room 194, State House, Boston. Licenses were issued as follows:

Division of Standards:		
City licenses . . . . .	359 at \$25	\$8,975
Suffolk County licenses : . . . . .	91 at 9	819
Health Commissioner:		
Market licenses . . . . .	194 at \$12	2,328
Local licenses . . . . .	136 at 7	952
Ice permit plates . . . . .	392 at 2	784
Total amount deposited with City Collector,		<u>\$13,858</u>

#### INCOME AND EXPENSE.

In addition to the above amount received indirectly, the department received in fees for the testing and sealing and adjusting of weighing and measuring equipment \$19,590.50.

The budget expenditures for the year totaled \$46,464.53.

Appended is a table of the testing, adjusting and sealing and condemning of the various devices in use in the City of Boston. There were 12,064 business places serviced during the year.

## CONCLUSION.

In concluding the report for this department for the year 1944, the Sealer feels justified in stating that every effort was made to offer a high degree of protection to the people in all transactions that involved the use of weights and measures.

The success of the work of the department for the past year is due to the effort on the part of the employees who throughout the year have been faithful in the performance of the work assigned them.

To the employees, to his Honor Mayor Tobin, the Director of Standards and his inspectors and to all citizens who have cooperated with the department during the past year the Sealer extends his sincere thanks.

Respectfully submitted,

JOHN F. MCCARTHY, *Sealer.*

TWENTY-FIRST ANNUAL REPORT  
OF THE  
BOARD OF ZONING ADJUSTMENT  
FOR THE YEAR ENDING DECEMBER 31, 1944.

Boston, February 1, 1945.

*To the Mayor of the City of Boston,  
and*

*To the General Court of the Commonwealth of Massachusetts.*

In accordance with the provisions of section 20, chapter 488, of the Acts of the year 1924, and amendments thereto, the Board of Zoning Adjustment of the City of Boston submits herewith, in the form of its twenty-first annual report, a statement of its acts and doings and receipts and expenditures for the year ending December 31, 1944.

Twice during the past year have the members of the Board found very definite reason for regret.

Mr. Frederic H. Fay, who had served as Chairman of the Board since its first meeting in 1924, passed away on Monday, June 5, 1944. Resolutions of appreciation and sympathy were adopted at a meeting of the Board, together with such other action as circumstances permitted, in formal manifestation of regret and esteem. The Board adopted the following resolution:

With deep sorrow the Board of Zoning Adjustment of the City of Boston records the death, on

Monday, June 5, 1944, of Frederic H. Fay, Chairman of the Board, and extends heartfelt sympathy to Mrs. Fay and the other members of his family.

For nearly fifty years Mr. Fay has served the City of Boston — first, in connection with the design and construction of city bridges, then as member and chairman of the City Planning Board. Mr. Fay had a most important part in the introduction of the Zoning Program and its enactment into law. Under his direction, the first Zoning Map was prepared. Finally, in the administration of the law itself, his impartial rulings, his wisdom, tact and judgment inspired the confidence and respect, not only of his fellow members of the Board, but of the public to whom he gave so generously of his time and talents. At the first meeting of this Board on August 29, 1924, he was elected its chairman and served in this office until his death.

His wise counsel and friendly attitude was interwoven with a quiet strength based on ability and firmness of spirit toward his fellowman. He contributed much to the high standards of planning and zoning in his community and to all phases of civic life. In his death the Board of Zoning Adjustment mourns the loss of an able and trusted leader and an outstanding citizen. We will long remember our beloved associate with regard and affection.

Mr. James R. Gibson, who had served as a member of the Board and who had given generously of his time and ability to the work of the department for fourteen years, passed away on May 13, 1944. An expression of sympathy on the death of Mr. Gibson was read and incorporated in the records as follows:

The Board of Zoning Adjustment, having learned of the death of its esteemed fellow-member, James R. Gibson, extends to Mrs. Gibson and the

other members of his family an expression of its deep sympathy in their bereavement, together with its high regard for Mr. Gibson, its appreciation of his faithfulness in attendance, and of his helpful and constructive viewpoint in all of the activities of the Board.

John H. Gilbody, a member of the Board upon nomination of the Team Owners' Association, whose appointment expired April 30, 1943, was reappointed for the five-year term ending April 30, 1948. Mr. Gilbody appeared before the City Clerk on December 27, 1944, and was duly sworn as such officer.

John R. Nichols, having been appointed a member of the Board by his Honor the Mayor to fill the vacancy created by the resignation of Frank M. Gunby (upon nomination of the Boston Society of Civil Engineers), appeared before the City Clerk on December 29, 1944, and was duly sworn as such officer for the term ending April 30, 1949.

No other changes have taken place in the membership of the Board during the past year. However, at the end of the year there were two vacancies on the Board and two members serving though their terms had expired. At the end of the year new appointments were being considered to improve this condition.

A vacancy in the staff appointment of engineer was created when Frank H. Malley resigned on June 30 to take the position of Planning Director for the Buffalo City Planning Commission. Mr. Malley had served admirably as engineer for the Board for the past eight years and a letter expressing the appreciation and esteem in which he is held by the members of the Board was sent to him.

In accordance with the provisions of section 9, chapter 3, of the Revised Ordinances of 1925, the Board organized at an executive meeting on July 18, 1944, by its election of the following officers: Dana Somes,

Chairman; Eliot N. Jones, Vice-Chairman; Elisabeth M. Herlihy, Secretary; Thomas E. McCormick, Engineer; and Mary T. Downey, Clerk.

In view of the lessened activities, at the present time, in the positions of engineer and investigator for the Board, it was decided that the work be combined in the duties of engineer.

The method of procedure in connection with petitions for changes in the boundary lines of the zoning districts remains unchanged. Public hearings, executive sessions and inspection trips were held as found necessary, the staff of the City Planning Board rendering such assistance as was essential in the way of investigations, field surveys, drafting and clerical work.

During the year one public hearing was held to entertain a petition for a change to a less restrictive district. The petition did not meet with approval. A detailed record of the proceedings has been filed by the Board in the office of the Building Commissioner, as required by law. This record is open to public inspection, and notice of the decision has been mailed to all parties in interest.

Since the enactment of the Zoning Law in 1924, 285 petitions have been filed for changes in zoning boundary lines. In but three instances have decisions of the Board been set aside. In these instances the question of procedure was at fault, while the constitutionality of the Board was definitely upheld.

No amendments have been added to the Zoning Law during the past year.

The request for an appropriation for a Re-Zoning Study, for the purpose of making amendments to the Zoning Map, failed to meet the approval of the Council.

#### FINANCIAL STATEMENT.

During the year the Board has expended for verbatim records, personal and professional services, advertising, blueprints, postage and miscellaneous supplies the sum of \$1,089.08. Since its establishment in 1924 the Board has received total appropriations from the Reserve and Contingent Funds to the amount of \$29,500. Of this there was a balance on hand December 31, 1944, of \$427.60. This means a total expenditure over a period of twenty years of \$29,072.40.

For the first three years no filing fee was authorized in connection with the filing of petitions. In 1927 a \$10 filing fee was imposed by legislative act and in 1931 this was raised to \$25 for each petition. As a result there has been deposited with the City Collector from 1927 to date the sum of \$2,025; or a net expenditure on behalf of the Board of Zoning Adjustment since August 11, 1924, of \$27,047.40.

MESSAGE OF THE MAYOR

RECOMMENDING

APPROPRIATIONS AND TAX ORDERS FOR  
THE FINANCIAL YEAR 1945.

---

OFFICE OF THE MAYOR,  
BOSTON, January 2, 1945.

*Honorable Council of the City of Boston.*

GENTLEMEN,— Section 3 of the City Charter of the City of Boston, as most recently amended by chapter 604 of the Acts of 1941, provides that all appropriations, other than for school purposes, to be met from taxes, revenue or any source other than loans, shall originate with the Mayor, who, not later than the first Monday in February of each year, shall submit to the City Council the annual budget of the current expenses of the city and county for the current fiscal year. Accordingly, I herewith recommend to your Honorable Body the maintenance appropriations for the fiscal year beginning January 1, 1945, and ending December 31, 1945, for the city and county departments. There is submitted in addition my allowances for the revenue departments of the city which are self-sustaining, and are not provided for from tax collections but from fees charged for their services.

The budget recommendations for 1945 must continue to reflect the wartime conditions imposed upon municipalities. Services which are vitally necessary to the public health, safety and welfare must be provided, notwithstanding shortages of labor, materials, and equipment.

Municipal salaries in previous years, while not large, have attracted competent personnel because of other factors involved, such as security, retirement benefits and promotional opportunities within classified limits. The armed forces have drained the supply of younger men and women, and private industry has offered opportunities for higher compensation which many find difficult to resist.

These factors, plus an undeniable advance in the cost of living, have made it necessary to grant increases to personnel in practically every phase of municipal activity. Our public safety is dependent on fire and police protection. Maintenance of public health is dependent upon the professional and technical staffs in the Health Department, Hospitals and Institutions. Responsibility for sanitation, water supply, and maintenance of highways and transportation devolves upon the Public Works Department. We can ill afford to be penurious to those who contribute vital services, the retention of which are imperative. Accordingly, this budget, in the main, reflects increases given to the personnel of the Fire, Police, Hospital, Institutions, Park and Public Works Departments.

Although we are much further advanced on the road to victory, the end of the war cannot be predicted with any degree of certainty. A continuance of restrictions and priorities on new construction for the acquisition of new equipment must, therefore, be expected. However, our plants must not be allowed to deteriorate completely. Consequently, larger appropriations must be made for repairs and alterations, especially in the City Hospital, Sanatorium, Long Island Hospital, Fire and Park Departments. Where equipment has reached its last stages of usefulness, an effort must be made to replace it, at least in part. Therefore, some appropriation must be made in anticipation of the possibility of the acquisition of such equipment.

No comment is needed with reference to the groups relating to supplies and materials, as apparently a slight decrease has resulted, probably due to stabilization of prices. While there has been a slight reduction in the number of cases of old age assistance and aid to dependent children, which has resulted in a corresponding reduction in Federal grants, the more liberal provisions to the remaining cases have increased the amount to be paid by the city by over \$600,000, without

benefit of increase in Federal grants. The increase in this group is further augmented by the large number of retirements on pension in the Police and Fire Departments during the year 1944, and those expected in 1945.

The possibility that European theater operations may end within the year 1945 cannot be denied. Therefore, provision has been made for the construction of new bridges, new buildings, and sewerage works, by the inclusion of special appropriations as a condition precedent in the exercise of borrowing power, under chapter 224 of the Acts of 1936.

The usual Special Appropriations have been made for continuance of the Emergency Compensation Allotment, Snow Removal, Contingent Fund, Reserve Fund, Bridges Repairs, Ferry Improvements, Long Island Hospital, Veterans' Reception and Information Center, Victory Gardens, Conventions, Public Celebrations and Construction and Reconstruction of Sidewalks. To these have been added a small Special Appropriation to meet the initial cost of establishing a Central Pay Roll Bureau to facilitate the handling of pay rolls, and a lump sum appropriation to provide for the establishment of the newly created Board of Recreation, pending the determination of funds needed for complete functioning of the Board.

Amended charter provisions limit departmental work programs until action upon the budget by the City Council. The exigencies of present circumstances and conditions make it highly desirable that this procedure be expedited. Therefore, in order to afford the maximum opportunity for unrestricted departmental functioning, permit me to urge prompt consideration of, and action upon, this budget.

Respectfully,

MAURICE J. TOBIN,  
*Mayor.*

## APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1945

---

*Ordered*, That to meet the current expenses payable during the financial year beginning with the first day of January, 1945, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or County of Suffolk, or the departments or officers thereof, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

*Ordered*, That the appropriation for Water Service, current expenses, and the payment to the State, under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said works and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for the *City Record* be met by the income of said publication and any excess over income from taxes; and the appropriation for the Traffic Tunnel be met by the income from tolls and any excess over income from taxes; in accordance with the provisions of section 11, chapter 297, of the Acts of 1929, as amended by chapter 74 of the Acts of 1935; and the appropriation for the Board of Real Estate Commissioners be met by the income of said board, exclusive of proceeds from the sale of foreclosed property, and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1944, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation; by the income of the financial year beginning January 1, 1945; by taxes on the polls and estates in the City of Boston; and by the proceeds of any duly authorized loans.

*Ordered*, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

*Ordered*, That all taxes raised to meet the appropriations of the city, and all taxes assessed for meeting the city's proportion of the state tax for the year 1945, or for any other taxes or assessments payable to the Commonwealth shall be payable in two equal installments, on July first and on October first of 1945; that interest shall be charged on all taxes remaining unpaid after the first day of November, 1945, in accordance with the provisions of chapter 59, section 57, of the General Laws, as amended, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the first day of October, 1945, until paid, and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

*Ordered*, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

**ORDINANCES OF 1929.**

---

**CHAPTER 1.**

---

**CONCERNING PROFESSIONAL OUTDOOR SPORTS ON THE LORD'S DAY.**

SECTION 1. The following regulations are hereby established for the regulation and restriction of athletic outdoor sports or games on the Lord's Day and for the licensing of privately owned premises to be used for such sports or games:

1. No license shall be issued until a liability insurance policy or bond has been filed in the city clerk's office in form satisfactory to the law department and in amount approved by the city council.

2. There shall be no violation on said premises of chapter 136 of the General Laws, or any amendments thereto, or of any of the rules and regulations prescribed in said license.

3. The licensee shall furnish such sufficient facilities for free drinking water on said premises as shall be approved by the health commissioner.

4. The fee or total charge made for any seat anywhere in or on said premises for the witnessing of the playing of professional athletic outdoor sports or games shall in no case be greater on the Lord's Day than on each week day.

5. The license shall be for a term ending on November 15 in each year and the fee established herein shall be for a year or any portion thereof.

6. The license fee for the period expiring November 15, 1929, shall be \$2,500 for any privately owned park or field which has a seating capacity of more than 40,000 persons; \$1,750 where the seating capacity is more than 30,000 persons; \$1,000 where the seating capacity is more than 20,000 persons; \$500 where the seating capacity is more than 10,000 persons; and \$100 where the seating capacity is less than 10,000 persons. Any license granted by the city council shall not be issued until payment of the fee prescribed in this regulation.

7. No licensee shall permit any temporary seats or other obstruction of any kind or nature in any aisle, stairway or passageway of any grandstand, bleachers, or other structure on said described premises, nor allow any persons thereon or therein to remain in any aisle, stairway or passageway during the playing of any sport or game on said premises.

8. The licensee shall permit any police officers detailed by the police department to enter and inspect said premises at all times and shall employ to preserve order on said premises only regular police officers designated therefor by the police commissioner or the commanding officer of the division, and shall pay to the police commissioner for the services of such regular police officers such amount as shall be fixed by the commissioner.

9. The licensee shall permit at all times to enter and be about said premises such members of the fire department as shall be detailed by the fire commissioner to guard against fire; shall keep in good condition and so as to be easily accessible such standpipes, hose, water pails, axes, extinguishers and other apparatus as the fire commissioner may require and shall allow such members of the fire department in case of fire on said premises to exercise exclusive control and direction of all employees and of all means and apparatus for the extinguishing of fire therein.

10. The licensee agrees to accept a license, if granted, on the express condition that said licensee shall conform to these rules and regulations and that the license is subject to revocation for any violation thereof.

SECT. 2. This ordinance shall take effect upon its passage.

### CHAPTER 2.

---

#### PROHIBITING UNNECESSARY NOISE.

SECTION 1. Sections 91 and 92 of Chapter 39 of the Revised Ordinances of 1925, as amended, and Chapter 4 of the Ordinances of 1931 are hereby repealed.

SECTION 2. Chapter 39 of the Revised Ordinances of 1925, as amended, is hereby amended by inserting therein the following section:

SECTION 91. (a) Subject to the provisions of this section, the creation of any unreasonably loud, disturbing and unnecessary noise in the city is prohibited. Noise of such character, intensity and duration as to be detrimental to the life or health of any individual is prohibited.

(b) The following acts are declared to be loud, disturbing and unnecessary noises in violation of this section, but said enumeration shall not be deemed to be exclusive, namely:

1. The sounding of any horn or signal device on any automobile, motorcycle, bus, street car or other vehicle

while not in motion, except as a danger signal; the sounding of any horn or signal device on any such vehicle while in motion, except as a danger signal after or as brakes are being applied and deceleration of the vehicle is intended; and the sounding of any such horn or signal device for an unnecessary and unreasonable period of time; provided that any such noise shall be plainly audible at a distance of one hundred feet.

2. The playing of any radio, phonograph, or any musical instrument or other instrument intended or utilized so as to reproduce sound, in such a manner or with such volume as to annoy or disturb the quiet, comfort or repose of persons in any dwelling, hotel or other type of residence; provided that any such noise shall be plainly audible at a distance of fifty feet and provided that nothing herein contained shall be construed to prohibit playing by a band or orchestra in a hall, building, or in the open air.

3. The keeping of any animal or bird which by biting or by causing frequent or long continued noise shall disturb the quiet, comfort or repose of any person in the vicinity.

4. The use of any automobile, motorcycle, street car or other vehicle so out of repair or so loaded or in such manner as to create loud and unnecessary grating, grinding, rattling or other noise; provided that any such noise shall be plainly audible at a distance of one hundred feet.

5. The blowing of any steam whistle attached to any stationary boiler, except to give notice of the time to begin or to stop work or as an alarm or danger signal.

6. The discharge into the open air of the exhaust of any steam engine, stationary internal combustion engine, motor vehicle, motor boat or outboard motor engine, except through a muffler or other device which will effectively prevent loud or explosive noises therefrom.

7. The erection, demolition, alteration, or repair of any building, and excavation in regard thereto, except between the hours of seven a. m. and six p. m. on weekdays or except, in the interest of public safety or welfare, upon the issuance of and pursuant to a permit from the building commissioner, which permit may be renewed for one or more periods of not exceeding one week each.

8. The creation of any excessive noise on any street

adjacent to any school, institution of learning, or court while the same is in session, or adjacent to any hospital or church, which unreasonably interferes with the conduct of the foregoing; provided that any such noise shall be plainly audible at a distance of twenty-five feet and provided that a conspicuous warning sign, using appropriate words, has been displayed in such street indicating that the same is a school, hospital, church or court street.

9. The creation of a loud and excessive noise in connection with loading or unloading any vehicle or the opening and destruction of bales, boxes, crates and containers.

[Approved March 11, 1941.]

### CONCERNING TAX TITLE PROPERTY.

Chapter twenty-five of the Revised Ordinances of 1925 is hereby amended by striking out section seven, as inserted by section three of chapter three of the Ordinances of 1935 and as amended by chapter two of the Ordinances of 1937, and by inserting in place thereof the following new section seven:

SECTION 7. The foreclosed real estate division is hereby established as a division of the public buildings

department. The division shall be in charge of the person appointed as custodian of foreclosed real estate under the authority of, and who shall exercise the powers and perform the duties provided by, chapter three hundred and fifty-eight of the Acts of 1938 as amended. The custodian may expend, in the performance of his duties, such sums as may be specified in the annual budget and the expenses so incurred shall be paid from the income of the division, exclusive of the proceeds from the sale of foreclosed property, or, if the income is insufficient, from such appropriations as may be made by the mayor and city council. In the discharge of his duties the custodian may obtain the assistance of employees of the public buildings department to the extent that may be approved by the superintendent. Any real estate acquired by the city through the foreclosure of tax titles which may be deemed valuable for any public purpose may be transferred, by order of the city council approved by the mayor, from the care, custody, management and control of the custodian to the care, custody, management and control of any city department.

*[Approved August 18, 1941.]*

### CONCERNING CIVILIAN DEFENSE.

SECTION 1. There is hereby established the City of Boston Committee on Public Safety, which shall have charge of civilian defense of lives and property in Boston. The committee shall be composed of the mayor, as chairman, and of such department heads and other persons, not exceeding twenty in number, as the mayor may appoint from time to time. From the members so appointed the mayor shall designate an executive director, who shall receive such compensation as the mayor may determine. Each member of the committee shall serve at the pleasure of the mayor or until the repeal of this ordinance. The committee may appoint and compensate an executive secretary and other technical and staff personnel necessary to the performance of its functions.

SECTION 2. In the discharge of its functions, the committee shall cooperate with federal, state, and

municipal authorities. To the extent permitted by law, the committee shall act for the City of Boston in carrying out the provisions of chapter 719 of the Acts of 1941, including, without implied limitation, the conduct of blackouts, air raid warnings, and other defense activities and the appointment, training, and equipping of volunteer, unpaid public protection units.

SECTION 3. The committee may expend for the purposes herein stated such funds as may be appropriated or as may be otherwise made available.

SECTION 4. The police commissioner may furnish, on such occasions and to such extent as he may deem advisable, the assistance of the police department to another city or town in the suppression of riots or other forms of violence therein, in accordance with the provisions of section 5 (b) of chapter 719 of the Acts of 1941.

SECTION 5. This ordinance shall remain in force during the effective period of chapter 719 of the Acts of 1941, or any act in substitution therefor or continuation thereof. [Approved December 16, 1941.]

### CONCERNING COLLECTION OF WATER INCOME.

SECTION 1. Chapter thirteen of the Revised Ordinances of 1925 is hereby amended by striking out section four and inserting in place thereof the following:— *Section 4.* The collector shall, whenever a water rate is paid, immediately notify the commissioner of public works of such payment.

SECTION 2. Chapter twenty-seven of the Revised Ordinances of 1925 is hereby amended by striking out section twenty-two and inserting in place thereof the following:— *Section 22.* The commissioner shall have the care and control of all property acquired or held by the city for the purposes of its water supply; shall maintain the same in good order and condition; shall use and operate the same and furnish all supplies required therefor; shall purchase, lay, maintain and test all meters, pipes and other fixtures and appliances necessary for supplying water to the inhabitants of

the city, including the placing of drinking fountains and supplying the same with cold water; shall take all measures necessary to protect and preserve the purity of the water; shall exercise a constant supervision over the use of water; shall have control of the water supply and may in a public emergency shut the water off and let it on at such times as he deems necessary; shall, with the approval of the mayor, from time to time determine and establish the rates for the use of water; shall, whenever a water rate has remained unpaid for thirty days after its due date, send notice to the owner or tenant of the premises to which the water is supplied, that if the water rate continues to remain unpaid the water will be shut off and a lien for the amount due established as required by law; shall file the statements necessary to create liens for unpaid accounts; shall, if a water rate is not paid within ten days after sending the notice herein provided for, shut off the water from the particular service unless such action is inconsistent with law or unless, in the opinion of a physician designated by the commissioner, the shutting off of such water would endanger the life of any person; shall not let on again water shut off for nonpayment of a water rate until a service charge of two dollars, in addition to the amount of the unpaid account, is paid except where the law requires the letting on again of the water without the payment of the unpaid account. However, the commissioner may, in his discretion, waive the payment of such two dollar service charge where the unpaid account is less than twenty dollars. The provisions relative to the shutting off and letting on of water shall apply when two or more persons take water from the same service pipe although one or more may have paid the amount due from him or them. No charge shall be made for sending the notice herein provided for.

SECTION 3. Chapter twenty-seven of the Revised Ordinances of 1925 is hereby further amended by striking out section twenty-three, as most recently amended by section one of chapter six of the Ordinances of 1930, and inserting in place thereof the following:—*Section 23.* The commissioner shall, consistently with the ordinances, make contracts for the sale of water, and send out bills therefor, which shall be payable to the city collector; shall provide that bills for specific supplies of water shall be due and payable in advance and actually paid before the water is let on, that bills

for water furnished and measured by meter shall not be less than eight dollars during any consecutive twelve months' period and shall be due and payable on the due date specified on each bill rendered, and that the due dates thus specified shall be so established as to require payments at least as often as semi-annually. All contracts shall stipulate that an omission to send or a failure to receive a water bill under this section or a notice under the preceding section shall not affect the validity either of the water rate or of the proceedings for its enforcement or collection.

SECTION 4. Chapter twenty-seven of the Revised Ordinances of 1925 is hereby further amended by striking out section twenty-four, as most recently amended by section two of chapter six of the Ordinances of 1930, and inserting in place thereof the following:— *Section 24.* The commissioner may designate one of his subordinates to be the head of the water division, who shall, if the commissioner so directs, make abatements of charges for water where improperly assessed and exercise the powers of the commissioner relative to the shutting off of water for nonpayment of a water rate and the waiver of the service charge for the shutting off and letting on of water; who shall also receive all money paid for service charges for the shutting off and letting on of water and all money paid or deposited on account of main, service, fire, elevator, motor and other pipes and the laying thereof and for repair work; shall give a receipt in behalf of the city therefor; shall pay, from the money so received, the amount found by him to be due the person paying any such money, as excess over the amount due the city; and shall, on or before the fifth day of every month, pay over the money in his possession due the city, and account for all money so received by him since the last accounting, as provided in section eighteen of chapter three of these ordinances.

SECTION 5. This ordinance shall take effect beginning with the first day of January, 1942.

**CONCERNING THE DISPLAY AND DISTRIBUTION OF  
ADVERTISING MATTER IN THE CITY STREETS.**

SECTION 1. Section thirty-seven of chapter thirty-nine of the Revised Ordinances of 1925 is hereby repealed and in lieu thereof the following section thirty-seven is substituted:

SECTION 37. Except in accordance with a permit from the commissioner of public works no person shall, for the purpose of advertising goods, wares or merchandise for sale, while on foot in any street, carry and display any show card, placard or sign, nor shall any person distribute to persons in any street for the purpose of advertising goods, wares or merchandise for sale, handbills, cards, circulars or papers other than newspapers, nor shall any person having the control of any vehicle used principally for advertising permit such vehicle to operate in any street north and east of Massachusetts avenue. The commissioner of public works shall establish, with respect to such advertising matter, such uniform rules governing the size of show cards, placards, and signs as shall be reasonably necessary to prevent interference with public travel and for the other convenience and safety of the public and such rules governing the size of handbills, cards, circulars and papers other than newspapers which may be distributed in the street as shall be reasonably necessary to prevent littering or other hazard to public safety. Each permit issued hereunder shall contain a copy of the rules relating thereto and shall be limited by its terms to the authorization of conduct permitted thereby and otherwise legal.

No permit shall be required nor shall this ordinance operate to affect, interfere with or in any way abridge the right of persons on the streets to carry or display non-commercial show cards, placards or signs or to dis-

tribute non-commercial handbills, cards, circulars or papers other than newspapers.

SECTION 2. Section forty-one of chapter thirty-nine of the Revised Ordinances of 1925 is hereby amended by striking therefrom the following:

“ ; or distribute to persons on a street, handbills, cards, circulars or papers of any kind except newspapers.”

## CHAPTER 3.

CONCERNING THE REMOVAL AND STORAGE OF VEHICLES  
INTERFERING WITH THE REMOVAL OF SNOW.

SECTION 1. The commissioner of public works, for the purpose of removing or plowing snow, or removing ice, from any street under his jurisdiction or the park commission for streets or roads under its jurisdiction, may remove, or cause to be removed, to some convenient place, including in such term a public garage and outdoor parking area, any vehicle interfering with such work.

SECTION 2. If the commissioner, acting under the provisions of section one, orders the removal of any vehicle by a person or agency other than the city, a written order for such removal shall be given by the commissioner or his authorized representative at the time of removal, provided, however, that in an emergency such order may be given orally. Any such written order shall state that it is subject to the provisions of this ordinance, a copy of which shall appear thereon. Any such oral order shall be accompanied by the statement that it is subject to the provisions of this ordinance and shall be confirmed in writing within twenty-four hours.

SECTION 3. The commissioner shall keep a record of vehicles removed under the provisions of section one. Not later than ten hours after any such removal the commissioner shall give notice thereof to the police commissioner, and not later than the second business day following any such removal the commissioner shall publish notice thereof at least once in a newspaper published and having a general circulation in the city of Boston. The record kept and the notices given and published by the commissioner shall include (a) the registration number and general description of the vehicle removed, (b) the time of removal, and (c) the place from which and to which the vehicle was removed.

SECTION 4. The cost of the removal of any vehicle under the provisions of section one and the storage charges, if any, resulting therefrom shall be paid by the owner of such vehicle.

SECTION 5. The amount to be paid by such owner for all costs of removal, exclusive of storage charges, shall not exceed five dollars. The amount to be paid by such owner for storage charges shall not exceed the rate of one dollar for each twenty-four hour period. Subject to the foregoing limitations, the commissioner shall determine the cost of removal and storage of vehicles removed or stored by the city.

### CONCERNING THE SALARIES OF FIRST ASSISTANT ASSESSORS.

Section five of chapter three of the Revised Ordinances of 1925, as amended by chapter one of the Ordinances of 1938, and as most recently amended by chapter 4 of the Ordinances of 1944, is hereby further amended by striking out that portion thereof dealing with the salaries of the assessors and inserting in place thereof the following:

“The assessors — the chairman, seven thousand five hundred dollars; each of the four other assessors, six thousand dollars; each first assistant assessor, one thousand dollars for street work and preparation therefor, and one thousand dollars for services on dooming board and work on abatements and investigations.”

[Approved March 21, 1945.]

### CONCERNING THE TAKING OF SHELLFISH.

Effective April 9, 1945, no person shall dig or take shellfish from those contaminated areas in the limits of the city of Boston which have been determined by the department of public health to be suitable for the taking of shellfish for treatment at an approved purification plant unless he holds, in addition to the state permit required by law, a permit to do so from the

committee on licenses of the city council. To avoid undue depletion the number of permits to be issued annually is limited to twenty. Should there be a greater demand for permits than the limit herein determined, further permits may be issued with preference to residents of Boston. [Approved April 16, 1945.]

NOTE.— The foregoing ordinance was approved by the Director of Marine Fisheries April 18, 1945.

### AMENDING THE BUILDING CODE CONCERNING CERTAIN TEMPORARY STRUCTURES.

1. Section 106 of chapter 479 of the Acts of 1938 is hereby amended by inserting in the definition of "building" the following sentence: The word "building" shall not include such frame-works and tents as are customarily used exclusively for outdoor carnivals, lawn parties or like activities — so as to read as follows:

"Building," a structure forming a shelter for persons, animals or property, and having a roof. The word "building" shall be construed, where the context allows, as though followed by the words "or part thereof." The word "building" shall not include such frame-works and tents as are customarily used exclusively for outdoor carnivals, lawn parties or like activities.

2. Section 203 of said chapter is hereby amended by inserting after the word "stands" in the second line of paragraph (c.) the words "frame-works and tents as are customarily used exclusively for outdoor carnivals, lawn parties or like activities," so as to read as follows:

(c.) Temporary structures to be used in connection with construction work and temporary reviewing stands, frame-works and tents, as are customarily used exclusively for outdoor carnivals, lawn parties or like activities, may be erected in either fire zone and of any type of construction, subject to the approval of the commissioner, and to such conditions and for such time as he may in each case specify.

[Approved June 14, 1945.]

NOTE.— The foregoing ordinance was recommended by the Building Commissioner under date of June 11, 1945.

## CHAPTER 7.

CONCERNING VACATION LEAVE AND SICK LEAVE FOR  
EMPLOYEES OF THE CITY OF BOSTON.

SECTION 1. On and after the effective date of this ordinance the following rules and regulations concerning vacation leave and sick leave shall apply to employees of the city of Boston except the uniformed forces of the Fire Department and the Police Department.

## SECTION 2. VACATION LEAVE.

*Rule I.* Appointing officers shall grant to permanent employees of the city of Boston and temporary employees who have completed six months of continuous service, vacation with pay, not to exceed the following:

For less than one year's service, vacation allowance of one day for each month of service. For more than one year's service and less than ten years' service, vacation allowance of two weeks.

Appointing officers shall grant for more than ten years' service, but less than twenty years' service, vacation allowance of three weeks; for more than twenty years' service, vacation allowance of four weeks.

*Rule II.* The assignment of vacation periods shall be arranged by the appointing officers for such time or times as best serve the public interest. Vacation allowances may not be accumulated from one vacation year to another without authorization of the mayor.

*Rule III.* Absences on account of sickness in excess of that authorized under the rules therefor or for personal reasons not provided for under sick leave rules may, at the discretion of the appointing officer, be charged to vacation leave.

*Rule IV.* Employees whose services have been terminated through resignation, retirement, or dismissal prior to receiving vacation in the current year, may be granted salary in lieu of any vacation not received. Employees reinstated or on leave of absence without pay may be credited with their vacation status at the termination of their previous service and allowed such proportion of their vacation under rule I as their actual service bears to full time for the same vacation year,

except that employees in military service are to be allowed full vacation credit.

*Rule V.* All departments of the city shall keep a register showing records of vacations, both accrued and granted, and records of attendance, for each employee in such form as directed by the budget department. The information on such register shall be transmitted to said budget department upon request.

### SECTION 3. SICK LEAVE.

*Rule I.* Employees of the city in appointive positions shall, after completing six months of continuous service, be allowed sick leave with pay for periods not to exceed fifteen working days annually for each year of service thereafter.

*Rule II.* Sick leave not used in any year may be accumulated, but in no event to exceed ninety days, except that further sick leave may be granted in special cases by signed authorization of the mayor, upon recommendation by the department head.

*Rule III.* Sick leave with pay shall be granted to employees only when they are incapacitated for the performance of their duties by sickness, injury, exposure to contagious diseases or by serious illness or death of members of employees' immediate family.

*Rule IV.* Notification of such absences shall, where conditions warrant, be given as early as possible on the first day of absence. If such notification is not made, such absence may, at the discretion of the appointing officer, be applied to vacation leave or leave without pay. For periods of absence of five working days or more or a total number of days' absence which exceeds ten working days in any one calendar year, the appointing officer may require evidence in the form of a physician's certificate for the necessity of such absence. If such certificate is not filed within seven days after a request therefor, such absence may be applied, at the discretion of the appointing officer, to vacation leave or leave of absence without pay.

*Rule V.* All departments of the city shall keep a register showing records of sick leave, both accrued and granted, for each employee in such form as directed by the budget department. The information on such register shall be transmitted to said budget department upon request.

*Rule VI.* Employees whose service is terminated through death, resignation, retirement, or dismissal shall not be entitled to compensation in lieu of any leave not taken. Employees reinstated may be credited with accrued sick leave due them at the termination of their previous service.

*Rule VII.* Upon inception of the operation of this plan, all city employees shall be allowed a prior service sick leave credit equivalent to seven and one-half working days per year for each prior year of service, but in no event to exceed ninety days.

### CONCERNING THE DEPUTY CITY TREASURER.

Chapter thirty-six of the Revised Ordinances of 1925, as most recently amended by chapter three of the Ordinances of 1935, is hereby amended by adding at the end thereof the following:

SECTION 11. The city treasurer may appoint, subject to the approval of the mayor, an employee in his office to the position of deputy city treasurer. The deputy city treasurer so appointed shall furnish a bond to the city subject to the provisions of sections two and four of the Revised Ordinances of 1925 in the sum of \$200,000; shall be sworn to the faithful discharge of his duties

and obligations, and shall hold office until his successor is appointed and qualified. The deputy city treasurer shall perform such duties as may be assigned to him from time to time by the city treasurer, and in the temporary absence of the city treasurer the deputy city treasurer shall perform the duties of the city treasurer. *[Approved September 25, 1945.]*

### CONCERNING THE FIRST DEPUTY CITY TREASURER AND THE SECOND DEPUTY CITY TREASURER.

Chapter thirty-six of the Revised Ordinances of 1925, as amended by chapter three of the Ordinances of 1935, and as most recently amended by chapter nine of the Ordinances of 1945, is hereby further amended by striking out section eleven of the foregoing ordinance and substituting in place thereof the following:

SECTION 11. The city treasurer may appoint, subject to the approval of the mayor, two employees in his office to be designated as the first deputy city treasurer and the second deputy city treasurer. The deputy city treasurers so appointed shall furnish bonds to the city subject to the provisions of sections two and four of the Revised Ordinances of 1925 in the sum of \$200,000, respectively; shall be sworn to the faithful discharge of their duties and obligations, and shall hold office until their successor, or successors, are appointed and qualified.

The first deputy city treasurer shall perform such duties as may be assigned to him from time to time by the city treasurer, and in the temporary absence of the city treasurer the first deputy city treasurer shall perform the duties of the city treasurer.

The second deputy city treasurer shall perform such duties as may be assigned to him from time to time by the city treasurer, and in the temporary absence of the

city treasurer and the first deputy city treasurer shall perform the duties of the city treasurer.

### ALTERING, AMENDING, EXTENDING OR RENDERING INEFFECTIVE PROVISIONS OF CHAPTER 479 OF THE ACTS OF 1938, ENTITLED, AN ACT FOR CODIFICA- TION, REVISION AND AMENDMENT OF THE LAWS RELATIVE TO THE CONSTRUCTION, ALTERATION AND MAINTENANCE OF BUILDINGS AND OTHER STRUC- TURES IN THE CITY OF BOSTON.

Section two thousand three hundred and twelve of chapter four hundred and seventy-nine of the Acts of 1938 is hereby amended by striking out in the second line of paragraph (d) the words "at thirty pounds per square foot" and inserting in place thereof the words "at fifteen pounds per square foot for those portions less than sixty feet above the ground, at twenty pounds per square foot for portions between sixty and eighty feet above the ground, and at a minimum of thirty pounds per square foot for portions more than eighty feet above the ground"; and by adding a new sentence "The commissioner may require a sign structure to be designed for greater pressure than the pressures given herein if in his judgment the exposure requires it," so as to read as follows:

(d.) The wind pressure on vertical plan surfaces of all signs shall be taken at fifteen pounds per square foot for those portions less than sixty feet above the ground, at twenty pounds per square foot for portions between sixty and eighty feet above the ground, and at a minimum of thirty pounds per square foot for portions more than eighty feet above the ground. The commissioner may require a sign structure to be designed for greater pressure than the pressures given herein if in his judgment the exposure requires it.

*[Approved by the Mayor, December 31, 1945.]*

---

## CHAPTER 12.

### CONCERNING THE PROCEDURE FOR THE PREPARATION, APPROVAL, AUDIT AND PAYMENT OF PAY ROLLS.

Section twenty of chapter three of the Revised Ordinances of 1925 is hereby amended by striking out the whole of said section and inserting in place thereof the following:

SECTION 20. The pay rolls of all departments, divisions, offices and bureaus of the City of Boston and County of Suffolk shall be prepared on forms furnished by the Auditing Department and shall be certified, approved, audited and paid in conformity with the system and procedure established from time to time by the City Auditor.

*[Approved by the Mayor, December 31, 1945.]*

---

## CHAPTER 13.

### CONCERNING RESTRICTIONS ON PARK FRONTAGES.

Chapter forty of the Revised Ordinances of 1925 is hereby amended in section twenty by striking out in the 16th line of said section the words "Marine Park" and inserting in place thereof the words "Dorchester Avenue and from Buttonwood Street to Marine Park."

*[The foregoing ordinance, passed by the city council December 17, 1945, was presented to the mayor on December 18, 1945, and was not returned by him with his objections thereto in writing within fifteen days thereafter. The ordinance therefore became effective on January 3, 1946, in accordance with the provisions of section four of chapter 486 of the Acts of 1909.]*

## APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1945

IN CITY COUNCIL, February 5, 1945.

*Ordered*, That to meet the current expenses payable during the financial year beginning with the first day of January, 1945, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or County of Suffolk, or the departments or officers thereof, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

*Ordered*, That the appropriation for Water Service, current expenses, and the payment to the State, under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said works and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for the *City Record* be met by the income of said publication and any excess over income from taxes; and the appropriation for the Traffic Tunnel be met by the income from tolls and any excess over income from taxes, in accordance with the provisions of section 11, chapter 297, of the Acts of 1929, as amended by chapter 74 of the Acts of 1935; and the appropriation for the Board of Real Estate Commissioners be met by the income of said board, exclusive of proceeds from the sale of foreclosed property, and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1944, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation; by the income of the financial year beginning January 1, 1945; by taxes on the polls and estates in the City of Boston; and by the proceeds of any duly authorized loans.

*Ordered*, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

*Ordered*, That all taxes raised to meet the appropriations of the city, and all taxes assessed for meeting the city's proportion of the state tax for the year 1945, or for any other taxes or assessments payable to the Commonwealth shall be payable in two equal installments, on July first and on October first of 1945; that interest shall be charged on all taxes remaining unpaid after the first day of November, 1945, in accordance with the provisions of chapter 59, section 57, of the General Laws, as amended, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the first day of October, 1945, until paid, and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

*Ordered*, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

## BOSTON ELEVATED RAILWAY COMPANY.

---

### ONE HUNDRED-SEVENTH LOCATION.

---

IN BOARD OF STREET COMMISSIONERS, February 5, 1945.

*Ordered,* That in addition to the rights heretofore granted to the Boston Elevated Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of and an addition to its existing locations as follows:

Single track curve on Cambridge street and Brighton avenue, at the easterly end of Union square, Brighton, connecting with and leading from the existing northerly track on Brighton avenue and continuing to and connecting with the existing single track on Cambridge street; said tracks being substantially as shown by red lines on a plan made by Arthur I. Davis, Engineer, dated December 18, 1944, and deposited in the office of the Commissioner of Public Works; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Fire Commissioner shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Commissioner of Public Works, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Passed. Approved by the Mayor, February 8, 1945.

ORDINANCES OF 1945, CHAPTER 3.

CONCERNING THE REMOVAL AND STORAGE  
OF VEHICLES INTERFERING WITH  
THE REMOVAL OF SNOW.

---

*In the Year Nineteen Hundred and Forty-Five.*

---

*Be it ordained by the City Council of Boston, as follows:*

SECTION 1. The commissioner of public works, for the purpose of removing or plowing snow, or removing ice, from any street under his jurisdiction or the park commission for streets or roads under its jurisdiction, may remove, or cause to be removed, to some convenient place, including in such term a public garage and outdoor parking area, any vehicle interfering with such work.

SECTION 2. If the commissioner, acting under the provisions of section one, orders the removal of any vehicle by a person or agency other than the city, a written order for such removal shall be given by the commissioner or his authorized representative at the time of removal, provided, however, that in an emergency such order may be given orally. Any such written order shall state that it is subject to the provisions of this ordinance, a copy of which shall appear thereon. Any such oral order shall be accompanied by the statement that it is subject to the provisions of this ordinance and shall be confirmed in writing within twenty-four hours.

SECTION 3. The commissioner shall keep a record of vehicles removed under the provisions of section one. Not later than ten hours after any such removal the commissioner shall give notice thereof to the police

commissioner, and not later than the second business day following any such removal the commissioner shall publish notice thereof at least once in a newspaper published and having a general circulation in the city of Boston. The record kept and the notices given and published by the commissioner shall include (a) the registration number and general description of the vehicle removed, (b) the time of removal, and (c) the place from which and to which the vehicle was removed.

SECTION 4. The cost of the removal of any vehicle under the provisions of section one and the storage charges, if any, resulting therefrom shall be paid by the owner of such vehicle.

SECTION 5. The amount to be paid by such owner for all costs of removal, exclusive of storage charges, shall not exceed five dollars. The amount to be paid by such owner for storage charges shall not exceed the rate of one dollar for each twenty-four hour period. Subject to the foregoing limitations, the commissioner shall determine the cost of removal and storage of vehicles removed or stored by the city.

ORDINANCES OF 1945, CHAPTER 4.  
CONCERNING THE SALARIES OF FIRST  
ASSISTANT ASSESSORS.

---

*In the Year Nineteen Hundred and Forty-Five.*

---

*Be it ordained by the City Council of Boston, as follows:*

Section five of chapter three of the Revised Ordinances of 1925, as amended by chapter one of the Ordinances of 1938, and as most recently amended by chapter 4 of the Ordinances of 1944, is hereby further amended by striking out that portion thereof dealing with the salaries of the assessors and inserting in place thereof the following:

“The assessors — the chairman, seven thousand five hundred dollars; each of the four other assessors, six thousand dollars; each first assistant assessor, one thousand dollars for street work and preparation therefor, and one thousand dollars for services on dooming board and work on abatements and investigations.”

ORDINANCES OF 1945, CHAPTER 5,  
CONCERNING THE TAKING OF SHELLFISH.

*In the Year Nineteen Hundred and Forty-Five.*

*Be it ordained by the City Council of Boston, as follows:*

Effective April 9, 1945, no person shall dig or take shellfish from those contaminated areas in the limits of the city of Boston which have been determined by the department of public health to be suitable for the taking of shellfish for treatment at an approved purification plant unless he holds, in addition to the state permit required by law, a permit to do so from the committee on licenses of the city council. To avoid undue depletion the number of permits to be issued annually is limited to twenty. Should there be a greater demand for permits than the limit herein determined further permits may be issued with preference to residents of Boston.

In City Council, March 26, 1945. Passed.

ORDINANCES OF 1945, CHAPTER 6,  
AMENDING THE BUILDING CODE CONCERN-  
ING CERTAIN TEMPORARY STRUCTURES.

---

*In the Year Nineteen Hundred and Forty-Five.*

---

*Be it ordained by the City Council of Boston, as follows:*

1. Section 106 of chapter 479 of the Acts of 1938 is hereby amended by inserting in the definition of "building" the following sentence: The word "building" shall not include such frame-works and tents as are customarily used exclusively for outdoor carnivals, lawn parties or like activities — so as to read as follows:

"Building", a structure forming a shelter for persons, animals or property, and having a roof. The word "building" shall be construed, where the context allows, as though followed by the words "or part thereof". The word "building" shall not include such frame-works and tents as are customarily used exclusively for outdoor carnivals, lawn parties or like activities.

2. Section 203 of said chapter is hereby amended by inserting after the word "stands" in the second line of paragraph (c.) the words "frame-works and tents as are customarily used exclusively for outdoor carnivals, lawn parties or like activities", so as to read as follows:

(c.) Temporary structures to be used in connection with construction work and temporary reviewing stands,

frame-works and tents, as are customarily used exclusively for outdoor carnivals, lawn parties or like activities, may be erected in either fire zone and of any type of construction, subject to the approval of the commissioner, and to such conditions and for such time as he may in each case specify.

BOSTON ELEVATED RAILWAY COMPANY.

---

ONE HUNDRED EIGHTH LOCATION.

---

IN BOARD OF STREET COMMISSIONERS, July 5, 1945.

*Ordered,* That in addition to the rights heretofore granted to the Boston Elevated Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of and an addition to its existing locations as follows:

Two single track curves in South Huntington avenue south of Heath street, one curve connecting with the existing easterly track and one curve connecting with the existing westerly track, both curves leading to private property on the easterly side of South Huntington avenue.

Single track in South Huntington avenue, and, in Heath street, connecting with and leading from the existing easterly track in South Huntington avenue to private property on the southerly side of Heath street.

Said tracks being substantially as shown by red lines on a plan made by A. I. Davis, engineer, dated April 26, 1945, and deposited in the office of the Commissioner of Public Works; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Fire Commissioner shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Commissioner of Public Works, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law: otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Passed. Approved by the Mayor July 6, 1945.

# THE LAW OF LOVE AND THE FUTURE PEACE

AN ORATION DELIVERED AT

FANEUIL HALL, JULY 4, 1945

BY

MOST REVEREND RICHARD J. CUSHING

*Archbishop of Boston*

It is a great privilege to be included among those honored citizens who, in unbroken succession since 1783, have delivered the orations at the Municipal Observance of the Anniversary of our National Independence.

Glancing back over the list of subjects chosen on this occasion in the past, one is impressed by the many times on which some relationship of religion to public society has been discussed here. With such a tradition behind me, I do not hesitate to develop a point which seems to me of particular importance now that the body politic is slowly purging itself of those hatreds, contentions and divisions which have borne such painful effects in World War II. I propose to speak to you on Christ's Law of Charity as that law should and can affect the future of the world.

At the beginning of this war our late lamented President wrote these immortal words: "We shall win this war, and in victory we shall seek not vengeance but the establishment of an international order in which the spirit of Christ shall rule the hearts of

men and of nations." When a civil leader speaks in this outspoken fashion of the necessity that the spirit of Christ dominate the future, a religious leader, a teacher in the Church of Christ, need not apologize for availing himself of every possible opportunity to promulgate unto the public good that Law of Love which gives concrete expression to the spirit of Christ. If it be true, and it is true, that the establishment of an international order and the preservation of national security require the inspiration of Christ's Law, then he who preaches that law, in season and out, well serves his nation and best aids humanity.

I take it that the principal moral problem of life in society at this particular hour of the world's history is the problem of how to do precisely these two things: to serve one's nation worthily, and yet, at the same time, to aid in the building of an international order within which humanity can also be served. In terms of today's national holiday we might state that problem thus: How can we cherish, as cherish we must, the heritage which became ours with our national independence, and yet share, as share we must, in the common good of the interdependent family of nations? How can we love, as love we must, America and everything for which she stands, and yet love, as love we also must, all humanity and all the human values which America, or any people, can only hold in common with the men of every land?

This is the master knot of human fate as men gather from their several nations in the effort to plan a better world in the face of the myriad political, economic and cultural forms which this problem takes: nationalism versus internationalism, independence versus interdependence. It is the stumbling block on every proposed path to peace. It is the foremost factor in every situation that leads to modern war.

We are told by the masters of jurisprudence that the solution of this problem must include a political factor in the form of a revision of the traditional concept of *sovereignty*, national and international. We are told by the economists that the solution of this problem must include an economic factor in the form

of a new understanding of the proprietary rights of nations over the raw materials placed by Providence within their territorial limits. We are given to understand that the solution of the problem must include a more free and equal access on the part of all peoples to the goods of the earth. We are told by scholars generally that the solution of the conflict between national loyalty and international obligations, between national independence and international dependence, must be solved by education, by a new *cosmopolitanism*, by building, in the phrase of Mr. Churchill, great new *empires of the mind*.

No one will quarrel with the essential validity of each of these contentions. It is true that the technical realization of peace must involve political, economic, educational and other aspects, and it is well that specialists in all these parts of what we might call the "anatomy of peace" should devote their best energies to the leveling of these technical obstacles to world order. But it is also true that no one of these factors, nor all of them combined, can give us an organic society, a dynamic peace. President Roosevelt bore witness to this when he invoked the soul which must activate and organize these elements of the peace. He gave that soul, the soul which a healthy international body politic requires, its proper name when he spoke of it as the "spirit of Christ."

Charters and constitutions may diagram an international order; they cannot create it, for they are purely legal instruments, and legalism kills the spirit more often than it quickens. Trade agreements and commerce may develop from an international order, but they presuppose its existence; they cannot create it. In the absence of an international order they become exploitation at their best and piracy at their worst. Education, by itself, does not guarantee the peace; indeed, it is one of the most discouraging mysteries of our civilization that wars and the conditions which produce wars seem most to flourish among those peoples who, on the scientific level at least, are the most, rather than the least, educated nations. The Catholic hierarchy in the United States

made an irrefutable analysis of the origins of the present crisis when they said: "*This war came largely from bad education. It was not brought on by primitives or unlettered peoples.*"

Pervading all legal formulas, all economic arrangements, all educational programs there is needed the spirit of Christ. Inspiring all efforts to write a new political law or to direct the laws of economics, there must be Christ's Law of Love. But that law must live.

"The law is always dead in parchment, marble, stone,  
Unless each generation relives it as its own;  
'A scrap of paper,' adorned with names, tempts power on its  
throne  
As fuel for world-wide flames by all the four winds blown.

"When the spirit transcends the law, men see beyond the letter,  
When justice frames the law, revenge has no abettor,  
When mercy guides the law, virtue holds vice its debtor,  
When hearts enshrine the law, peace stands free from fetter."

A Christian should readily understand Christ's Law of Love in all its natural and supernatural implications; but no man, I think, whatever his belief, will fail to recognize the wonderful social value of that law. One need not accept all that theology tells us of Christ's complete nature in order to be edified by what history tells us of Christ's exemplary human nature. It may require the special subtlety that comes with faith to discern all the eternal content of Christ's teaching; but there is needed only an honest mind to recognize how rich in lessons for more perfect living in temporal society is the example of Christ's own practice in His daily life of the Law of Love.

Apply this to the problem — nationalism versus internationalism, independence versus interdependence. Christ blended in His personal life a perfect love for His own nation with an unparalleled love for humanity. Through all His life and even in the hour of His death He fulfilled with scrupulous care the national observances of His people and the customs of His country. Reading His life, in the lines in which it is written and between those lines, we see and sense at every crisis of His career the tender

preferential love of Christ for His own people and for their national way of life. He would have been less than human did not a perfect patriotism find its place in his moral personality. His parables provide so many precious pictures of the little details of daily life among the humble folk and in the out of the way places where He spent His boyhood. The most sublime principles of His divine teaching come to us through the medium of figures of speech, comparisons and examples redolent of Nazareth and Galilee and of all the land and living of the Jewish people. With all His heart Christ loved this people to whom He belonged by bond of ancestry, of language, of common characteristics, of special friendships, of shared griefs, of mutually cherished traditions, land and hopes.

He loved His own people on the heroic level of their national greatness; He loved the history of His nation, the names of its great men and the glorious incidents of its immemorial struggles. The memory of the patriarchs who had gathered and organized the Hebrews in Palestine, especially the memory of Abraham, father of his people, flashes constantly through the preaching of Christ. The authority of Moses, law-giver of his people, is constantly invoked by Christ in His own moral legislation, and with Moses and Elias He chose to share the moment of His Transfiguration.

He loved His own people on the humble level of their popular traditions, and it is interesting to note how many times the Scripture recounts His intimate presence at the national feasts and popular festivals of His people. Countless homely phrases of His nation's simple folk find their way to His lips. He loved to speak of the naive local manner in which they forecast the weather or planned their domestic economies or carried on their daily lives with one another. Little phrases, evocative of all these, illumine His most exalted doctrines, and even His most universal teachings are given lively form in local examples from the little province He best knew and loved.

Christ spent Himself so utterly for those who were close to Him, His friends, His people, His nation, that all His love might seem to have been not merely lavished, but exhausted, on them. And yet, nothing could be further from the truth, for the truth is that He was the perfect type of the universal-minded man. Salvation, He taught, came from His people, the Jews, but He did not believe that it was destined for the people of any one nation. He sought to be the true light which illumines every man that comes into the world. He chose His Apostles from His own people, but He gave them a world-wide mandate and fired them with a universal charity. He sent them to preach His Gospel to all men without distinction of race, or nation, or color or social rank.

Sometimes Christ called Himself and suffered others to call Him the Son of God, but, strangely enough, he seems especially to have loved His other title: Son of Man. This phrase, indicative of His solidarity with and love for all the human race, was constantly used by Him to describe Himself, His work and His destiny.

Christ felt as a "Son" to all the human family, and his moral attitudes toward humanity are based, as a consequence, not on any cold sense of justice or merely tender pity, but on an intense and reverent *filial* love for Man whose Son He was. His pride in the title "Son of Man" reflects the manner in which He loved every human being in the world and revered human nature wherever it was to be found, however degraded or guilty the persons in whom it abided.

I know of no greater lesson which our generation must learn from Christ than this lesson. We must learn it not merely for our personal sanctification but also for our political and social security, if not, indeed, for our survival! A time of war, and especially the period immediately following a victory, is apt to produce in men attitudes alien to Christ's Law of Love. That, alas, is the reason why periods of peace are usually so brief and so precarious. No nation, however strong, can build a peace unless it

be motivated by great love. Partisanship, nationalism, racism, any social isms tinged with hatred can only be principles of destruction; love alone can bring a positive inspiration to the building of a better world.

Love for others inspires the missionary to give his life in the service of people who put to death, perhaps, his elder brothers and sisters in the faith. Love for others used to prompt even victorious princes in more humane days to seek their greater victories over the hearts and the intelligences of the conquered by means of clemency and forbearance. The world will belong to those who love it most and who win it by love; it can never belong to those who hate any part of it and strive to impose their will by violence upon their erstwhile enemies.

There is no lesson, I repeat, which we must more sincerely learn than this, and there is no more certain method of learning this lesson than by the development in our personal and collective lives of that spirit of Christ to which the late President pledged us. His spirit will require that we blend with our love for America a love for all humanity. His example will teach us how to do so.

Christ, we have said, loved His own people and His own land. He could be as meek as the "Lamb of God" and as courageous as the "Lion of the Tribe of Juda," but He hated no one. He could place His hands in benediction on the heads of little children or He could raise them aloft to strike the money changers who profaned His House of Prayer, but He loved everyone. In every contact with evil, He hated the sin but He loved the sinner. His character was entirely free from that clannishness or excessive family feeling which interferes with the love and service of the wider human family. It betrays no admixture of *class consciousness* or *class prejudice*. To be sure, He criticized the rich when they were unjust, but He criticized no less the poor when they were unrighteous. He neither feared nor hated the masses. He loved them all and strove in all things to serve them. But, what is more important in our present concern, Christ

never permitted his loyal patriotism to degenerate into an *arrogant nationalism*. Much as He loved His countrymen and the national heritage which He shared with them, He never permitted Himself or those who heard Him to forget that no nation has a monopoly of either virtue or vice. God has called each nation to some vocation in the realization of His Kingdom, and He has divided His gifts among all the peoples of the earth. His Divine Providence has made nations so interdependent that, if they be realistic, they can never exclude one another from their common charity.

My illustrious predecessor in the See of Boston, when he stood on this platform to deliver the oration of this occasion, expressed the practical consequence for our nation of its international dependence in these memorable words: "As no single man can stand absolutely alone, so no single nation can stand absolutely alone. The well-being of every nation requires a sense of security in the world. For this reason, America, great as our nation undoubtedly is, does not and cannot stand alone because Americans are not the only men on earth. For all the rest we must have that respect and kindly feeling which both our Constitution and the Gospels teach. But those very principles demand in turn that the other nations of the earth show to America respect and justice."

These words are still in order; indeed, they have acquired a new urgency. There are increased reasons why I must repeat them this year, pleading for their acceptance in the spirit of Christ's Law of Love. So alien to the spirit of Christ has become the spirit of the times that even many who esteem themselves to be devout are sometimes scandalized by one particular obligation of Christ's Law of Love. Yet the obligation at which they balk is the perfection of the law — its essential characteristic, the acid test of its sincere acceptance. Those who refuse to accept this particular precept sabotage the total law and nullify any chance it might have to operate in the world unto the redemption of society. By Christ's Law of Love we are bound to love our neighbor as ourself

and all men, without exception, must be accepted as our potential neighbors. Hence the special attitude toward "enemies" which is dictated by the spirit of Christ.

Historical circumstances may set one group of men against another for a time, and occasionally all society must act against even one man who has tried to be a law unto himself. Sometimes retributive justice or even simple prudence will require measures of sternness against a group or an individual, but the substance of Christ's Law of Love still holds, and so long as our society is Christian, so long as it is humane, there can be no place in its vocabulary for *hatred* against any group or any nation, no matter what that nation may have done. The spirit of Christ is no longer abroad in a land whose leaders of public opinion can speak unchallenged of the possibility of *hating* their enemies. That nation has acquired a thoroughly pagan soul, whatever its outward religious rites, which speaks of hatred as the due of its enemies and adopts measures based on hatred as the policy of its peace-making.

"Væ victis!" "Woe to the conquered." This brief, terrifying formula is the quintessence of the pagan spirit in which Christ has no part. There are disturbing indications of a rebirth in our society of that spirit. Men profess to consider just and proper measures which have about them no hint of the spirit of Christ, but which recall the ancient pagan spirit of a world which Western civilization had supposed to be dead. When Athens decreed that all the Mitylenians, without distinction of sex or age, should be exterminated, she did not consider that she had exceeded her rights; when she revised this decision and contented herself with executing a thousand citizens and with confiscating the lands of all the rest, she considered herself indulgent, almost to a fault.

Christ's Law of Love tempered that spirit for more than a thousand years, but every now and again, especially during the past few hundred years, we have seen increasing indications that the old pagan spirit is reasserting itself. Nowhere does the decline in the

social influence of Christianity more sadly manifest itself than in the attitudes of a victorious people toward the people whom they have conquered. The philosophical forerunners of too many modern leaders have crystallized these attitudes. Machiavelli, the cynical political philosopher, was inspired with a completely pagan spirit when he wrote that a ruler, particularly a conqueror, need not practice all the virtues which pass for decent among private persons, and may, in the interests of his state, act contrary to the dictates of faith, charity, humanity and religion. Comte, the skeptical sociologist, reflected an un-Christlike spirit when he wrote that we must love all humanity, but that by humanity we need understand not all men, but only those who can be assimilated into the community existence of a given moment in the race's history. Renan, the infidel litterateur, violated Christ's Law of Love when he wrote: "In reality, everyone is only more or less a man, more or less a Son of God; one possesses only that much of God and of truth as he is capable of and as he deserves. I see no reason why every Tom, Dick, and Harry should be considered immortal!" Nietzsche, the prophet of violence, spoke pure paganism when he pretended that most of the evil in the world comes from the folly of those who try to sympathize and to bother with errant humanity! Disciples of such writers are legion, and all around us many subtle powers are ranged against the Christian way of life or the influence of the spirit of Christ in the world. It is no longer a matter of physical force, but of an insinuating spirit which cloaks itself under such formulae as "righteous indignation" or "political realism."

There are grave indications in certain popular books, periodicals, radio "columns" and public speeches that many influential leaders of opinion on the peace could scarcely consistently condemn the opinions of these pagan writers or the significance of these subtle forces. But their opinions are condemned by the spirit of Christ: "You have heard it said," Christ told His followers, "that thou shalt love

thy neighbor and hate thine enemy, but I tell you, love your enemies and pray for them that persecute you."

I cannot say that if tomorrow all men begin the effort to keep this precept of Christ the peace of the world will be assured the day after tomorrow. The historical and psychological impediments to so speedy an operation of God's grace in the world are too many and too serious. I cannot promise that the imitation of Christ will renew the face of the earth in this or that predictable period of time. The Kingdom of God cometh not with observation, and the building of a perfect society out of members still imperfect must be a long and patient task. I cannot predict that the acceptance of Christ's Law of Love will immediately result, even among the devout, in the resolution of the ancient conflict between loyalty to our national independence and love for the international community.

But I can proclaim that one of the indispensable prerequisites for the search of a new order with lasting peace is triumph over hate, which is today a cause of division among peoples, and renunciation therefore of the systems and practices from which hate constantly receives added nourishment.

I can assert that if we propose to reject the example of Christ then we may as well despair of ever solving any of these problems now or later. And I do confidently make my own the implied warning of the departed President under whom this nation went forth to war: "The war will be lost and the victory in vain if we become ourselves victims of the spirit of vengeance and if we fail to establish an international order in which the spirit of Christ shall rule the hearts of men and of nations." To enter into the peace by way of increased hatred is contrary to the spirit of Christ, and it is disastrous for any Christian peace, which must be the fruit of justice and love. It is impossible to attain a peace, tempered equally by equity and justice, with minds that are moved and motivated by hatred or vindictive feelings.

Perfect love for one's own people can be harmoniously blended with a sincere love for mankind; they were so blended in the character of the Son of Man, and they have been blended in countless noble spirits of every land and group. National devotion and international loyalty can have a least common denominator; it is to be found in Christ's Law of Love. An international order is possible without any violence to the legitimate aspirations of any nation, but all these things depend not on politics alone, nor on economics alone, nor on education alone, but on the inspiration of all these by the spirit of Christ. It was said of old by the Psalmist, and it is true forever, *unless the Lord build the House they labor in vain that build it!* It was said by our late President at the beginning of the war, and let us recall his words again on this birthday of our beloved country, "We shall win this war, and in victory we shall seek not vengeance but the establishment of an international order in which the spirit of Christ shall rule the hearts of men and of nations."

ORDINANCES OF 1945, CHAPTER 7.

CONCERNING VACATION LEAVE AND SICK  
LEAVE FOR EMPLOYEES OF THE CITY  
OF BOSTON.

---

*In the Year Nineteen Hundred and Forty-Five.*

---

*Be it ordained by the City Council of Boston, as follows:*

SECTION 1. On and after the effective date of this ordinance the following rules and regulations concerning vacation leave and sick leave shall apply to employees of the city of Boston except the uniformed forces of the Fire Department and the Police Department.

SECTION 2. **Vacation Leave.**

*Rule I.* Appointing officers shall grant to permanent employees of the city of Boston and temporary employees who have completed six months of continuous service, vacation with pay, not to exceed the following:

For less than one year's service, vacation allowance of one day for each month of service. For more than one year's service and less than ten years' service, vacation allowance of two weeks.

Appointing officers shall grant for more than ten years' service, but less than twenty years' service, vacation allowance of three weeks; for more than twenty years' service, vacation allowance of four weeks.

*Rule II.* The assignment of vacation periods shall be arranged by the appointing officers for such time or times as best serve the public interest. Vacation allowances may not be accumulated from one vacation year to another without authorization of the mayor.

*Rule III.* Absences on account of sickness in excess of that authorized under the rules therefor or for personal reasons not provided for under sick leave rules may, at the discretion of the appointing officer, be charged to vacation leave.

*Rule IV.* Employees whose services have been terminated through resignation, retirement, or dismissal prior to receiving vacation in the current year, may be granted salary in lieu of any vacation not received. Employees reinstated or on leave of absence without pay may be credited with their vacation status at the termination of their previous service and allowed such proportion of their vacation under rule I as their actual service bears to full time for the same vacation year, except that employees in military service are to be allowed full vacation credit.

*Rule V.* All departments of the city shall keep a register showing records of vacations, both accrued and granted, and records of attendance, for each employee in such form as directed by the budget department. The information on such register shall be transmitted to said budget department upon request.

### SECTION 3.

### Sick Leave.

*Rule I.* Employees of the city in appointive positions shall, after completing six months of continuous service, be allowed sick leave with pay for periods not to exceed fifteen working days annually for each year of service thereafter.

*Rule II.* Sick leave not used in any year may be accumulated, but in no event to exceed ninety days, except that further sick leave may be granted in special cases by signed authorization of the mayor, upon recommendation by the department head.

*Rule III.* Sick leave with pay shall be granted to employees only when they are incapacitated for the performance of their duties by sickness, injury, exposure to contagious diseases or by serious illness or death of members of employees' immediate family.

*Rule IV.* Notification of such absences shall, where conditions warrant, be given as early as possible on the first day of absence. If such notification is not made, such absence may, at the discretion of the appointing officer, be applied to vacation leave or leave without pay. For periods of absence of five working days or more or a total number of days absence which exceeds ten working

days in any one calendar year, the appointing officer may require evidence in the form of a physician's certificate for the necessity of such absence. If such certificate is not filed within seven days after a request therefor, such absence may be applied at the discretion of the appointing officer, to vacation leave or leave of absence without pay.

*Rule V.* All departments of the city shall keep a register showing records of sick leave, both accrued and granted, for each employee in such form as directed by the budget department. The information on such register shall be transmitted to said budget department upon request.

*Rule VI.* Employees whose service is terminated through death, resignation, retirement, or dismissal shall not be entitled to compensation in lieu of any leave not taken. Employees reinstated may be credited with accrued sick leave due them at the termination of their previous service.

*Rule VII.* Upon inception of the operation of this plan, all city employees shall be allowed a prior service sick leave credit equivalent to seven and one-half working days per year for each prior year of service, but in no event to exceed ninety days.

## THE AMERICAN RACE

*Its Origin, the Fusion of Peoples; Its Aim, Fraternity*

---

FOURTH OF JULY ORATION, 1906

---

BY TIMOTHY WILFRED COAKLEY

---

(Reprint of Document 50 of 1906.)

*Men and Women of Boston:*

The keynote of our jubilee is the intonation of a prayer.\* By that token we invite the co-operation of Divine Grace to guide and further the purposes of patriotism. Our prayer is the avowal that national morality, like individual morality, is necessarily founded on religious belief. It is the sign of our assent to faith as the active principle of good works. By it, here at the altar-place where the patriots of old offered sacrifice to country and invoked their God, we record our perennial protest against the philosophy of doubt and denial, the ethics of disenchantment and despair, we make formal proclamation that all authority comes from the Most High, that human society is bosomed in the Infinite Fatherhood from which proceeds the all-brotherhood of man.

Seemly and inspiring, too, is the accustomed choice of a patriot boy to quicken with the eager breath of

youth the Declaration which is humanity's psalm of freedom. Youth, divine, contagious, all-transfiguring youth! From thee we have received all the good gifts of time. Thou art the symbol and the savior of the nation. To Youth we owe the fire and fortitude, the brain and brawn and blood which made us free. In the deadly, foremost files of many a patriot battle line, from Bunker Hill to Yorktown, from Gettysburg to Santiago, Youth, sacrificial, self-forgetting, surrendered its inheritance of life to save for us, intact and undiminished, our legacy of liberty. All honor to Youth! Cherish, revere, protect and guide it! For it is the fountain undefiled from which the nation quaffs the very waters of life.

We are met to commemorate the birth of American institutions, to celebrate our political freedom, to glory in American achievement; aye, to cheer, frankly and fondly, for our country and its radiant emblem, the dawn-flag of sun-ray and sky-tint and stars. But with the ecstasy of exultation we mingle the measure of reflection, the method of research. Like the Romans of old, we take counsel together lest any harm should come to the Republic. We ransack the past for social meanings. We analyze the present. We cross-examine events. If much diligence and a mighty yearning could win for us the wisdom to foreglimpse, howsoever dimly, the future, happy indeed were we; for no man better serves his fellows than he who, in the frenzy of prophecy, rouses his day and generation that it may prepare itself betimes against to-morrow's surprising dawn.

The lofty dignity and duty of drawing the lesson and pointing the moral of this day is my assignment, my privilege. Let me hope, Reverend Sir, that I have caught in some degree the devotional spirit with which these exercises were begun. Let me hope, young friend, that a spark of your sacred, boyish fire has kindled my thought. Let me hope that there has passed into my pulses something of the moral voltage generated by the mere presence of that dynamo of civic energy, our honored Mayor. My words, stimulated by such influences, breathed into

an atmosphere surcharged and vibrant still with the rebel memories of the Boston of '76, with the deathless eloquence of the unforgettable, heroic dead, may prove, perchance, not altogether unworthy of this occasion, of this gracious audience, of the patriot prospectors of the past who sought and found the traditional treasure-trove of liberty here on the hallowed site of Faneuil Hall.

#### FUSION AND FRATERNITY.

By a certain pseudo-scholarship it is held to be old-fashioned and flamboyant to dwell upon the pre-eminence and superiority of these United States. Yet shall I insist upon our nation's paramountcy. My claim of leadership for my country rests upon the fact that we have developed here in America a race which is the finest expression,—the sum and flower of humanity. We are no fortuitous grouping of sundry, diverse nationalities. We are a well-differentiated, new, coherent, distinctive type. We are the American race, forged and founded in the fusion of peoples. Out of that fusion came naturally the fraternity on which we have confidently based and built the structure of our political life. We are destined to mould our economic life on no meaner pattern. We propose to ourselves no less an ideal than the political and industrial brotherhood of the peoples of the world. Because of the progress which America has made toward that universal brotherhood, I assert that she stands forth, indeed, the chosen and pre-ordained pathfinder among the states of the earth. I declare that the seeds of death are not in her; that she shall endure, unscathed by the ruin which has overwhelmed the kingdoms and empires of the past. I proudly proclaim to you that her institutions in their essential beneficence shall not perish; more, that she is called and sent of God to be the shepherd of the peoples, whom, nation by nation, in God's good time, she shall gather into one fraternal fold. Bear with me while I lay before you the reasons which compel me to the exultant faith that is mine.

Democracy has been called the rule of the people. But this definition is merely derivative. It is born

of the letter that killeth, not of the spirit that giveth life, for the spirit of democracy is helpfulness and service, not control. Democracy is the organized expression of the instinct of unselfishness, of brotherhood, of altruism, of inclusiveness as against exclusiveness, of fusion and fraternity as opposed to sectarianism and factionalism. Its aspects are as various as the activities of the vital principle itself.

Always it stands for life and growth, while caste spells decay and death. Democracy is an emanation of the eternal Godhead. It affects all forms of life. The cross-breeding of plants which develops a higher type is its humblest manifestation. The fusion of peoples, which makes inevitably for the improvement of man, is democracy in racial action. The process of suggestion and comparison, by which intelligence is raised and genius evolved, through the association of contrasted types, is stimulated by democratic conditions. In its religious aspect, democracy teaches the devotee that he should labor to save not alone his own soul, but the souls of all mankind. "Thou shalt love thy neighbor as thyself." In those blessed words the philosophy of democracy is all contained. Politically, democracy is the denial to caste of the monopoly of government. It insists that the administration of the commonwealth is the common prerogative of the people. Economically, democracy means that creative labor is entitled to enjoy the full value of the product it creates and that the production and exchange of wealth shall be ordered in accordance with the Golden Rule of Christ; that none shall take advantage of his brother-man, and that where custom or law now gives to commercial cunning license and leverage to strip simplicity of the wealth it has produced, that custom, that law, shall be modified till it conform with the law of God. Forever and always, democracy's essence is that love of one's fellow in which all earthly righteousness is founded. Let us defer, for the moment, the topic of democracy in its economic phase while we consider racially, politically, religiously, American amalgamation.

## THE CURSE OF CASTE.

I believe that national success and national failure are more intimately related to the problem of race than our historians have disclosed. The family is the social unit. Upon it depends the continuity of human life. All that makes for the strengthening of it makes for the welfare of the nation and of humanity. If we can learn the secret of race, if we can divine those elements and conditions which improve the physique and the intelligence, whether through blood or association, we shall have found the key to the cause of the rise and fall of nations. I contend that this key is the principle of democracy in its racial aspect. The antique world never learned the physical law which governs racial perfection in humanity, as it never learned the grace of altruism, which is the spiritual counsel of perfection. Strange it is that our ancestors, the breeders of flocks and kine, the horse-taming Aryan, the pioneer Kelt, the cow-keeping Greek, the shepherd Jew, should have failed to discover that the principle of crossing the strain, which they applied so well to their nomadic industry, was equally applicable to the breeding of heroes, to the nurture and growth of men.

The harmonies of tented Zion, awesome and resonant as the diapason of the desert sand-storm, are throbbing still in the Psalms of David. The thunders of Jehovah awaken yet their echoes in the souls of men. Still the lightnings of Sinai reveal to our spiritual vision the graven wisdom of the Mosaic law. The majesty of the Hebrew genius, the many-sided development of the olden Jew, warrior, poet, musician, statesman, priest — these were the very flower of fusion, the natural result of the blending of the Ten Tribes of Israel. And when the nation had crystalized, when the walls of exclusion had been builded high against the Gentile, when the race had become absolutely homogeneous, when the stranger within the gates was anathema, when the Hebrew attitude was typified by the proverb, "No good can come out of Nazareth,"

the deterioration of the Jew was already under way. Not until, scattered over the face of the earth, the race was refreshed with the new vigor that came from transplantation, from the splitting of the parent stock into diverse clans, through the influence of travel and contrasting environments, and from consequent tribal intermarriage, was the brilliant mind of the modern Jew evolved.

Inertia, stagnation, exclusion, repression, contraction, these mean for humanity an isolation which, howsoever splendid, is but the isolation of the tomb. The fate which overtook Assyria, Babylon and Egypt, the fate of Greece and Rome, the life-in-death which is the portion of India and China, will yet be summed up by the historian as the sequence of an organic, racial selfishness, of national submission to the curse of caste.

In its lowest form, caste is exemplified by the taboo and boycott of the savage tribesman. But the malignant influence of it is found in every nation where class is set off from class, where men and brethren are arrayed into hostile camps by racial, religious, political or industrial divisions which teach or permit the exploitation, through selfishness, of man by his brother man. This curse of caste has been with us from the beginning. It blighted the soul and branded the brow of Cain when he flaunted defiance to his Maker and excused the murder of Abel with the blasphemy, "Am I my brother's keeper?" All forms of caste are born of the selfishness which denies the keepership of brother by brother, of man by his fellow-man. At last came a time when there walked One on earth who "spake as man never spake before." He brought to mankind the message that not in caste, not in tribal or clannish distinctions, not in the scorn of one's fellows, not in the decrees founded on racial hatreds or the arrogance of ecclesiastical faction is the Kingdom of God to be found, but in service to humanity. The parable of the publican, with its arraignment of the Pharisee who thanked God that he was not as other men, is an indictment of caste such as was never drawn by historian or philosopher throughout the ages. The shining gospel of peace and good will to men was the

first formal promulgation of the principle of democracy, and for nineteen hundred years the world has been working upward through the night, progressing haltingly, painfully, yet surely, responsive to the leading of that Kindly Light.

#### DAYBREAK OF DEMOCRACY.

The rise and fall of the mediæval kingdoms will reinforce for us the lessons of antiquity. The decay of the olden empires was followed by an epoch during which the vigorous, young peoples from the Hungarian and Gothic forests and the steppes of the Volga and the Don, blending with the Greek and Roman populations which they had overthrown, modeled, through fusion, a new race which was to possess the soil of Europe. True, the nations built upon it were destined to harden into the mould of caste, but the mould had lost much of its rigidity. Racial prejudice and national antipathy were still in some measure the order of the day, but the instinct of democracy was abroad, like the Spirit of God on the face of the waters, and its brooding would yet fructify the mediæval mass into spiritual life and order. A new force had come into the world, a force which is recognized in all the art and all the literatures of the feudal era. It speaks in the frescos of Michael Angelo and in the poetry of Dante. Both are informed with a nobler purpose than ever guided the chisel of Praxiteles or the pen of Plato. It exhales from the pages of Augustin and Aquinas. It transfigured with angelic meanings the lives of Francis de Sales, of Loyola and Xavier. This new force has many names, but it is one, as God is one. It has been called fraternity; it has been called sentiment; it has been called altruism. Perhaps its best name is sympathy, because sympathy means the bond by which those who suffer in common the ills of the flesh are united into fellowship with God. Europe had accepted the new dispensation which Asia had rejected. She still dragged the chains of caste, but those chains, marred and broken by the mallet which nailed a Christ to the cross of Calvary, could only retard, not confine, the progress of humanity. There was movement throughout the continent; there

was fusion of blood, comparison of custom, criticism of self; and the Christian Church, which had set the example of democracy in its own ecclesiastical constitution, was at work, leavening racial prejudice, teaching the Spaniard to regard the Italian as his brother, the Englishman to know the Frenchman for his fellow-man. Before the Christian era, in all the history of mankind, there was never a religious institution which was not hemmed about by the fence of racial caste. Born of the democratic Church, which saved for posterity and distributed to its contemporaries the literature and learning of Pagan Greece and Rome, there issued the institution of chivalry. The "Dark Ages" were, in truth, the age of nascent light, the daybreak of democracy. Out of their fostering bosom came the noblest ideals we cherish to-day. The object of chivalry was to succor the weak, to champion the oppressed, to cherish the grace and shelter the defencelessness of woman, to organize the sentiment of humanity. In the furtherance of these ideals, the consecrated knights of many hostile nations and diverse races were knit together in a companionship of virtue and valor. The sympathetic Don Quixote of Cervantes is a monument to the beauty of the knightly aspiration. The noble and humane genius of the satirist became enamored of idealism as he wrote, and the realist "who came to scoff, remained to pray" by the side of chivalry's grave.

#### THE CRUSADE OF COLUMBUS.

And then came Columbus. How prophetic of the future bound up in his apostolic personality was the man himself. He was the product of the blended strains, mental and physical, of all the ages. He inherited the spiritual vision of the Kelt and the constructive imagination which captained the Roman legions. A peasant's son, he was all compact of the kaleidoscopic life-elements that were fused in the Mediterranean crucible of the races. The mystic soul of the East had breathed upon him. The world-old legends of Sidon and of Tyre, the Corsair tales of the sea-going Algerians, he had learned as a boy from the skippers of the Genoese feluccas. The Gothic lust for

the marvellous companioned the Roman in his blood. Beyond the farthest horizon, he sensed a horizon farther still. Here, to him, was but the highway to hereafter. He sought the discovery of no material world. He was a seeker after the Kingdom of Life. His one ambition was to unite humanity in the universal brotherhood of a mutual forbearance born of a common fate. He had conceived the sublime project of succeeding where the crusaders had failed, in redeeming from the domination of the infidel the sepulchre of Christ. For its accomplishment he needed the wealth of the Indies to equip the armies of Europe; and it was on this quest that he set sail from Palos. Great-souled dreamer that he was, shall it be said that the end of his enterprise was failure? Or is it not wiser to believe that his quest is not ended yet? The idealist, the re-shaper, the man who dreams and dares, never fails, for humanity never loses the impulse which it receives from such as he. It is happiness that Columbus sails out in the West to seek. But it is a new and sublimated conception of happiness; not selfish contentment, but the well-being of the many. In his yearning we recognize the struggle to attain democracy, to quicken and vivify the faith in God and man whereby the world must live.

Christofero Colombo, Christ-bearer and dove! the ascetic monk of Rabida! Isabella, who strips herself of her royal jewels to equip the sailor's ships! Father Las Casas! the cross planted on San Salvador! the Sepulchre of Christ! What mystical symbols are these, eloquent of what divine, far-reaching purpose? For this Christ-bearer is the forerunner of a new order which shall unhand the people from the usurpation of caste and shall free religion from the alternating oppressions and patronizings of monarchy. Humanity is on the threshold of the grandest experiment in the moulding of racial types and social institutions the world has ever seen. The Spanish strain, itself, blended of Goth and Roman, Iberian, Moor and Basque, held in its composition all the elements which go to the development of a great race, and Spain was on the eve of her golden age. France had grafted her various peoples upon the ancient Gaelic, or Keltic, stock, and

had developed a brilliant and distinctive national type. England had merged her basic strain of the Keltic-Briton with the successive tides of Roman, Anglo-Saxon, Scandinavian and French-Norman blood. The product was a new and virile race. And now that the formative period of these great European nations had passed, what hope was there for the ideals of Nazareth? What prospect of the universal brotherhood of man? Would the peoples learn at last that exclusiveness and isolation mean extinction, and that the kinship of humanity has its basis in physical and psychological fact as well as in spiritual philosophy? Alas! the new nations of Europe were split into hopeless, factional quarrels and racial jealousies, even as their sisters of the olden day. But wait! America will yet solve the problem of peaceful fusion and tolerance.

#### THE FORGING OF THE AMERICAN RACE.

We have solved it. We have built a permanent and successful nation. We have founded here a "lasting city." We have done more. We have evolved the race of races, the American race. We are sprung from all the peoples of Europe. Mentally and physically, all were fused upon the soil of the New World, not yesterday, or the day before, but for three hundred years prior to the Independence we celebrate. Ours is no narrow inheritance. Our pedigree is as long as history, as wide as humanity; our fatherland is mankind. We Americans have learned that the finest family pride lies in loyalty to the unborn. Our generation has been enriched by many noble strains, and we, in turn, shall endow posterity with the best blood and the best traditions of to-day. Ancestries are good things, and we cannot have too many of them. America has them all.

Let us glance for a moment at the elements which, upon American soil, had found footing and development during the three centuries prior to the Declaration of Independence. The Spanish, French and English divided up the Atlantic Coast; Florida, Louisiana, and what was known as California were Spanish. The

heroic French Jesuits, Marquette and Joliet, the discoverers of the Mississippi, La Salle and his successors on the French frontier, led the way into the wilderness of the great West. St. Augustine, Florida, was founded by the Spanish in 1565. Walter Raleigh's English settlement in Virginia, established in 1607, was still a weakling when thirty families of Dutchmen from Holland settled New York. In 1620 came the Puritan Pilgrims to Plymouth. A Swedish colony was established at New Castle, Delaware, in 1638. The martyr Jesuit, Father Jogues, reports that he found eighteen languages spoken in the streets of New York as early as 1643. In 1690, thirteen thousand German Lutherans tented in the London suburbs until they could be passed on to America. Hordes of emigrants from all the principalities of Germany, including Alsace and Switzerland, followed at the rate of 12,000 a year. One hundred thousand Frenchmen and descendants of Frenchmen were scattered from the St. Lawrence to New Orleans a quarter of a century before the Revolution, not to speak of the large number of French Huguenots who were distributed through the original thirteen colonies. Emigrants from the north of Ireland in great numbers settled in New Hampshire and in southwestern Pennsylvania; they were the original pioneers in West Virginia and the Carolinas. Shiploads of Irishmen were exiled to Bermuda and to Virginia in the very earliest of the Colonial days. Another Gaelic strain was the Welsh, of which stock seventeen signers of the Declaration of Independence came. Scotchmen were scattered throughout the English colonies; and to complete the catalogue, Portuguese Jews had their settlement at Newport, Rhode Island, and were in time merged in the surrounding populations. It is a curious and instructive labor to burrow in the olden records where we find that the intermarriage of the peoples began almost with the inception of colonization.

It must be remembered, too, that these representatives of the various European races were picked men. The emigrant is always a picked man. He has the imagination to dream of a better environment, the

daring to forsake the haven of home. The strongest bird is the first to leave the nest. These early pioneers were dreamers and idealists; they were the best that Europe had to give, because they were brave and adventurous, unspoiled by luxury, simple, sincere. And they were pure, because they were so recent from the soil.

It is not surprising, then, to find that, after nearly three centuries of the physical blending and the mental development due to the reciprocal influence of type on type, there was existing, here in the thirteen colonies, a bond of human brotherhood which was to furnish the very fibre and vital warp and woof of the Declaration of Independence.

The old world prejudices and feuds could not avail against this sympathetic understanding between the colonists. The very motto of the national seal, *E Pluribus Unum*, symbolized this sentiment, this catholic atmosphere, this racial unity. It was not alone that one nation was to be framed from thirteen colonies, it was that Frenchmen and Englishmen, Irishmen, Welshmen, Spaniards, Swedes, Dutchmen, Jew and Gentile, had been welded into one. It was this blend, now of mind, now of body, now of both, which made possible the type of intelligence able to grasp the opportunity and to brave the test of revolution.

The Declaration of Independence was feasible because we had developed here in America, through racial and social fusion, a type of mind like that of Jefferson, of Hamilton, of Patrick Henry, of Hancock, of Quincy, of Sam Adams, of Carroll of Carrollton; because, through racial fraternity, we had developed a social intelligence capable of merging all prejudice in the passion for truth, capable of welcoming and weeding the philosophy of the most advanced thinkers of all the races of Europe, and because we had inherited the ideal and world-fashioning faith which rushes into the void to face an untried terror, even as Ericson, the Norseman, Brendan, the Gael, and the Italian Columbus, with his heroic Spaniards, had challenged the universe.

## THE ANGLO-SAXON MYTH.

So let us never forget that, before embodiment in word, the Declaration we celebrate to-day was preceded by the racial spirit which begot it, as thought goes before expression, as substance antedates form. American liberty did not come first; it came last. It was preceded by the American race. Let me repeat. That race was the product of the blending through three hundred years upon American soil of the blood and the ideals of Spain, of France, of England, of Germany, of Scandinavia, of Holland, of Ireland. Let your measure of Americanism be unstinted; let it be no less broad than the bounds which history in its final analysis will impose as the deliberate judgment of posterity. Let no man confine your patriotism or your joy in your country's greatness by any sectarian or sectional or racial or religious tradition. Do not be misled by error, even though the error be embalmed in the textbooks of the schools, nor yet by the accepted myths of press or platform; and if I call your attention to the chief of these, believe me it is with no invidious purpose, but because I recognize in the propagation of error a menace to the youth of the land. Beware of the Anglo-Saxon legend. It is not only an affront to historical truth, but it sows the seed of racial disunion. It revives the European régime of national antipathies. It is one of the myriad microbes of caste. I recall dimly, as one of the half-obliterated memories of my schoolboy days, the mental anguish which I experienced through gathering from my grammar-school history the distressing fact that everything that was good and noble, pure and just,—that all the ideals upon which the American nation was founded, that all the patriots of the Revolution, that law and order, liberty, decency and virtue, were Anglo-Saxon in their origin. I remember trudging home to my American fireside and learning from my emigrant father that I was not of Anglo-Saxon descent. In fancy, the pain of that moment is with me still; and against it I must set the salve of President Roosevelt's statement to the Boston

Press Club, when he said: "Your papers call me an Anglo-Saxon. I never knew just quite what the term meant, but since I am an Anglo-Saxon, I can define it now. I am half-Dutch and half-Irish."

I recognize and award to the English strain, to the Puritan and Cavalier, their honest portion of credit for the realization in fact of the democratic ideal. But the flat truth is that, of the blood that ran in the veins of the one million people who made up the population of the colonies in 1776, less than one-half was of English origin.

I wish to emphasize and promulgate a truth which history corroborates, but which has been popularly ignored. It is that our nation, by reason of its essential, racial extraction, is the legatee and repository of the blood, the accumulated wisdom, the ennobling traditions, the literary and artistic ideals, the moral impulses, of no one people, of no one European family, but of all the great tribal generations, Aryan and Semitic, which have left their impress upon the records of time. And I desire to lay stress upon the fact that this was true from the beginning. The debt we owe, racially and industrially, to the myriads of European pilgrims who have elected America as their foster-mother from the time of the Declaration of Independence up to the present hour, has been recognized because it is comparatively recent history. But the basic and fundamental race-elements upon which the structure of our liberties was first reared were in no wise different from those which have contributed to its maintenance and its extension in these later days. Glorious, indeed, is the privilege of American citizenship; not because we have developed here an ideal state,— as yet, that is only in the making; not because we have achieved a measure of material success superior to that of our sister nations; not because our political institutions better embody the will of the community than any yet devised by the brain of man: but because we are the heirs of all the ages; because the Frithiof's Saga, the Niebelungenlied, the Cid, the Chanson of Roland, the Divine Tragedy of Dante, the Lusiad of

Camoens, the Ossianic Legends, the folk-lore of Deirdre and the Fenians belong to us intimately, essentially, no less than the Arthurian epics, Magna Charta, Shakespeare, Milton, Bacon, Keats and Kipling. Well, indeed, may we quote St. Paul: "We are the citizens of no mean city!" In a sense far removed from that of the travelled dilettante's boast, may we announce that we are citizens of the world.

#### NEW WORLD IDEALISM.

But nobility has its obligations. It behooves us who take from mankind so great a patrimony, to give back to humanity a notable increase. It has been charged that we, as a nation, are lacking in idealism. We have been accused of a gross devotion to material and commercial progress. Our critics are in error. They have mistaken success in material achievement for the denial of ideals. They ignore the eternal drama, the inextinguishable conflict between man and material nature. They forget that the conquest by man over matter is, in its essence, an expression of the spiritual striving of the race. Men live their poems before they write them. The heroism of the Siege of Troy preceded the Iliad of Homer, as the epic voyage of Columbus, the titanic victories of Grant, the Nestor-like statesmanship of Washington and the sacrificial toil of Lincoln precede their perpetuation in poetry and bronze. It is a significant development that the soul of the American people, which has taken on its characteristics through the fraternal blending of the peoples, has found its most significant expression in the inventions which have facilitated communication between man and man. The steamboat, the railroad, the telegraph, the telephone, the Panama Canal, these are not merely material triumphs. They are proofs, as well, that we have preserved the faculty of dreaming grandly bequeathed to us by Columbus and the countless millions of heroic Europeans who risked the perils of the Atlantic to reach our sheltering shores. The American is an idealist by temperament, by spiritual and racial inheritance.

## THE CASTE OF THE DOLLAR.

The commercial strife which deforms our community life is not peculiar to American institutions. It has been handed down to us through the ages. The fact that, in the internecine warfare of trade, the American is pre-eminent by reason of his alertness, his energy, his constructive imagination, is due to the superiority of his racial type, and this superiority gives promise for the future of the land. It augurs moral and intellectual capacity to reform. For our nation, founded, as it is, upon the principle of fraternity, saturated, as it is, with the solvent of sympathy, freed, as it is, from the trammels of racial caste, of religious proscription, of political despotism, is bound to overcome, through the forces of altruistic public opinion, the evils which now make for inequality in our economic and industrial life. We have seen that democracy, which mingles racially the blood of the people, has produced, as one of the fruits of fraternity, popular political institutions. We have seen that it has levelled the walls of prejudice which divided religious sects and arrayed them against each other. Here in America the orthodox and the heretic, Jew and Gentile, worship in freedom of conscience with none of the rancorous bitterness which characterized the older peoples who flayed each other for the love of God. Racial freedom, political freedom, religious freedom! These we have realized in fact. Tell me, my friends, are not these achievements an augury and a pledge that industrial and economic freedom shall yet be attained by us? Of the four great evils of the caste system, we have abolished three. There yet remains only the caste of the dollar, the aristocracy of ill-gotten wealth, the special privilege which has succeeded to the divine right of kings, the prerogative of profit, unjustly wrung from the toiler, now in defiance of law, now under the forms of law, but always by force or its equivalent, fraud.

The promise of our victory over the inequalities which now permit the exploitation of the many by the few in the production and distribution of wealth is

contained in the splendid history of our past. In the olden days, the most profitable and privileged business upon earth was the governing business. It was controlled always by a close corporation, usually a family which assumed to hand down its kingship from father to son. Our first, great, economic advance was made when the people of our thirteen colonies took over by public ownership this government monopoly. The conservatives, the capitalistic class of the days of 1776, were shocked and pained by the radicalism of Washington and Jefferson and Hancock, Adams and Otis. They recognized in the public ownership of the business of government a menace to all privilege and monopoly. Twelve hundred of these distinguished gentlemen, the cultured and luxurious and conservative element of the day, sailed away with General Gage when his troops evacuated Boston and established themselves in New Brunswick and Nova Scotia rather than endure the agony of living under free political institutions. Twelve thousand loyalists of the same type left New York for the same reason; so that the hostility of the privileged to the abolition of privilege is no new thing. The very descendants of the patriot radicals of the Revolution; nearly one hundred years later, here among the conservative copperheads of New York and Boston, and throughout the Southern states, were strenuous and insistent advocates of the privileges of the slaveholder, and contended for the dissolution of our Union.

Always, let it be observed, that the man who fights for class and privilege insists upon the supremacy of the individual or the caste. Always, let it be observed, the forces that fight for democracy stand for the greatest good of the greatest number, for the principle of fraternity and fusion, as against disintegration and disunion.

We are on the eve of a new revolution. The issue lies with us. Young men, it is you who are to determine the destiny of our American state. Choose! Choose now, before your straightforward, unbiased judgment is warped by the ties of interest and selfish advantage.

Youth is divine, because it is fresh from God; because, as yet, the soiling impress of the world has not marred its pristine innocence, sincerity and truth. Will you ally yourselves, in the strife which you cannot escape, with the forces which make for the cementing and up-building of society, or with the ranks of those who teach that each man's hand is foreordained to be lifted against his fellow, that the human race is incapable of perfection, of betterment, even; that the law of God and man, immutable, eternal, is: "He shall take who has the power, and he may keep who can!"

I ask you to elect here and now, in Faneuil Hall, because I feel that this symbolic spot, glorified by the sacrifices of the fathers who gave their blood to see to it that the monopolistic trust of government should not wring an unjust profit from the people, is a fitting sanctuary for your spiritual enlightenment. The question which you shall have to decide is whether the commercial caste shall be permitted to emulate the government trust of King George. It is but one of many problems which America is bound to solve, but it is the chief and most important of them all. To each such problem, apply the crucial, vital test, "On which side lies the advantage of the special privilege that is the essence of caste? On which side stand the interests of the brotherhood of man?"

#### SOLICIT IMMIGRATION.

Admonished by the lessons of the past, it is our privilege to increase the efficiency of the race by encouraging, stimulating and welcoming European immigration to our shores. The Finn, the Bohemian, the Italian, the Greek, the Russian, the Pole, the Israelite, the Magyar,— Latin, Teuton, Kelt and Slav, we need them all. The wisdom of our statesmen will find the true policy to be not the exclusion of immigration, but the maintenance in Europe of national agents who shall solicit and organize as great an exodus as possible to these American shores. Thus shall our life stream be ever varied and strengthened; thus shall we escape forever the curse of racial caste.

## THE DISEASE OF DIVORCE.

We have seen that, as "the proper study of mankind is man," so, in the upbuilding of society, the proper function of humanity is to perpetuate, purify and ennoble human life. This means inevitably the conservation of the family. The family is the prop and pillar of all constituted order, the shrine of morality, the nursery of achievement, the bulwark of the nation. The clan is but a wider family; the nation, a more comprehensive clan. The first postulate of freedom is the freedom to form a family, to marry and give in marriage, to educate offspring in the family ideals. Woe to the people that permits the pollution of the family hearth. There is a canker that is eating to-day into the heart of American society. It is the disease, divorce. Its remedy, rather its abolition, is your function and your privilege. Divorce is a modern form of the debauchery which undermined the Pagan nations of antiquity. It reduces the marital relation to the animal level. It sins against the spirit of fraternity, because it exempts man and woman from the obligations of self-respect, of reciprocal duty and of responsibility to the offspring upon whose upbringing and culture the future of the race depends.

## MURDER BY THE STATE.

Respect for race depends upon respect for life. Life is sacred because it is of God. Wendell Phillips said that the worst use which can be made of a man is to hang him. There is a consequence of legal murder worse even than the loss of the individual life. It is the degenerating influence which, by the law of suggestion, is inflicted upon the community when a human being is killed by the state. Once the pickpocket was hanged, drawn and quartered, and gibbeted in chains upon the roadside, that the grisly horror of it might chill the blood of men, his fellows, his brothers, as they passed beneath the creaking corpse. To-day, we have progressed to that point where we realize that there is a suggestion of slaughter, more powerful than that of

terror, in such a violation of the decencies of life, and, lest murder by the state should stimulate murder by the individual, we lock the executioner and his victim away from the public sight and the public ear. Let us pray that to-morrow we shall have abolished, not alone the visual example, but the horror of the fact. Let us pray that both state and nation may soon be purged of the blood-guilt of capital punishment.

#### RELIGIOUS EDUCATION.

Life, developed and refined by racial democracy, made comfortable by economic democracy, broadened and heightened by the liberty of democratic political institutions, protected and fostered by democratic freedom of worship, still rests and must ever rest for its moral growth upon the principles of religious belief. It is the duty of the state to see to it that those principles, subject to the choice and guidance of parents, shall be inculcated into the minds of the school-children in whom lies the hope and future of the state. It is the duty of every religious body that has faith in the validity of its message to mankind to insist on the religious education of its youth. The means, the method, are proper subjects for deliberation and debate, but the principle itself cannot be gainsaid.

#### THE PATERNALISM OF THE TRUST.

In the establishment and enforcement of reform, we must continually beware of the subterfuges and machinations of the upholders of caste. They have learned well the lesson which the olden Latins expressed by the adage, "*Divide et impera.*" They are able to conquer while they are able to divide. Under the specious plea of individual freedom they mask the purpose of enslaving the community. But a conspicuous feature of the success which the captains of industry achieve is their ability to co-ordinate and organize their millions of wage-men into a coherent, effective, industrial whole. Suspect the capitalist who relies on national and even world-wide organization to achieve his selfish, industrial and commercial success, while he warns you, the voter,

to avoid national organization in your aspiration for the best political and economic results. The centralization which is inevitable in modern industry must be just as inevitable in political organization, if we are to control the paternalism of the trusts and syndicates. But if we of the city can be taught to fear our fellows of the state, if the state can be taught to fear the nation, then, indeed, are we a house divided against itself; then, indeed, have we missed the strength that lies in union; then, indeed, shall we fall a ready prey to exploitation by the capitalistic enemies of society.

We have made strides. The shibboleth of home rule did not prevent a President of the United States from compelling the feudal barons of Pennsylvania to deliver coal to the people. The spectre of the divine right of competition will not prevent the American people from controlling the public highways which modernity now describes as railroads and railways. Remark the fact, for it is significant, that already the nation is undertaking to fix railway rates. True, the measure is but a make-shift, a groping, blind and feeble, after righteousness; but it is evident that, in the words of our Boston poet, James Jeffrey Roche,

“ The giant is blind, but thinking,  
And his locks are growing fast.”

Clearly our American Samson is wide-awake at last. At least, the principle is recognized that the profit-seeking pedler of the products of labor is not exempt from all obligation to his fellow-man. The theory which has been the well-spring of the evils of commercialism, namely, that every man is entitled to exact his price and that the consumer may choose between paying and starving, bids fair to be relegated to the limbo of the divine right of kings. It is enough for the hour that the American people are aroused to the necessity of remedying the evils which flow from that world-old crime, the spoiling of the toiler.

#### THE FEDERATED BLOOD-STRAINS.

Ours is the race which, by reason of its heredity and ideals, is best equipped to lead humanity to the truth.

The American people succeed to the privileges of chivalry. They are dauntless. They are dreamers. They have in a higher degree than any race on earth the instinct of comradeship, the saving grace of the fraternal sense. Fused in the schools, the shops, the factories and the fields, where the Latin, the Teuton, the Slav, the Kelt, each, in turn, gives to and receives from his fellow, consciously or unconsciously, something of his native power, they have developed an alertness, an energy, a sympathy, which stamps them at sight. This is recognizable the wide world over. On the shores of Manila bay, in camp and on the march, I have watched the volunteers from Dakota, Idaho, Montana, Minnesota, California. One thing forever struck me, the unity of type. And this, too, when the racial blend had not been perfected, except in its mental, or social, aspects. The blue-eyed boys of Minnesota, yellow-haired giants that showed their Viking ancestry in their candid faces and their mighty limbs; swarthy Californians of Spanish stock; sturdy descendants of the German strain from the broad Dakota prairies; the regulars of the Fourteenth Infantry, recruited from the Saxon, the Irish and Italian race-elements in the cities of our southern and eastern seaboard — all were splendidly alike in gait and bearing, in initiative, in dash, in self-reliance, in fortitude. The ennobling spirit of American fraternity clothed them with a common atmosphere, as with a garment. They were unmistakably, distinctively, American.

To the making of heroes like these, perforce,  
Humanity's federate blood-strains have gone;  
But, Keltic, or Saxon, Teuton or Norse,  
Latin or Slav, they are Yankees of course,  
For Freedom has fused them in one.

By such men were the battles of the Revolution won; and, within the memory of the living, the greatest war of history was waged by a kindred type for no less a purpose than the continued solidarity and union of this American race. In civic virtue, as in military valor, the blended blood-strain stands the test. The racial fusion that gave to us Warren, Sullivan, Steuben and fighting Jack Barry of the days of '76, that gave to us

in '61 Grant, Sheridan, Rosecrans and Meagher, was the same that produced an Adams, a Faneuil, a Jay, a Carroll, a Patrick Henry; the same that endowed the nation, in the black days of the Rebellion, with the genius of Lincoln, Stanton and Blaine.

It still brews for us the strenuous type of public servant. To-day the nation has her Roosevelt, Wisconsin, her LaFollette, Boston, her Fitzgerald, and Massachusetts has John B. Moran.

#### THE QUEST OF THE IDEAL.

Shall we despair of the ideal of Columbus? In the eternal struggle between right and wrong, shall we give ground in craven retreat before the hosts of error? Not so. The woman of the Scriptures bewailed her loss for that "they had taken her Lord away and she knew not where they had laid him." Hers is the cry of suffering humanity the world over. Wherever the forces of evil, the votaries of caste, the enemies of fraternity, sin against our common human brotherhood, there, indeed, have they laid our Lord away; there, indeed, have they walled within the tomb the vision of the truth and love that make us free. We are enrolled in the ranks of the crusade Columbus hoped to lead. We are embarked. We are confronted with the mystery of the universe and the dark that veils the voyage of the human soul. We challenge the Unknown. Watch! We outride the tempest. Mark! We have spanned the seas. We are making land at last. Yonder, yearning under the sunlight, lie the fabled riches of the Indies and Cathay. Utopia is there, and Eldorado, the Golden Age and the Paradise we lost. Reverently uplifted, we bear the cross, ready for its planting on the promised land, the blessed cross, symbol of sacrifice, pledge of fraternity. We touch the long-sought shore. We land. Upheld by the serene faith of Columbus, fortified by the world-soul which is our blood-inheritance, we win the ideal goal. Who, now, shall deny us? Who dares to say that we shall not yet gain and redeem the sepulchre of Christ?

SEAL OF THE CITY

OF

BOSTON

### THE CITY SEAL

As it appeared prior to 1827

The City Seal was adopted by "An Ordinance to Establish the City Seal," passed January 2, 1823, which provides "That the design hereto annexed, as sketched by John R. Penniman, giving a view of the City, be the device of the City Seal; that the motto be as follows, to wit: 'Sicut patribus sit Deus nobis'; and that the inscription be as follows:—'Bostonia condita, A.D. 1630. Civitatis regimine donata, A.D. 1822.'" The motto is taken from 1 Kings, viii, 57: "God be with us as He was with our fathers."

The seal as it first appeared is shown above.

The seal as it was afterwards changed, and has ever since continued to be used, was first shown on page 221 of the volume of laws and ordinances, commonly known as the "First Revision," published in 1827, and is established as the City Seal at the present time by Revised Ordinances of 1914, Chapter 1, Section 5, which provides that "The seal of the City shall be circular in form; shall bear a view of the City; the motto 'SICUT PATRIBUS SIT DEUS NOBIS,' and the inscription, 'BOSTONIA CONDITA, A.D. 1630. CIVITATIS REGIMINE DONATA A.D. 1822,' as herewith shown."

The seal as changed in 1827 is shown on the opposite page.

## ORIGIN AND GROWTH OF BOSTON.

---

THE Royal Patent incorporating the Governor and Company of Massachusetts Bay in New England passed the seals March \* 4, 1628-29. At a General Court, or Meeting of the Company, on August \* 29 of that year it was voted "that the Government and patent should be settled in New England." To that end Governor Winthrop led the Puritan Exodus in 1630. Soon after his arrival at Salem on June \* 12, 1630, he proceeded with a large following to Charlestown, where a plantation had been established the summer before. The Assistants held three Courts at Charlestown in the interval, August \* 23 to September \* 28, inclusive. At their meeting on September \* 7, they "ordered that Trimountaine shall be called Boston; Mattapan, Dorchester; and the towne upon Charles River, Waterton." Thus Shawmut of the Indians was named Boston, probably out of gratitude to the Merchants of Boston in Lincolnshire, who had subscribed generously to the stock of the Company.

In the latter part of August, Governor Winthrop with the patent chose Boston as his abiding place. The first "Court" held in Boston was a "General Court" on October \* 19, "for establishing of the government." On October \* 3, 1632, Boston was formally declared to be "the fittest place for publique meetings of any place in the Bay."

Boston was the first town in Massachusetts to become a city. It was incorporated February 23, 1822, by St. 1821, c. 110, adopted by the voters March 4, 1822. This act was revised by St. 1854, c. 448; amended by St. 1885, c. 266 and again by St. 1909, c. 486.

The neck of land called Boston, still called Boston Proper, contained perhaps 700 acres of land, judging from the 783 acres shown by the official survey of 1794. (In the interval 1630-37, Boston acquired jurisdiction over most of the territory now included in Chelsea, Winthrop, Revere, East Boston, Brookline, Quincy, Braintree, Randolph and Holbrook, besides certain islands in the harbor.) From 1637 till May 13, 1640,

when "Mount Woollaston" was set off as Braintree, Boston exercised jurisdiction over a territory of at least 40,000 acres. Within its present limits there are 30,598 acres, including flats and water.

Since 1640, grants of land have been made to Boston by the General Court as follows: (1) October \* 16, 1660, 1,000 acres "for the use of a free schoole, layd out in the wilderness or North of the Merimake River" (in Haverhill), in 1664. (2) June \* 27, 1735, in abatement of Province Tax, three townships, each six miles square, or 69,120 acres in all. These townships later became the Towns of Charlemont, Colrain, and Pittsfield. Boston sold its interest in them on June \* 30, 1737, for £3,660. (3) June 26, 1794, a township of land in Maine (23,040 acres) "to build a public hospital." This tract was sold by the City April 6, 1833, for \$4,200.

Muddy River was set off as the Town of Brookline on November \* 13, 1705, and Rumney Marsh was set off as the Town of Chelsea January \* 8, 1739.

The principal annexations of territory included within the present limits of the City of Boston have been made as follows:

(1) Noddle's Island, by order of Court of Assistants, March \* 9, 1636-37. (2) South Boston set off from Dorchester March 6, 1804, by St. 1803, c. 111. (3) Washington Village set off from Dorchester May 21, 1855, by St. 1855, c. 468. (4) Roxbury January 6, 1868, by St. 1867, c. 359, accepted September 9, 1867. Roxbury received its name by order of the Court of Assistants October \* 8, 1630. It was incorporated as a city March 12, 1846, by St. 1846, c. 95, accepted March 25, 1846. (5) Dorchester January 3, 1870, by St. 1869, c. 349, accepted June 22, 1869. It received its name September \* 7, 1630, by order of the Court of Assistants. (6) Brighton January 5, 1874, by St. 1873, c. 303, accepted October 7, 1873. Set off from Cambridge as the Town of Brighton February 24, 1807, by St. 1806, c. 65. (7) Charlestown January 5, 1874, by St. 1873, c. 286, accepted October 7, 1873. Settled July \* 4, 1629. It was incorporated a City February 22, 1847, by St. 1847, c. 29, accepted March 10, 1847. (8) West Roxbury January 5, 1874, by St. 1873, c. 314, accepted October 7, 1873. It was set off from Roxbury and incorporated a Town May 24, 1851, by St. 1851, c. 250. (9) Hyde Park January 1, 1912, by St. 1911, c. 469, and 583, accepted November 7, 1911. Incorporated a Town April 22, 1868.

LEGISLATIVE ACTION CONCERNING  
MAYORALTY.

The following was received:

City of Boston,  
City Clerk Department,  
January 29, 1945.

To the Honorable the City Council.

Gentlemen,—I transmit herewith a certified copy of chapter four of the Acts of the Legislature of the present year. Under the terms of this Act the present President of the City Council, Hon. John E. Kerrigan, assumes the office of Mayor of Boston for the period beginning with January 25, 1945, and ending upon the qualification of the person hereafter elected to said office by popular vote.

Respectfully,

W. J. DOYLE,  
City Clerk.

## Chapter 4, Acts of 1945.

An Act Relative to the Office of the Mayor of the City  
of Boston and the Administration of the Affairs  
of Said City.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Section 1. Notwithstanding any provisions of general law, of any special act relating to the city of Boston or of any ordinance of said city, the president of the city council of said city in office on the effective date of this act, hereafter in this act called the president, or any successor in said office in the event of his death or resignation from said city council, hereafter in this act called his successor, shall exclusively, during the period beginning with said effective date and ending on the date of qualification of the person first elected by popular vote after said effective date to the office of mayor of said city, possess all the rights and powers, perform all of the duties and be subject to all of the obligations of mayor of said city, subject however, to the following provisions: (a) The president and his successor, if any, while exercising the rights and powers and performing the duties of mayor under any provision of this act, shall be entitled to compensation at the same rate as that prescribed by city ordinance for the mayor of said city, but shall not, during said period, be entitled to any compensation as a member of the city council; provided, that the president shall be entitled to such compensation from January fourth, nineteen hundred and forty-five; (b) Nothing in this act shall be deemed to derogate from the powers and duties of the president or his successor in his capacity as president and a member of said city council or affect his tenure as such president or member; (c) While the president or his successor is unable, because of absence or other

cause, to exercise the powers, rights, duties and obligations conferred and imposed upon him by this act, or while there is no president of the city council, the city clerk shall exercise and perform such powers, rights, duties and obligations; provided, that he shall exercise and perform the same only in matters not admitting of delay and that in no event shall he have power to make permanent appointments. While serving as acting mayor under this act, the city clerk shall receive no extra compensation as such acting mayor. Section 2. This act shall take effect upon its passage.

House of Representatives, January 24, 1945.

Passed to be enacted, FREDERICK B. WILLIS, Speaker.

In Senate, January 24, 1945.

Passed to be enacted, ARTHUR W. COOLIDGE, President.

## ELIMINATION OF SPECIAL ELECTION FOR MAYOR.

The following was received:

City of Boston,  
City Clerk Department,  
February 5, 1945.

To the Honorable the City Council.

Gentlemen,—I am in receipt from the Secretary of State of a certified copy of chapter 8 of the Acts of

1945, which was enacted by the Legislature January 25, 1945, and approved by the Governor January 29, 1945. For the official records and for the information of your Honorable Body the said chapter 8 is as follows:

An Act to Eliminate Any Special Election of Mayor in the City of Boston Prior to the Next Regular Municipal Election.

SECTION 1. There shall be no special election to fill any vacancy in the office of mayor of the city of Boston prior to the regular municipal election to be held in said city in the current year, notwithstanding the provisions of section forty-seven of chapter four hundred and eighty-six of the acts of nineteen hundred and nine, as most recently amended by section seven of chapter four hundred and seventy-nine of the acts of nineteen hundred and twenty-four.

SECTION 2. This act shall take effect upon its passage.

Respectfully,

W. J. DOYLE,  
City Clerk.

Placed on file.

## INTRODUCTION.

---

As a public document THE MUNICIPAL REGISTER is as old as the City of Boston itself, the first volume having been published in 1821, a year before the government of Boston changed from Town to City. Up to 1840 the title of the volume was: The Rules and Orders of the Common Council. From 1821 to 1829 the document contained merely a register of the City Council and a list of the officers.

In 1829 the City Charter was published as a part of the volume, and in 1830 the Acts relating to Boston, also the ordinances, were added. In 1832 the size of the volume was increased by the addition of an index to the contents. The volume published in 1822 contained fifteen pages and for the year 1840 there were eighty-eight pages, including three pages of index.

The title THE MUNICIPAL REGISTER was adopted in 1841 when the publication became more ambitious, incorporating in its pages the Rules and Orders of the Common Council, joint rules, ordinances of the City, statutes of the Commonwealth relating to the City, a list of the public schools, the City Government of 1841, the committees and departments (consisting at that time of the treasury, law, police, health, public land and buildings, lamps and bridges, fire, and public charitable institutions), and a list of the ward officers.

From 1842 to 1864 it also contained a list of the members of preceding City Governments, a necrological record of those members, the latest ordinances and the special statutes relating to the City. In 1851 a list of the annual orators was added, and in 1853 a map of

the City and the Rules of the Board of Aldermen. In 1876, statistics of registration and voting were included, carried from 1879 to 1924 in tabulated form.

From 1889 to 1896, inclusive, THE MUNICIPAL REGISTER also contained a compilation of the Charter with the revision of 1854 and the amendments of 1885 and thereafter. The Amended Charter of 1909 (15 pages) was added in 1910, and the various changes since that year have been indicated by footnotes.

In 1924 the important amendments to the Charter enacted in that year (10 pages) were included.

The 1925 volume contained, as the latest addition, descriptions of the ward boundaries as fixed for the 22 new wards (formerly 26) in December, 1924.

Since 1925, the Register has been gradually reduced to its present size; primarily, because of the issuance of the Boston Year Book, a more ambitious publication, in 1925 and 1926, and secondly for the purpose of economy.

CITY CHARTER OF 1909 (ACTS OF 1909,  
CHAPTER 486) WITH AMENDMENTS TO  
JULY 1, 1945, INCORPORATED.

THE MAYOR AND CITY COUNCIL.

SECTION 1.\* (*The terms of office of the mayor and the members of both branches of the present city council of the city of Boston and of the street commissioner whose term would expire on the first Monday of January, nineteen hundred and ten, are hereby extended to ten o'clock a. m. on the first Monday of February, nineteen hundred and ten, and at that time the said city council and both branches thereof and the positions of city messenger, clerk of the common council, clerk of committees, assistant clerk of committees, and their subordinates shall be abolished. The officials whose terms of office are hereby extended shall, for the extended term, receive a compensation equal to one-twelfth of the annual salaries now paid to them respectively.*) The mayor and city council elected in accordance with the provisions of this act, and their successors, shall thereafter have all the powers and privileges conferred, and be subject to all the duties and obligations imposed by law upon the city council or the board of aldermen, acting as such or as county commissioners or in any capacity, except as herein otherwise provided. Wherever in this act the phrase "mayor and city council" appears, it shall be understood as meaning the mayor and city council acting on and after the first Monday of February, nineteen hundred and ten, under the provisions of this and the three following sections. The city council may, subject to the approval of the mayor, from time to time establish such offices, other than that of city clerk, as it may deem necessary for the conduct of its affairs and at such salaries as it may determine, and abolish such officers or alter such salaries; and without such approval may fill the offices thus established and remove the incumbents at pleasure.

SECTION 1. (*Chap. 479, Acts of 1924.*) The terms of office of the mayor of the city of Boston, of members of the city council and school committee of said city which would expire under existing law on the first Monday of February, nineteen hundred and twenty-six, and of members of the city council and school committee of said city which would expire under existing law on the first Monday of February, nineteen hundred and twenty-seven, shall terminate at ten o'clock in the forenoon on the first Monday of January, nineteen hundred and twenty-six. There shall be no municipal election in said city in the year nineteen hundred and twenty-four, and the terms of office of members of the city council and school

committee of said city which would expire under existing law on the first Monday of February, nineteen hundred and twenty-five, are hereby extended to ten o'clock in the forenoon on the first Monday of January, nineteen hundred and twenty-six. The salary of any official whose term of office is terminated as aforesaid shall cease at the time of such termination and the salary of any official whose term of office is extended as aforesaid shall continue at the same rate as theretofore so long as he continues to serve during the period of such extension.

SECT. 2.\* The mayor from time to time may make to the city council in the form of an ordinance or loan order filed with the city clerk such recommendations other than for school purposes as he may deem to be for the welfare of the city. The city council shall consider each ordinance or loan order presented by the mayor and shall either adopt or reject the same within sixty days after the date when it is filed as aforesaid. If the said ordinance or loan order is not rejected within said sixty days it shall be in force as if adopted by the city council unless previously withdrawn by the mayor. Nothing herein shall prevent the mayor from again presenting an ordinance or loan order which has been rejected or withdrawn. The city council may originate an ordinance or loan order and may reduce or reject any item in any loan and, subject to the approval of the mayor, may amend an ordinance. All sales of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two thirds of all the members of the city council; and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first, except that in the case of loan orders for temporary loans in anticipation of taxes the second of said readings and votes may be had not less than twenty-four hours after the first. No amendment increasing the amount of land to be sold or the amount to be paid for the purchase of land, or the amount of loans, or altering the disposition of purchase money or of the proceeds of loans shall be made at the time of the second reading and vote. If a petition signed by six members of the council requesting that action be taken forthwith upon a loan order presented by the mayor is filed in the office of the city clerk not earlier than fourteen days after its presentation, action shall be taken by the yeas and nays on the question of the adoption of such loan order at the next meeting of the council, or, if one vote has already been taken thereon, at the next meeting after the expiration of the required interval after such vote; provided, that such action thereon has not sooner been taken or such loan order has not been withdrawn by the mayor.

SECT. 3.† All appropriations, other than for school purposes, to be met from taxes, revenue or any source other than loans, shall originate with the mayor, who, not later than the first Monday in February of each year, shall submit to the city council the annual budget of the current expenses of the city and county for the current fiscal year, and may submit thereafter such supplementary appropriation orders as he may deem necessary. The city council may reduce or reject any item, but,

† Sect. 3 as amended by Chap. 479, Acts of 1924, and Chap. 604, Acts of 1941.

except upon the recommendation of the mayor, shall not increase any item in, nor the total of, a budget, nor add any item thereto, nor shall it originate a budget. Not later than the first Monday in April the city council shall take definite action on the annual budget by adopting, reducing or rejecting it, and in the event of their failure so to do the items and the appropriation orders in the budget as recommended by the mayor shall be in effect as if formally adopted by the city council and approved by the mayor. It shall be the duty of the city and county officials, when requested by the mayor, to submit forthwith in such detail as he may require estimates for the next fiscal year of the expenditures of the department or office under their charge, which estimates shall be transmitted to the city council.

SECT. 3A.\* In the period after the expiration of any fiscal year, and before the regular appropriations have been made by the city council and the school committee, city and county officers who are authorized to make expenditures, and the school committee, may incur liabilities in carrying on the work of the several departments and offices entrusted to them, and payments therefor shall be made from the treasury from any available funds therein and charged against the next annual appropriation, or special appropriation, if any is made; provided, that the liabilities incurred during such interval for regular employees do not exceed in any one month the average monthly expenditure of the last three months of the preceding fiscal year, and that the total liabilities incurred during said interval do not exceed in any one month the sums spent for similar purposes during any one month of the preceding fiscal year; and provided, further, that said officers who are authorized to make expenditures may expend in any one month for any new officer or board lawfully created an amount not exceeding one twelfth of the estimated cost for the current fiscal year; and provided, further, that until a regular or special appropriation has been made for snow removal, expenditures may be made for that purpose to an amount not exceeding the average of the annual expenditures for snow removal in the five preceding fiscal years.

SECT. 3B.\* After an appropriation of money has been duly made by the city of Boston for any specific purpose, or for the needs and expenditures of any city department or county office, no transfer of any part of the money thus appropriated shall be made except in accordance with and after the written recommendation of the mayor to the city council, approved by a ye and nay vote of two thirds of all the members of the city council; provided, that the city auditor, with the approval in each instance of the mayor, may make transfers, other than for personal service, from any item to any other item within the appropriations for a department, division of a department or county office. After December twentieth in each year the city auditor may, with the approval of the mayor, apply any income and taxes not disposed of and make transfers from any appropriation to any other appropriation for the purpose only of closing the accounts of the fiscal year.

SECT. 4. Every appropriation, ordinance, order, resolution and vote of the city council, except votes relating to its own internal affairs, shall be presented to the mayor, who shall make or cause to be made a written

record of the time and place of presentation, and it shall be in force if he approves the same within fifteen days after it shall have been presented to him, or if the same is not returned by him with his objections thereto in writing within said period of fifteen days. If within said period said appropriation, ordinance, order, resolution, or vote is returned by the mayor to the city council by filing the same with the city clerk with his objections thereto the same shall be void. If the same involves the expenditure of money, the mayor may approve some of the items in whole or in part and disapprove other of the items in whole or in part; and such items or parts of items as he approves shall be in force, and such items or parts of items as he disapproves shall be void.

SECT. 4A. \* The mayor may designate one clerical assistant for whose acts he shall be responsible to sign his name in approval of all vouchers of less than five hundred dollars each.

SECT. 5. † Except as otherwise provided in this act the organization, powers and duties of the executive departments of the city shall remain as constituted at the time when this section takes effect; but the mayor and city council at any time may by ordinance reorganize, consolidate or abolish, in whole or in part, departments whether created on or before or subsequent to the first Monday of February in the year nineteen hundred and ten, including the transit department; transfer the duties, powers and appropriations of one department to another in whole or in part; and establish new departments; and may increase, reduce, establish or abolish salaries of heads of departments, or members of boards. Such an ordinance may provide that all of the employees of any department or division thereof thereby abolished who are subject to civil service shall be reappointed to similar positions with similar status in any new department or division thereof thereby established or in any other department or division thereof, without civil service examination or registration and that such employees shall, upon reappointment as may be provided in such ordinance, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to them, and that their services shall be deemed to have been continuous, to the same extent as if such abolition had not taken place. Nothing in this act shall authorize the abolition or the taking away of any of the powers or duties as established by law of the school committee, the board of commissioners of school buildings, the department of school buildings, the election department or any department in charge of an official or officials appointed by the governor.

SECT. 6. No contract for lighting the public streets, parks, or alleys, or for the collection, removal, or disposal of refuse, extending over a period of more than one year from the date thereof, shall be valid without the approval of the mayor and the city council after a public hearing, held by the city council, of which at least seven days' notice shall have been given in the *City Record*.

SECT. 7. The city council at any time may request from the mayor specific information on any municipal matter within its jurisdiction, and may request his presence to answer written questions relating thereto at a meeting to be held not earlier than one week from the date of the receipt of

† Sect. 5 as amended by Chap. 222, Sp. Acts of 1919; Chap. 389, Acts of 1928; Chap. 227, Acts of 1934; Chap. 152, Acts of 1936.

said questions, in which case the mayor shall personally, or through a head of a department or a member of a board, attend such meeting and publicly answer all such questions. The person so attending shall not be obliged to answer questions relating to any other matter. The mayor at any time may attend and address the city council in person or through the head of a department, or a member of a board, upon such subject as he may desire.

SECT. 8. Neither the city council, nor any member or committee, officer, or employee thereof shall, except as otherwise provided in this act, directly or indirectly on behalf of the city or of the county of Suffolk take part in the employment of labor, the making of contracts, the purchase of materials, supplies or real estate; nor in the construction, alteration, or repair of any public works, buildings, or other property; nor in the care, custody, and management of the same; nor in the conduct of the executive or administrative business of the city or county; nor in the appointment or removal of any municipal or county employee; nor in the expenditure of public money except such as may be necessary for the contingent and incidental expenses of the city council. The provisions of this section shall not affect the powers or duties of the city council as the successor of the present board of aldermen relative to state or military aid and soldiers' relief.

It shall be unlawful for the mayor or for a member of the city council or for any officer or employee of the city or of the county of Suffolk or for a member of the finance commission directly or indirectly to make a contract with the city or with the county of Suffolk, or to receive any commission, discount, bonus, gift, contribution or reward from or any share in the profits of any person or corporation making or performing such contract, unless such mayor, member of the city council, officer, or employee or member of the finance commission immediately upon learning of the existence of such contract or that such contract is proposed, shall notify in writing the mayor, city council, and finance commission of such contract and of the nature of his interest in such contract and shall abstain from doing any official act on behalf of the city in reference thereto. In case of such interest on the part of an officer whose duty it is to make such contract on behalf of the city the contract may be made by any other officer of the city duly authorized thereto by the mayor, or if the mayor has such interest by the city clerk: *provided, however*, that when a contractor with the city or county is a corporation or voluntary association, the ownership of less than five per cent of the stock or shares actually issued shall not be considered as being an interest in the contract within the meaning of this act, and such ownership shall not affect the validity of the contract, unless the owner of such stock or shares is also an officer or agent of the corporation or association, or solicits or takes part in the making of the contract.

A violation of any provision of this section shall render the contract in respect to which such violation occurs voidable at the option of the city or county. Any person violating the provisions of this section shall be punished by a fine of not more than one thousand dollars, or by imprisonment for not more than one year, or both. Chapter five hundred and twenty-two of the acts of the year nineteen hundred and eight is hereby repealed.

#### THE EXECUTIVE DEPARTMENT.

SECT. 9. All heads of departments and members of municipal boards, including the board of street commissioners, as their present terms of office expire (but excluding the school committee and those officials by

law appointed by the governor), shall be appointed by the mayor without confirmation by the city council. They shall be recognized experts in such work as may devolve upon the incumbents of said offices, or persons specially fitted by education, training or experience to perform the same, and (except the election commissioners, who shall remain subject to the provisions of existing laws) shall be appointed without regard to party affiliation or to residence at the time of appointment except as hereinafter provided.

SECT. 10 and SECT. 11, concerning approval by the civil service commission of appointments by the mayor, repealed by chapter 167, Acts of 1930.

SECT. 12. A vacancy in any office to which the provisions of section nine of this act apply, shall be filled by the mayor under the provisions of said section and pending a permanent appointment he shall designate some other head of a department or member of a board to discharge the duties of the office temporarily.

SECT. 13. Members of boards shall be appointed for the terms established by law or by ordinance. Heads of departments shall be appointed for terms of four years beginning with the first day of May of the year in which they are appointed and shall continue thereafter to hold office during the pleasure of the mayor.

SECT. 14. The mayor may remove any head of a department or member of a board (other than the election commissioners, who shall remain subject to the provisions of existing laws) by filing a written statement with the city clerk setting forth in detail the specific reasons for such removal, a copy of which shall be delivered or mailed to the person thus removed, who may make a reply in writing, which, if he desires, may be filed with the city clerk; but such reply shall not affect the action taken unless the mayor so determines. The provisions of this section shall not apply to the school committee or to any official by law appointed by the governor.

SECT. 15. The positions of assistants and secretary authorized by section twenty of chapter four hundred and forty-nine of the acts of the year eighteen hundred and ninety-five except those in the election department are hereby abolished, and except as aforesaid the said section is hereby repealed.

The civil service laws shall not apply to the appointment of the mayor's secretaries, nor of the stenographers, clerks, telephone operators and messengers connected with his office, and the mayor may remove such appointees without a hearing and without making a statement of the cause for their removal.

SECT. 16. No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section six of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both.

#### THE FINANCE COMMISSION.

SECT. 17. Within sixty days after the passage of this act the governor with the advice and consent of the council shall appoint a finance com-

mission to consist of five persons, inhabitants of and qualified voters in the city of Boston, who shall have been such for at least three years prior to the date of their appointment, one for the term of five years, one for four years, one for three years, one for two years, and one for one year, and thereafter as the terms of office expire in each year one member for a term of five years. Vacancies in the commission shall be filled for the unexpired term by the governor with the advice and consent of the council. The members of said commission may be removed by the governor with the advice and consent of the council for such cause as he shall deem sufficient. The chairman shall be designated by the governor. His annual salary shall be five thousand dollars, which shall be paid in monthly installments by the city of Boston. The other members shall serve without pay.

SECT. 18. It shall be the duty of the finance commission from time to time to investigate any and all matters relating to appropriations, loans, expenditures, accounts, and methods of administration affecting the city of Boston or the county of Suffolk, or any department thereof, that may appear to the commission to require investigation, and to report thereon from time to time to the mayor, the city council, the governor, or the general court. The commission shall make an annual report in January of each year to the general court.

SECT. 19. Whenever any pay roll, bill, or other claim against the city is presented to the mayor, city auditor, or the city treasurer, he shall, if the same seems to him to be of doubtful validity, excessive in amount, or otherwise contrary to the city's interest, refer it to the finance commission, which shall immediately investigate the facts and report thereon; and pending said report payment shall be withheld.

SECT. 20.\* The said commission is authorized to employ such experts, counsel, and other assistants, and to incur such other expenses as it may deem necessary, and the same shall be paid by said city upon requisition by the commission, not exceeding in the aggregate in any year the sum of forty-five thousand dollars, or such additional sums as may be appropriated for the purpose by the city council and approved by the mayor. A sum sufficient to cover the salary of the chairman of the commission and the further sum of at least forty-five thousand dollars to meet the expenses as aforesaid each year shall be appropriated by said city. The commission shall have the same right to incur expenses in anticipation of its appropriation as if it were a regular department of said city.

SECT. 21. For the purpose of enabling the said commission to perform the duties and carry out the objects herein contemplated, and to enable the mayor, the city council, the governor or the general court to receive the reports and findings of said commission as a basis for such laws, ordinances, or administrative orders as may be deemed meet, the commission shall have all the powers and duties enumerated in chapter five hundred and sixty-two of the acts of the year nineteen hundred and eight and therein conferred upon the commission designated in said act; but counsel for any witness at any public hearing may ask him any pertinent question and may offer pertinent evidence through other witnesses subject to cross-examination by the commission and its counsel.

#### THE CITY CLERK.

SECT. 22. The present city clerk shall hold office for the term for which he has been elected, and thereafter until his successor is chosen

---

\* Sect. 20 as amended by Chap. 81, Acts of 1921, and Chap. 369, Acts of 1924.

and qualified. In the year nineteen hundred and eleven, and every third year thereafter, a city clerk shall be elected by a majority of the members of the city council, to hold office until the first Monday in February in the third year following his election, and thereafter until his successor has been duly chosen and qualified unless sooner removed by due process of law. The city clerk shall act as clerk of the city council established by this act.

#### THE CITY AUDITOR.

SECT. 23. All accounts rendered to or kept in the departments of the city of Boston or county of Suffolk shall be subject to the inspection and revision of the city auditor, and shall be rendered and kept in such form as he shall prescribe. The auditor may require any person presenting for settlement an account or claim against the city or county to make oath before him in such form as he may prescribe as to the accuracy of such account or claim. The wilful making of a false oath shall be perjury and punishable as such. The auditor may disallow and refuse to pay, in whole or in part, any claim on the ground that it is fraudulent or unlawful and in that case he shall file a written statement of his reasons for the refusal.

SECT. 24. Whenever, in response to an advertisement by any officer or board of the city or county, a bid for a contract to do work or furnish materials is sent or delivered to said officer or board, a duplicate of the same shall be furnished by the bidder to the auditor, to be kept by him and not opened until after the original bids are opened. After the original bids are opened, the auditor shall open and examine the bids submitted to him, and shall compare the same with the original bids. In case any of the bids submitted to the auditor differ from the corresponding original bids, those submitted to the auditor shall be treated as the original bids. The contract shall not be awarded until after both sets of bids are opened.

SECT. 25. The auditor shall furnish monthly to each head of department a statement of the unexpended balance of the appropriation for that department, and he shall furnish to the mayor and city council a statement of the unexpended balances of all the departments. He shall furnish quarterly to the city council an itemized statement showing the amount of money expended by the mayor and the city council for contingent expenses.

#### MISCELLANEOUS PROVISIONS.

SECT. 26.\* All loans issued by the city after the passage of this act shall be made payable in annual instalments in the manner authorized by section thirteen of chapter twenty-seven of the Revised Laws as amended by section one of chapter three hundred and forty-one of the acts of the year nineteen hundred and eight. No sinking fund shall be established for said loan. All bonds shall be offered for sale in such a manner that the premiums, if any are received, shall be applied in accordance with the provisions of chapter three hundred and seventy-nine of the acts of the

---

\* Sect. 26 as amended by Chap. 437, Acts of 1910, and Chap. 165, Acts of 1911.

year nineteen hundred and ten. No city or county money shall be deposited in any bank or trust company of which any member of the board of sinking fund commissioners of said city is an officer, director, or agent. Nothing herein shall apply to transit bonds of the city of Boston issued under the provisions of the several acts authorizing the construction of tunnels and subways in said city by the Boston Transit Commission, and said bonds may be issued as heretofore and secured by sinking fund.

SECT. 27.\* Every officer and board in charge of a department of the city of Boston or county of Suffolk shall, on or before the sixth day of January, in the year nineteen hundred and thirty-nine and on or before the sixth day of January in each year thereafter, prepare and furnish to the city auditor a list of the officials and employees under said officer or board and paid by the city or county on the first day of such January; and every such officer and board shall, on or before the sixth day of June, in each of the years nineteen hundred and thirty-eight to nineteen hundred and forty-three, inclusive, prepare and furnish to the city auditor a list of such officials and employees paid by the city or county on the first day of such June. Such lists shall give the names, residence by street and ward, designation, compensation, and date of election or appointment of each of said officials and employees and the date when each first entered the employ of the city or county. It shall be the duty of the city auditor to verify said lists by the pay rolls and to keep a copy of said lists open for public inspection, and to prepare and publish in the *City Record*, in the year nineteen hundred and thirty-nine and annually thereafter, a comparative table containing the number of such officials and employees holding office or employed in each such department or board and paid by the city or county on the first day of January in each of the ten years next preceding such publication; and, in addition, in each of the years nineteen hundred and thirty-eight to nineteen hundred and forty-three, inclusive, he shall prepare and publish in the *City Record*, a comparative table showing the number of such officials and employees holding office or employed in each such department or board and paid by the city or county on the first day of June in each of the ten years next preceding such publication. Each such comparative table of the number of such officials and employees paid by the city or county on the first day of January, in any year, shall be so published not later than during the first week in the month of March next following; and each such comparative table of the number of such officials and employees paid by the city or county on the first day of June, in each of the years nineteen hundred and thirty-eight to nineteen hundred and forty-three, inclusive, shall be so published not later than during the first week in the month of August next following.

SECT. 28. The jurisdiction now exercised by the board of aldermen concerning the naming of streets, the planting and removal of trees in the

public ways, the issue of permits or licenses for coasting, the storage of gasoline, oil, and other inflammable substances or explosive compounds and the use of the public ways for any permanent or temporary obstruction or projection in, under, or over the same, including the location of conduits, poles, and posts for telephone, telegraph, street railway, or illuminating purposes, is hereby vested in the board of street commissioners, to be exercised by said board with the approval in writing of the mayor; and the mayor and city council shall have authority to fix by ordinance the terms by way of cash payment, rent, or otherwise, upon which permits or licenses for the storage of gasoline or oil, or other inflammable substances or explosive compounds, and the construction or use of coal holes, vaults, bay windows, and marquises, in, under, or over the public ways shall be issued.

SECT. 29.\* Within ninety days after the passage of this act and thereafter there shall be published at least once a week and distributed and sold under the direction of the mayor and on terms to be fixed by the city council and approved by the mayor a paper to be known as the *City Record*. All advertising with reference to the sale of property for nonpayment of taxes shall appear exclusively in the *City Record*. All other advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials or supplies, and the sale of bonds, shall appear in said paper, and in such newspaper or newspapers as the mayor, in his discretion, may order; a list of all contracts of one thousand dollars or more, as awarded, with the names of bidders, and the amount of the bids; appointments by the mayor; and changes in the number and compensation of employees in each department, shall be published in the *City Record*. Failure to publish in such newspaper or newspapers as the mayor may order shall not invalidate any purchase, contract or sale made or action taken by the city. The proceedings of the city council and school committee together with all communications from the mayor, shall be published in the *City Record*.

SECT. 30.† Every officer or board in charge of a department in said city and every officer, board or official of the county of Suffolk having power to incur obligations on behalf of said county in cases where said obligations are to be paid for wholly from the treasury of said city, when authorized to erect a new building or to make structural changes in an existing building, shall make contracts therefor, not exceeding five, each contract to be subject to the approval of the mayor; and when about to do any work or to make any purchase, the estimated cost of which alone, or in conjunction with other similar work or purchase which might properly be included in the same contract, amounts to or exceeds one thousand dollars, shall, unless the mayor gives written authority to do otherwise, invite proposals therefor by advertisements in the *City Record*. Such advertisements shall state the time and place for opening the proposals in answer to said advertisement, and shall reserve the right to the officer, board or

official to reject any or all proposals. No authority to dispense with advertising shall be given by the mayor unless the said officer, board or official furnishes him with a signed statement which shall be published in the *City Record* giving in detail the reasons for not inviting bids by advertisement.

SECT. 31. At the request of any department, and with the approval of the mayor, the board of street commissioners, in the name of the city, may take in fee for any municipal purpose, any land within the limits of the city, not already appropriated to public use. Whenever the price proposed to be paid for a lot of land for any municipal purpose is more than twenty-five per cent higher than its average assessed valuation during the previous three years, said land shall not be taken by purchase but shall be taken by right of eminent domain and paid for in the manner provided for the taking of and the payment of damages for land for highways in said city. No land shall be taken until an appropriation by loan or otherwise for the general purpose for which land is needed shall have been made by the mayor and city council by a two thirds vote of all its members; or in case of land for school purposes by the school committee and schoolhouse department in accordance with law; nor shall a price be paid in excess of the appropriation, unless a larger sum is awarded by a court of competent jurisdiction. All proceedings in the taking of land shall be under the advice of the law department, and a record thereof shall be kept by said department.

SECT. 32.\* Beginning in the year nineteen hundred and twenty-five, the municipal election in said city shall take place biennially in every odd numbered year on the Tuesday after the first Monday in November.

SECT. 33.† The fiscal year in said city shall begin on January first and shall end on December thirty-first next following; and the municipal year shall begin on the first Monday in January and shall continue until the first Monday of the January next following. At the biennial municipal election in the year nineteen hundred and twenty-five, the five members of the school committee shall be elected. The two candidates receiving the largest number of votes at said election shall hold office for four years, and the three receiving the next largest number of votes at said election, for two years. At every biennial municipal election thereafter, all members of the school committee to be elected shall be chosen for terms of four years each. The terms of all members of the school committee shall begin with the first Monday of January following their election and continue until their successors are chosen and qualified. The members of the school committee shall meet and organize on the first Monday of January following their election.

SECT. 34. In Boston, beginning with the current year, political committees shall be elected at the state primaries instead of at the municipal primaries.

SECT. 45.† Beginning with the biennial municipal election in the year nineteen hundred and twenty-five, the mayor of the city of Boston shall be elected at large to hold office for the term of four years from the first Monday in January following his election and until his successor is chosen and qualified.

SECT. 46. Providing for recall of mayor repealed by Special Acts 1918, Chap. 94.

SECT. 47.‡ If a vacancy occurs in the office of mayor within two months prior to a regular municipal election other than an election for mayor, or within sixteen months after any regular municipal election, the city council shall forthwith order a special election of mayor to serve for the unexpired term, and if such vacancy occurs at any other time there shall be an election for mayor at the next regular municipal election for the term of four years; provided, that the foregoing provisions shall not apply if such vacancy occurs between the date of an election at which a new mayor is elected and the date he takes office. In the case of the decease, inability, absence, or resignation of the mayor, and whenever there is a vacancy in the office from any cause, the president of the city council, while said cause continues or until a mayor is elected, shall perform the duties of mayor. If he is also absent or unable from any cause to perform such duties they shall be performed, until the mayor or president of the city council returns or is able to attend to said duties by such member of the city council as that body may elect, and until such election by the city clerk. The person upon whom such duties shall devolve shall be called "acting mayor" and he shall possess the powers of mayor only in matters not admitting of delay, but shall have no power to make permanent appointments except on the decease of the mayor.

*Sections 8, 9, and 13 of Chap. 479, Acts of 1924.*

SECT. 8. At the biennial state election in nineteen hundred and twenty-four, the registered voters of the city of Boston shall be entitled to vote upon the following plans of city council, which shall be printed upon the official ballot in the following form. Each voter shall make a cross in the space at the right of the plan which he desires to have adopted. No ballot shall be counted upon which the voter has made a cross in each such space.

*Plan No. 1.* A city council of fifteen members to consist of three members to be elected for two year terms by and from the voters of each of five boroughs (each comprising certain specified wards) at a salary of fifteen hundred dollars each, nominated as heretofore, except that the names of five hundred voters only shall be required to nominate each member.

\* \* \* \* \* Sections 35 to 44, inclusive, are omitted because now inoperative.

† Sect. 45 as amended by Chap. 94, Special Acts of 1918; Chap. 479, Acts of 1924, and Chap. 300, Acts of 1938, which was accepted by the voters at the municipal election November 7, 1939.

‡ Sect. 47 as amended by Chap. 730, Acts of 1914, Sects. 2 and 3, and Chap. 479, Acts of 1924. See Chaps. 4 and 8, Acts of 1945.

*Plan No. 2.* A city council to consist of one member to be elected for a two year term by and from the voters of each ward at a salary of fifteen hundred dollars each, nominated as heretofore, except that the names of one hundred voters only shall be required to nominate each member.

SECT. 9. If a majority of the votes cast under the provisions of the preceding section are in favor of the first plan, then sections ten to twelve, inclusive, shall take effect subject to section twenty-one, and sections fourteen to sixteen, inclusive, shall be inoperative.

\* \* \* \* \*

SECT. 13.† If a majority of the votes cast under the provisions of section eight are in favor of the second or alternative plan, then sections fourteen to sixteen, inclusive, shall take effect subject to section twenty-one, and sections ten to twelve, inclusive, shall be inoperative.

SECT. 48.‡ Beginning with the biennial municipal election in the year nineteen hundred and twenty-five there shall be elected at each regular municipal election by and from the registered voters of each ward one councillor to serve for two years from the first Monday in January following his election and until his successor is elected and qualified.

SECT. 49.§ Each member of the city council shall be paid an annual salary of two thousand dollars; and no other sum shall be paid from the city treasury for or on account of any personal expenses directly or indirectly incurred by or in behalf of any member of said council.

SECT. 50.|| The city council shall be the judge of the election and qualifications of its members; shall elect from its members by vote of a majority of all the members a president who when present shall preside at the meetings thereof; shall from time to time establish rules for its proceedings, and shall, when a vacancy occurs in the office of any member during the first eighteen months of his term, order a special election in his ward to fill such vacancy for the unexpired term. The member eldest in years shall preside until the president is chosen, and in case of the absence of the president, until a presiding officer is chosen.

SECT. 51. All elections by the city council under any provision of law shall be made by a *viva voce* vote, each member who is present answering to his name when it is called by the clerk or other proper officer, and stating the name of the person for whom he votes, or declining to vote as the case may be, and the clerk or other proper officer shall record every such vote. No such election shall be valid unless it is made as aforesaid.

SECT. 52. No primary election or caucus for municipal offices shall be held hereafter in the city of Boston, and all laws relating to primary elections and caucuses for such offices in said city are hereby repealed.

SECT. 53.\* Any registered voter who is qualified to vote for a candidate for any municipal elective office in such city may be a candidate for nomination thereto, and his name as such candidate shall be printed on the official ballot to be used at the municipal election; provided, that at or before five o'clock P. M. of the eighth Tuesday prior to such election nomination papers, prepared and issued by the election commissioners, signed in person for the nomination for mayor by at least three thousand registered voters in said city qualified to vote for such candidate at said election, signed in person for the nomination for school committee by at least two thousand registered voters in said city qualified to vote for such candidate at said election, and signed in person for the nomination for city councillor by at least three hundred registered voters in the ward, for which said nomination is sought, qualified to vote for such candidate at said election, shall be filed with said election commissioners and the signatures on the same to the number required to make the nomination subsequently certified by the election commissioners as hereinafter provided. Said nomination papers shall be in substantially the following form:

elected thereto and no more. Nomination papers shall be issued by the board of election commissioners on and after but not before the eleventh Tuesday preceding the regular municipal election. Such papers shall be issued only to candidates who shall file with the election commissioners requests therefor in writing, containing their names with the first or middle name in full, the offices for which they are candidates, and their residences, with street and number, if any. Forthwith the election commissioners shall print or insert on such nomination papers the names of the candidates, the offices for which they are nominated and their residences, with street and number, if any. Not more than three hundred such nomination papers shall be issued to any candidate for mayor, and not more than two hundred such nomination papers shall be issued to any candidate for the school committee and to any candidate for the city council there shall be issued not more than ten such nomination papers for a ward. No nomination papers except those issued in accordance with the provisions of this section shall be received or be valid.

SECT. 55.\* Women who are qualified to vote may be nominated and sign nomination papers for candidates for office in the manner and under the same provisions of law as men.

SECT. 56.† The names of candidates appearing on nomination papers shall, when filed, be a matter of public record; but the nomination papers shall not be open to public inspection until after certification. After such nomination papers have been filed, the election commissioners shall certify thereon the number of signatures which are the names of registered voters in the city qualified to sign the same. They shall not certify a greater number of names than are required to make a nomination, with one-tenth of such number added thereto. All such papers found not to contain a number of names so certified equivalent to the number required to make a nomination shall be invalid. The election commissioners shall complete such certification on or before five o'clock P. M. on the thirty-fourth day preceding the city election. Such certification shall not preclude any voter from filing objections as to the validity of the nomination. All withdrawals and objections to such nominations shall be filed with the election commissioners on or before five o'clock P. M. on the twenty-eighth day preceding the city election. All substitutions to fill vacancies caused by withdrawal or ineligibility shall be filed with the election commissioners on or before five o'clock P.M. on the twenty-seventh day preceding the city election.

SECT. 57. The name of each person who is nominated in compliance with law together with his residence and the title and term of the office for which he is a candidate shall be printed on the official ballots at the municipal election and the names of no other candidates shall be printed thereon. SECT. 58.\* No ballots used at any biennial or special municipal election shall have printed thereon any party or political designation or mark, and there shall not be appended to the name of any candidate any such party or political designation or mark, or anything showing how he was nominated or indicating his views or opinions.

SECT. 59.† On ballots to be used at biennial or special municipal elections, blank spaces shall be left at the end of each list of candidates for the different offices, equal to the number to be elected thereto, in which the voter may insert the name of any person not printed on the ballot for whom he desires to vote for such office.

SECT. 60. All laws not inconsistent with the provisions of this act, governing nomination papers and nominations for, and elections of municipal officers in the city of Boston, shall so far as they may be applicable, govern the nomination papers, nominations and elections provided for in this act. The board of election commissioners shall be subject to the same penalties and shall have the same powers and duties, where not inconsistent with the provisions of this act, in relation to nomination papers, preparing and printing ballots, preparing for and conducting elections and counting, tabulating and determining the votes cast under the provisions of this act, as they have now in relation to municipal elections in said city.

SECT. 61. The provisions of this act shall apply to any special municipal election held after the year nineteen hundred and nine in the city of Boston, except that nomination papers for offices to be filled at such elections shall be issued by the election commissioners on and after the day following the calling of said special election. Every special municipal election shall be held on a Tuesday not less than sixty days nor more than ninety days after the date of the order calling such special election.

SECT. 62. All acts and parts of acts, so far as inconsistent with this act, are hereby repealed; and all ordinances and parts of ordinances, so far as inconsistent with this act, are hereby annulled. All acts and parts of acts affecting the city of Boston, not inconsistent with the provisions of this act, are hereby continued in force.

## COMMISSIONERS.\*

DANIEL SARGENT, named by the Trustees of the Public Library. Term ends in 1946.

MARY EVANGELINE WALKER, named by Boston Art Club. Term ends in 1947.

WILLIAM EMERSON, named by Trustees of Museum of Fine Arts. Term ends in 1948.

ROBERT P. BELLOWS, named by the Massachusetts Institute of Technology. Term ends in 1949.

GEORGE H. EDGELL, named by the Boston Society of Architects. Term ends in 1950.

The Art Department, established in 1898, is in charge of five commissioners, who are appointed by the Mayor. Each year one of the following-named bodies, namely, the Trustees of the Museum of Fine Arts, the Trustees of the Boston Public Library, the Trustees of the Massachusetts Institute of Technology, the Boston Art Club, and the Boston Society of Architects, submits a list of three persons to the Mayor; and the Mayor appoints one person as Art Commissioner from each of the lists so submitted. Whenever the term of a member of the Board expires, the Mayor appoints his successor from a list selected by the body which made the original selection, as aforesaid.

No work of art can become the property of the City of Boston without the approval of the Art Department, which may also be requested by the Mayor or the City Council to pass upon the design of any municipal building, bridge, approach, lamp, ornamental gate or fence, or other structure to be erected upon land belonging to the City. No work of art, the property of the City of Boston, shall be removed except by order of the Art Commissioners and with the approval of the Mayor. Moreover, all contracts or orders for the execution of any painting, monument, statue, bust, bas-relief, or other sculpture for the City shall be made by said Board, acting by a majority of its members, subject to the approval of the Mayor. By Chap. 87, Special Acts of 1919, all works of art owned by the City were placed in the custody and care of the Art Commissioners.

CHARLES J. FOX, *City Auditor*.

DANIEL J. FALVEY, *Deputy City Auditor*.

The office of Auditor was established by ordinance on August 2, 1824. Under provisions of Chapter 414 of the Acts of 1941, the office of City Auditor was placed under Civil Service on November 2, 1943, by a referendum vote of 60,139 to 12,409.

The office of Deputy City Auditor was established by ordinance on July 11, 1934.

Regular annual reports of receipts and expenditures have been published by the Auditor since 1825. Less complete reports were published by finance committees from 1811 to 1824, inclusive. Since June 1, 1867, the Auditor has published monthly exhibits of all City, School, and County expenditures.

The City Auditor is also Auditor of the County of Suffolk, Secretary of the Board of Commissioners of Sinking Funds, and a member of the Board of Trustees of the George Robert White Fund. (Rev. Ord. 1925, Chaps. 3, 6.)

The Act establishing the commission became effective April 30, 1929, after approval by the Governor and acceptance by the Mayor and City Council. The commissioner is appointed by the Mayor, to serve four years and until the qualification of his successor, receives compensation established by the Mayor and City Council, and may be removed by the Mayor. The associate commissioners receive no compensation.

The commissioners may employ, subject to the approval of the Mayor and to chapter thirty-one of the General Laws, engineers, experts, assistants and other officers and employees. The commission has exclusive authority to adopt, amend, alter and repeal rules and regulations relative to vehicular street traffic, and to the movement, stopping or standing of vehicles on, and their exclusion from, all or any streets, ways, highways, roads and parkways, under the control of the city. The commission has the power to erect, make and maintain, or cause to be erected, made and maintained, traffic signs, signals, markings and other devices for the control of such traffic in the city and for informing and warning the public as to the rules and regulations adopted by the commission.

The latest revision of the Traffic Regulations contains 399 one-way streets and 523 no-parking streets. The commission maintains 163 traffic signals, including two (2) interconnected systems in down-town Boston, 9,000 traffic signs and 93 traffic officers' spotlights. One hundred and twenty (120) miles of white lines painted in the roadway, including crosswalks, center lines, lane lines and stop lines, are maintained by the commission. Eight hundred and fifty (850) loading zones, requiring 18,000 feet of painted curb, are maintained. Fees amounting to \$9,000 are collected for the establishment and maintenance of these loading zones.

## BUDGET DEPARTMENT.

Offices, 44 City Hall, third floor.

[Ord. 1917, Chap. 3; Ord. 1921, Chap. 4; Ord. 1927, Chap. 3; Stat. 1930, Chap. 400; Stat. 1931, Chap. 301; Stat. 1941, Chaps. 447, 604.]

HERMAN L. BUSH, *Budget Commissioner*. Term ends April 30, 1946.

JOHN A. SULLIVAN, *Technical Assistant*.

The Budget Department was established by ordinance in 1917. It was established as a result of the report and recommendations of a commission which had been appointed "to investigate and report upon 'the expediency of adopting a segregated form of budget for the departments for which the city makes appropriations from taxes or revenues' including the departments under the control of the mayor, the school committee and the schoolhouse department, the county departments, and the departments in charge of officials appointed by the governor." That commission was appointed pursuant to an order passed by the City Council on June 7, 1915, and approved by the Mayor on June 8, 1915. Its report was made under date of October 1, 1915.

When the Budget Department was established it was placed in charge of the Budget Commissioner. General supervision over all matters relating or incidental to the appropriations and budgets of all municipal departments, with the exception of a very few departments not directly under the control of the Mayor, was placed in the jurisdiction of the Budget Commissioner.

The Budget Commissioner, under the direction of the Mayor, prepares in segregated form the annual and all supplementary budgets to be submitted by the Mayor to the City Council. The Commissioner also prepares annually forms of estimate sheets to be used by each officer, board, commission and department, and each division of a department, for which the city appropriates money. He also prepares the form of monthly report of such officer, board, commission and department, and each division thereof, showing expenditures to date of all appropriations by item. The Budget Commissioner also reports to the Mayor on all subsequent revisions of the items in the budget.

Each department head annually on or before November first submits to the Budget Commissioner departmental budget estimates on sheets furnished by the Budget Department. The Budget Commissioner investigates and considers all such estimates in detail and confers with the several department heads concerning their estimated requirements. The Budget Commissioner thereafter establishes tentative budget allowances to each department and submits such tentative budget allowances to the Mayor, with such recommendations as the Budget Commissioner deems advisable. The Mayor, after conference with the Budget Commissioner and the several department heads, concerning the department estimates, the tentative allowances, and the recommendations of the Budget Commissioner, makes final decisions on all budget allowances. The entire and formal budget is prepared by the Budget Commissioner in accordance with

those decisions of the Mayor. The budget in its entirety is then submitted by the Mayor to the City Council with an appropriate explanatory message, which recommends the adoption of the budget by that body.

The City Council refers the budget to its committee on appropriations. The appropriations committee holds public hearings on the individual items of each department budget. It hears the several department heads on the details of their department budgets. The Budget Commissioner attends the hearings of the appropriations committee prepared to furnish such information and give such assistance as may be requested by the committee or the department heads.

On the completion of the hearings of the appropriations committee, that committee reports to the entire Council on the proposed budget. Thereupon the City Council acts on that report and the recommendations of its committee on appropriations. The City Council may by law decrease any item in the budget submitted to it by the Mayor, but is without power to increase any item in it. Upon the adoption of the budget by the City Council and its approval by the Mayor, the appropriations contained in the budget are established for the fiscal year ending on the December thirty-first next following its adoption and approval, which the statutes now require shall be not later than the first Monday in April.

On occasions it becomes necessary during the fiscal year to transfer funds from one item to another in the budgets of the several departments. When such a transfer is deemed advisable or necessary by a department head, the department head makes a written request of the Budget Commissioner for such transfer. After consideration of such requests, the Budget Commissioner refers them to the Mayor for submission to the Council for its action. The transfers become operative only when they are adopted by the Council and approved by the Mayor.

In compliance with the provisions of Chapter 400 of the Acts of 1930, "Compensation and Classification Plans for the Officers and Employees of Suffolk County" were adopted by the City Council on April 13, 1931, and approved by the Mayor on April 15, 1931. By virtue of that statute and those "plans" and their respective amendments, the Budget Commissioner is empowered to pass upon all promotions, transfers, new appointments, and the compensation of the personnel of Suffolk County. These "plans" establish the Budget Commissioner as the Personnel Director of Suffolk County. The records required to comply with the provisions of these plans are compiled by and maintained in the Budget Department under the supervision of the Budget Commissioner. These records include, among others, an official roster of each officer and employee in the service of Suffolk County, their classification title, rate of pay, a record of each change of their status, and such other relevant information as the Budget Commissioner deems advisable for the maintenance of a proper record of the personnel of Suffolk County.

In addition to the records of the county personnel, there is also kept in the Budget Department a complete alphabetical index of the permanent personnel of the City of Boston, likewise compiled and maintained under the supervision of the Budget Commissioner.

 BUILDING CODE FOR THE CITY OF BOSTON.

Chapter 550, Acts of the year 1907, as amended, ceased to exist as such on May 15, 1943 (with the exception of Section 138, "Powers of the Boston Board of Health").

On the same date, May 15, 1943, Chapter 479 of the year 1938, as amended, became the Building Code for the City of Boston. This Code is now subject to amendment by the Boston City Council, who have exercised this new prerogative and have published many essential changes.

On June 14, 1945, his Honor the Mayor approved certain amendments to the New Building Code, which provides for better supervision and control of carnivals and like activities, insofar as places of assembly are concerned.

## ZONING REGULATIONS.

Nineteen sections of the zoning regulations have been changed in whole or in part; many of the changes have increased the so-called "protection" to property owners in several of the residential districts.

## THE NEW CODE.

Six different types of construction are provided for in the new code, classified according to use or occupancy.

Egress and fire protection are given special attention.

Chapters 544 and 546 of the Statutes of 1943 amend Chapter 143 of the General Laws; this has caused a tremendous increase in the duties of the Egress Division.

## BOARD OF EXAMINERS.

## THE BOARD.

J. FREDERICK McNEIL. Term ends in 1946.

HARRY J. GREENBLATT. Term ends in 1947.

JOHN GUARINO. Term ends in 1948.

The Board of Examiners was established in 1912 as an adjunct to the Building Department, to consist of three members, appointed by the Mayor. The Board shall consist of an engineer or architect with at least five years' experience in the City of Boston, a contractor or person well qualified in the supervision of construction work with at least five years' experience in the City of Boston, and a lawyer or other person with proper legal qualifications. Said Board shall exercise the powers and perform the duty as set forth in the building code. Each examiner is to receive ten dollars for every day or part thereof of actual service, but not more than \$1,200 is to be paid the Chairman, or more than \$1,000 each to the other members.

The fees to be paid to the Board are: for new license, \$5; for each annual renewal, \$2; for special license, \$1.

WILLIAM A. MOTLEY, JR. Term ends in 1948.

EVERETT R. PROUT. Term ends in 1949.

One Election Commissioner is appointed by the Mayor each year, term beginning April 1. The two leading political parties must be equally represented on the Board and the Chairman is designated annually by the Mayor.

The Board of Registrars of Voters was appointed in May, 1874, and was succeeded July 1, 1895, by the Board of Election Commissioners.

This department exercises all the powers and duties formerly conferred upon the Board of Registrars of Voters (including the preparation of the jury list), except the power and duty of giving notice of elections and fixing the days and hours for holding the same.

The Board also exercises all the powers and duties formerly conferred upon the City Clerk and other officers by chapter 504 of the Acts of 1894. The voting precincts in the 22 wards number 395.

## POLICE LISTING BOARD.

Chapter 287 of the Acts of 1938 provides: "In Boston there shall be a listing board composed of the police commissioner of the city and the board of election commissioners. In case of disagreement between the members of the listing board, the chief justice of the municipal court of the city of Boston, or, in case of his disability, the senior justice of said court who is not disabled, shall, for the purpose of settling such disagreement, be a member of said listing board and shall preside and cast the deciding vote in case of a tie."

The duties of said board are further provided for in Sections 8, 10, 11, 12, 13, 14, 15, 16 of Chapter 29 of the Acts of 1917; and all other acts in amendment and addition thereto.

The first Board of Health in Boston was established in 1799, under the special statute of February 13, 1799. It was abolished by the first City Charter and from 1822 to 1873 its functions were exercised through the City Council. The last Board of Health was established by an ordinance of December 2, 1872. It published annual reports, beginning with 1873. By Chap. 1, Ord. 1914, 2d Series, the department was placed in charge of one executive, the Health Commissioner, who appoints the deputy commissioners. Chap. 1, Ord. 1915, provided that the quarantine service should pass from the control of the Health Department when the property was leased to the United States, in effect June 1, 1915.

On March 31, 1927, an Ordinance was enacted abolishing the Boston Sanatorium Department and placing the Tuberculosis Hospital at Mattapan under the jurisdiction of the Trustees of the Boston City Hospital; all other powers and duties, as well as the Out-Patient Department, were transferred to the Health Commissioner by Chap. 1 of the Ordinances of 1927, as amended Feb. 16, 1931.

The department has charge of the Long Island Hospital, the Child Welfare and the Registration Divisions.

The Long Island Hospital furnishes full support to poor persons having a legal settlement in Boston, also hospital care and treatment for those afflicted with chronic illness. January 1, 1945, there were 942 in the care of the institution, of whom 464 were in the hospital. The department controls about 167 acres and buildings on Long Island, valued at about \$3,540,000. The steamer "Stephen J. O'Meara" is maintained for transportation service.

The Child Welfare Division, 808 City Hall Annex, has charge of dependent children and those committed through the Court as neglected. They are placed under careful supervision in foster homes within the Commonwealth of Massachusetts. January 1, 1945, the division had 1,343 children in its care, was using 12 different institutions for medical care or special training, and 617 foster homes.

The Registration Division, Room 5, City Hall, receives and investigates applications for care of dependents, determines legal settlements, and supervises the commitment of the insane.

The department has under its control Rainsford Island, comprising about 11 acres.

The Trustees of the Public Library of the City of Boston, five in number, are appointed by the Mayor, one each year, for a term of five years. They were incorporated in 1878, and authorized to receive and hold real and personal estate to an amount not exceeding \$1,000,000. This amount was changed to \$10,000,000 in 1919 and to \$20,000,000 in 1931. The first Trustees were appointed under an ordinance of October 14, 1852.

The old library building on Boylston street was opened to the public in September, 1858, and closed finally in January, 1895. The Central Library Building in Copley Square, costing \$2,756,384, was first opened on March 11, 1895.

The Library is maintained by an annual appropriation made to the Trustees by the City Government.

The annual reports, the first of which appeared in 1852, have been continued without interruption.

## THE LIBRARY SYSTEM.

The library system consists of the Central Library in Copley Square, the Business Branch in the Edward Kirstein Memorial Library Building at 20 City Hall Avenue, the School Issue Department at 126 Tyler street, and thirty Branch Libraries. In addition, through an agreement with Harvard University, the Baker Library of the Harvard Graduate School of Business Administration is a branch of the Boston Public Library. By similar arrangement, the Boston Medical Library at 8 Fenway serves as a medical branch.

---

\* The Trustees serve without compensation.

The component parts of the library system are the following:

- General Administrative Offices.
- The Circulation Division.
- The Reference Division.
- The Division of Business Operations.

#### GENERAL ADMINISTRATIVE OFFICES.

The general administrative work of the Library is centered in the Director's Office. It is responsible for the general administration of the entire library system as a whole. It cares further for all activities that are not handled directly by the Circulation Division, the Reference Division, or the Division of Business Operations.

There is also supervised from the Director's Office the work of such subsidiary offices as the Personnel Office, the Training Office, the Information Office, the Records, Files, and Statistics Office, and the general publishing activities of the Library.

#### THE CIRCULATION DIVISION.

The greater part of the circulation of books to borrowers is centered in the Branch Libraries. The purely library activities of the Branch Libraries are therefore considered as a unit which is designated as the Circulation Division. Within this division there are closed departments and public departments. The main grouping of the public departments is that of the Branch Libraries. In direct relationship with the work of the Branch Libraries is the Work with Children.

The *closed departments* are:

1. Cataloging and Classification Department.
2. Book Selection Department.
3. Book Preparation Department.
4. Registration Department.
5. Branch Issue Department.
6. School Issue Department.

These departments are concerned with the selection of library materials and with the preparation of these materials for use by the public.

The *public departments* are the Open Shelf Department and the Young People's Room in the Central Library, and the 30 Branch Libraries:

#### *City Proper:*

- North End, 3A North Bennet street.
- South End, 65 West Brookline street.
- West End, 131 Cambridge street.

#### *Brighton:*

- Allston, 161 Harvard avenue.
- Brighton, 40 Academy Hill road.
- Faneuil, 419 Faneuil street.

 South Boston, 372 West Broadway.  
 Washington Village, 290 Old Colony avenue.

*West Roxbury:*

Roslindale, 4220 Washington street.  
 West Roxbury, 1961 Centre street.

## THE REFERENCE DIVISION.

The more important part of the reference work of the library system as a whole is carried on in the Central Library. The purely library activities of the Central Library are therefore considered as a unit which is designated as the Reference Division. Within this division there are closed departments and public departments.

The *closed departments* are:

1. Cataloging and Classification Department.
2. Book Selection Department.

These departments are concerned with the selection of library materials and with the preparation of those materials for use by the public.

The *public departments* are:

1. General Reference Department (the Main Reading Room).
2. Periodical and Newspaper Department.
3. Statistical Department (the Government Documents Department).

4. Business Branch.
5. Teachers' Department (the Education Department).
6. Science and Technology Department.
7. History Department.
8. Fine Arts Department.
9. Music Department.
10. Social Sciences Department (proposed).
11. Literature and Languages Department (proposed).
12. Philosophy — Psychology — Religion Department (proposed).

In addition to the above public departments there is also a Print Department and a Rare Book Department. The general nature of all of these public departments is indicated by the names which they bear.

The general book stack is under the supervision of a department known as the Book Stack Service.

#### THE DIVISION OF BUSINESS OPERATIONS.

All of those aspects of the Library's activities that are not of a purely library nature, and are not provided for otherwise, are considered as a unit constituting the Division of Business Operations.

The *departments constituting the division* are:

1. Accounting Department.
2. Stock Purchasing Department.
3. Book Purchasing Department.
4. Printing Department.
5. Binding Department.
6. Shipping Department.
7. Buildings Department.

The general nature of the work of these departments is indicated by the names which they bear.

#### SPECIAL ACTIVITIES.

In addition to the regular activities of the various departments, the Library carries on programs of free lectures and concerts which are given in its lecture hall several times each week from October through April each year. Exhibits in the Treasure Room, and in the Chavannes, Sargent and Wiggin Galleries in the Central Library Building afford opportunities for emphasizing the Library's valuable resources. Storytelling in the Young People's Room and in many branch libraries by trained storytellers is a part of the Library's program of work with children. Two publications are distributed free throughout the system: *More Books*, issued monthly except in July and August, and *Books Current*, issued five times a year.

 PRINTING DEPARTMENT.

Office and Printing Plant, 174 North street.

[Rev. Ord. 1898, Chap. 31; Ord. 1911, Chap. 2; Ord. 1914, Chap. 6; Rev. Ord. 1914, Chap. 26; Ord. 1920, Chap. 9; Rev. Ord. 1925, Chap. 24.]

JOHN J. TWOMEY, *Superintendent of Printing*.

The printing plant was established March, 1897, for the express purpose of executing the printing required by all city and county departments. It was originally operated partly from an appropriation and partly from revenue. Since 1910, it has been entirely self-supporting and no appropriation of any kind has been made. The entire expense of maintenance including pay roll, has been met from revenue.

The plant is located at the corner of North and Richmond streets in a city-owned building for the exclusive use of the department. It is organized and equipped especially for the city's printing requirements and consists of modern type-setting machinery, presses and accessories. The building and plant is appraised at approximately \$600,000.

Chapter 24, Section 1, of the Revised Ordinances provides that the Superintendent of Printing "shall have charge of the printing plant and of all the printing of the city, shall supply all printing, binding, stationery and other office supplies, except furniture, used by any board, commission or department for which the City of Boston is required by law to furnish such supplies, and shall, wherever practicable, standardize all such printing, binding, stationery and other office supplies."

In addition to the above, the Superintendent purchases all postage used by the City of Boston.

PUBLIC BUILDINGS DEPARTMENT.

Office, 1005 City Hall Annex, tenth floor.

[Stat. 1895, Chap. 449, § 22; Rev. Ord. 1898, Chap. 32; Stat. 1913, Chap. 263; Rev. Ord. 1914, Chap. 27; Ord. 1921, Chap. 1; Ord. 1935, Chap. 3; Stat. 1938, Chap. 358; Stat. 1943, Chap. 78.]

PATRICK H. O'CONNOR, *Superintendent of Public Buildings*. Term ends April 30, 1949.

THOMAS F. KENNEDY, *Deputy Superintendent and Supervisor of Heating and Ventilating*.

THOMAS A. CALLAHAN, *Chief Clerk*.

The Office of the Superintendent of Public Buildings was established by ordinance on July 1, 1850, and annual reports have been published by the Superintendents since 1851. He has the supervision of the care, repair and furnishing of all buildings belonging to or hired by the City.

A list of the city buildings in charge of this department was published in the Municipal Register for 1932.

By Act of the Legislature of 1943, adopted by the City Council and approved by the Mayor, the Market Department, as such, was abolished and placed under the jurisdiction of the Public Buildings Department. The Superintendent of Markets was placed under provisions of Civil Service.

MARKET DIVISION.

Office in Rotunda of Faneuil Hall Market.

[Rev. Ord. 1898 (now Rev. Ord. 1914), Chap. 1, § 4, tenth to twelfth; Rev. Ord. 1914, Chap. 22; Chap. 40, §§ 29-34; Stat. 1895, Chap. 449, § 26; Ord. 1923, Chap. 6; Stat. 1943, Chap. 78.]

WILLIAM J. GALVIN, *Director of Markets*.

EDWARD J. McCORMACK, *Assistant Director of Markets*.

Faneuil Hall Market, proposed by Mayor Quincy and completed during his administration in 1826, was under the charge of a Clerk of the Market until an ordinance of September 9, 1852, established the office of Superintendent. Faneuil Hall Market includes the lower floor, porches and cellar of the buildings called respectively Faneuil Hall and Quincy Markets.

The Director of Markets may assign stands within their limits; and it is his duty, from time to time, to lease the stalls in the markets at

rents not less than those established by the City Council. The market police are appointed by the Police Commissioner and are under his control.

FLAG DAYS.

By order of the City Council it is the duty of the City Messenger to have the national colors displayed upon the public flagstuffs on the following days:

- January 17, Franklin's Birthday.
- February 12, Lincoln's Birthday.
- February 22, Washington's Birthday.
- March 17, Evacuation Day.
- April 19, Patriots' Day.
- April 27, Grant's Birthday.

\* The Overseers serve without compensation.

The Overseers of the Poor in the Town of Boston, a corporation established in 1772 by act of the Legislature, were succeeded in 1864 by the corporation called "Overseers of the Poor in the City of Boston," consisting of twelve residents of Boston, four of whom are appointed annually to serve for the term of three years from the first day of May. The Board has issued annual reports.

The Overseers of the Poor are also incorporated as a Board of Trustees of John Boylston's and other charitable funds. The total amount of the 18 permanent charity funds in the custody of the Overseers on December 31, 1943, was \$811,897.72, the annual income from which (\$28,509.18 in 1943) is distributed in accordance with the terms of the donations.

In charge of the Overseers are the Wayfarers' Lodge on Hawkins street, opened in 1878, which gives free lodging to homeless men who are out of employment, but exacts work in its woodyard for meals furnished, and the Temporary Home on Chardon street for temporarily destitute women and children, opened in 1870.

ROBERT P. CURLEY, *Commissioner*. Term ends in 1948.

JOHN J. CONNELLY, *Executive Secretary*.

The Public Works Department was established in 1911, consisting of the Street, Water and Engineering Departments combined under a single executive head, the Commissioner of Public Works, the latter authorized to create the necessary divisions of the department according to his judgment. The following divisions have been created, viz., Bridge and Ferry, Highway, Sewer, Sanitary, Water, each in charge of a Division Engineer.

The department is under the control of the Commissioner of Public Works, who must be a civil engineer of recognized standing in his profession. The Commissioner is in charge of the following activities: Construction and maintenance of all streets, sidewalks and sewers; granting of permits to open, occupy, obstruct and use portions of the streets and sidewalks; street lighting, both gas and electric; installation, maintenance and operation of all fixtures and appliances held by the City for its water supply; cleaning, oiling, and watering of streets, as well as snow removal from streets; collection and removal of ashes, garbage and refuse; installation and maintenance of street signs, and assignment of street numbers for houses, stores, etc.; construction, maintenance and operation of

City-owned bridges used as highways; and maintenance and operation of the Sumner Vehicular Tunnel and of the ferries connecting the City Proper and East Boston.

### BRIDGE AND FERRY DIVISION.

Office, 602 City Hall Annex.

JOHN DEMEULENAER, *Division Engineer.*

The Division Engineer has charge of the design, construction, operation and maintenance of the greater number of the highway bridges within the limits of the City, the care and management of the municipal ferries, the abolishment of grade crossings, the maintenance and operation of the Sumner Tunnel, also the special engineering work for other City departments. 6,449,934 motor vehicles passed through the Sumner Tunnel during the year 1944.

### HIGHWAY DIVISION.

Office, 501 City Hall Annex.

RUTHFORD J. KELLEY, *Acting Division Engineer.*

The Division Engineer has charge of the construction and maintenance of all public streets, the issuing of permits to open, occupy and obstruct portions of streets, the care and upkeep of the electric and gas lamps in the public streets, alleys, parks and public grounds, and the numbering of buildings and the placing of all street signs.

### STREET LAMPS IN USE DECEMBER 31, 1944.

### SANITARY DIVISION.

Office, 507 City Hall Annex.

ADOLPH J. POST, *Division Engineer.*

The Division Engineer has charge of the collection and removal of ashes, garbage and refuse, and the cleaning, oiling and flushing of streets.

Total expenditure for the year 1944 was \$3,093,460.32 for collection and disposal of the City's waste materials and the cleaning, oiling and flushing of streets.

## REMOVAL OF STORE REFUSE.

The removal of refuse from shops, stores and warehouses is attended to by the Sanitary Division and charged for at 11 cents a barrel or bundle (not larger than a flour barrel). No removals are made except on delivery of tickets obtainable at 507 City Hall Annex, or from authorized agents.

## SEWER DIVISION.

Office, 701 City Hall Annex.

ROBERT P. SHEA, *Division Engineer.*

The Division Engineer has charge of the maintenance and construction of all sewerage works.

The work of the Sewer Division is carried on by the following authority: [Stat. 1897, Chap. 426; Stat. 1899, Chap. 450; Stat. 1903, Chaps. 268, 383; Stat. 1907, Chaps. 464, 550; Stat. 1908, Chap. 204; Special Stat. 1918, Chap. 74; Rev. Ord. 1925, Chaps. 27, 39; Stat. 1930. Chaps. 178, 304; Stat. 1932, Chap. 224.

Assessments upon estates benefited by new sewers are not levied by the Public Works Department, but by the Board of Street Commissioners who also award damages for land-takings made for sewer construction: The assessment upon the several estates for a new sewer is limited to \$4 per linear foot, and it is a lien upon the property. An Act of the Legislature prohibits the assessment in similar cases of the cost of surface drains.

In the calendar year 1944, there were built by contractors and day labor 0.52 miles of sanitary sewers and surface drains, and 50 catch-basins, making on January 1, 1945, a total of 1,253.44 miles of common and intercepting sewers and 22,586 catch-basins in charge of the Sewer Division.

The Boston Main Drainage System, comprising 24.12 miles of intercepting sewers, with a pumping station at Old Harbor Point, and storage reservoirs and outlet into the harbor at Moon Island, in operation since 1884, takes care of the sewage from City Proper, South Boston, and parts of Roxbury, West Roxbury and Dorchester.

The common sewer system has two electrically-operated automatic pumping stations. The station at Union Park and Albany streets was built in 1915 to relieve floodings in the South End district of Boston, by pumping and discharging the surplus storm water flow into the South Bay.

The station at Summer street, opposite E street, was built in 1913, and takes care of the sewage from the Commonwealth Pier district, and the Army and Navy Bases.

Charlestown and East Boston sewage discharges into the main North Metropolitan System of the State, which discharges into the harbor waters just south of Deer Island.

Sewage from all of Brighton, a portion of the Back Bay and a small part of Roxbury, discharges into the South Metropolitan System, is lifted by pumping at the Ward street pumping station, then flows through the main sewer, which also drains by gravity portions of West Roxbury and Dorchester and all of Hyde Park, finally outletting into Quincy Bay at Nut Island.

## WATER DIVISION.

Office, 607 City Hall Annex.

DANIEL M. SULLIVAN, *Division Engineer.*

Under the control of the Division Engineer are the care and maintenance of all pipes and other fixtures and appliances for the purpose of the City's water supply, and all water assessments and other charges necessary for the maintenance of the Division.

The total length of supply and distributing water main on December 31, 1944, was 1,000.014 miles; number of fire hydrants, 12,242, including 505 high pressure, 387 private; number of meters now in service, 101,661.

The first water document published by the City of Boston appeared in 1825. In addition to the annual reports of the Cochituate supply, from 1850, and of the Mystic supply, from 1866, there are numerous special reports. By Chapter 449, Acts of 1895, the Boston Water Board, the Water Income Department and the Water Registrar were abolished and the Water Department created, a single commissioner being entrusted with all the powers previously exercised by the Boston Water Board and the Boston Water Registrar.

A State commission, the Metropolitan Water Board, took possession, in 1898, of all that part of the Boston water system lying westward of Chestnut Hill Reservoir, also the pumping station there, with adjacent lands. The sum paid to the City was \$12,531,000. Payments to the State by the City for its supply of water have been regularly made since 1898. Total available quantity of water in the nine storage reservoirs of the Metropolitan system on January 1, 1945, 36,423,300,000 gallons, of which about 70.28 per cent (25,599,800 gallons) was in the Wachusett Reservoir in Clinton, 32 miles west of Boston, an artificial lake, 4,135 acres in surface and area and added to the system in 1905. There are also thirteen distribution reservoirs with capacity of 2,500,000,000 gallons six pumping stations being connected with these, in which stations 26,696,926,963 gallons of water were pumped during the year 1944. In the existing Metropolitan Water District are nine cities besides Boston, and ten towns. Boston takes about 67 per cent of the entire water supply of the District.

The daily average amount of water used in Boston in 1944 was 109,622,600 gallons, or 142 gallons per capita.

## HIGH PRESSURE FIRE SERVICE.

By the provisions of Chapter 312, Acts of 1911, the Commissioner of Public Works was authorized to install an efficient system of high pressure fire service for the business center of the City. The work completed, including the old salt-water fireboat line installed in 1898, comprises 18.71 miles of pipe with 505 hydrants. Total expenditure for installation of system to December 31, 1944, was \$2,599,379.45. Two pumping stations are now in use.

## REGISTRY DEPARTMENT.

## BOARD OF STREET COMMISSIONERS.

JOHN A. DONOGHUE, <i>Chairman.</i>	Term ends in 1948.
WILLIAM F. HIGGINS.	Term ends in 1947.
EDWARD F. McLAUGHLIN.	Term ends in 1946.

CORNELIUS A. REARDON, *Secretary.*  
 THOMAS F. MCGOVERN, *Chief Engineer.*

The Board of Street Commissioners consists of three members, one of whom is elected by them to be Chairman. One member is appointed by the Mayor each year to serve for three years from the first Monday in January. The Board has jurisdiction over the laying-out, widening, relocation and discontinuance of highways; the taking of real property for municipal purposes; the levying of assessments for betterments resulting from the construction of streets or sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the issuance of licenses for the keeping, storage, manufacture and sale of gasoline, oil, and other inflammable substances or explosive compounds; and the use of public ways for any permanent or temporary obstruction or projection in, under, or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes; signs, marquees, bay windows, coal-holes and vaults. Incidental to its powers to take lands and construct streets, it has authority to award compensation to land owners for damages resulting from such taking and construction. In certain instances its awards and its grants of licenses or permits must bear the approval of the Mayor.

In 1895 the duties of the Board of Survey were transferred to the Board of Street Commissioners. In 1907 the Board of Street Commissioners was charged with the licensing of street stands for the storage or sale of merchandise. In 1909, by Section 28 of the City Charter (Acts of 1909, Chapter 486 and amendments thereto) the jurisdiction previously exercised by the Board of Aldermen concerning the naming of streets, the issue of permits or licenses for coasting, the storage of gasoline, oil and other inflammable substances or explosive compounds and the use of public ways for any permanent or temporary obstruction or projection in, under, or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, was vested in the Board of Street Commissioners, to be exercised with the approval in writing by the Mayor, and the Mayor and City Council were given authority to fix by ordinance the terms by way of cash payment, rent, or otherwise, upon which permits or licenses for the storage of gasoline or oil or inflammable substances or explosive compounds and the construction or use of coal-holes, vaults, bay windows, signs and marquees, in, under, or over the public ways shall be issued. The fees for licenses or permits to sell or store inflammables or explosives are collected by the Board of

Street Commissioners upon their original issuance of such licenses. Thereafter, an annual renewal fee for such licenses, which is one half of the original fee, is collected by the Fire Department. The fees for licenses or permits to maintain obstructions or projections in, under, or over the streets are collected by the Board of Street Commissioners.

In 1913 the Board of Street Commissioners was granted authority to issue permits for the erection of garages.

By virtue of Section 1 of Chapter 33 of the Revised Ordinances of 1925, the Board of Street Commissioners is charged with the care and maintenance of all land and buildings belonging to the city and not used for specific purposes.

In 1927, by authority of, and in conformity with, Section 8 of Chapter 85 of the General Laws (1921), the Board of Street Commissioners adopted "Rules and Regulations Relating to Projections in, on or over Public Highways," amending and revising all its pre-existing rules and regulations concerning such projections. The penalty for violation of these Regulations is a fine not exceeding five dollars for each day that the violation continues, after five days' notice given by the Board of Street Commissioners to the violator.

In 1930 (by Chapter 399 of the Acts of 1930) the jurisdiction of the Board of Street Commissioners as to the storage and sale of gasoline, oil and other inflammables or explosives was amplified and its jurisdiction extended to include the licensing and regulation of open-air parking spaces.

In 1908 the Board of Street Commissioners was charged with the regulation of pedestrian and vehicular traffic. In 1929 (by Chapter 263 of the Acts of 1929) jurisdiction over the regulation of traffic was transferred from the Board of Street Commissioners to the Boston Traffic Commission.

In 1929, also, the Board of Street Commissioners was granted authority (by Chapter 187 of the Acts of 1929) to license the holding of religious meetings, political meetings or rallies in public ways. That Act was, however, repealed by Chapter 173 of the Acts of 1931.

Under Chapter 148, Section 56, of the General Laws (Tercentenary Edition), the Board of Street Commissioners grants licenses for open-air parking spaces.

## SCHOOL PHYSICIANS AND SCHOOL NURSES.

Regular medical inspection of the schools was maintained from 1894 to 1915, under the supervision of the Health Department. Beginning September 1, 1915, the School Committee took charge of this service. For all schools and districts there is 1 Director of School Hygiene in charge of 4 supervising school physicians, 1 medical inspector, 1 school physician assigned to the certificating office, 1 ophthalmologist, 1 otologist, 44 school physicians, 1 supervisor of nutrition classes, 19 matrons, and 1 sanitary engineer.

Chapter 357, Acts of 1907, provided for the appointment by the School Committee of 1 supervising female nurse and as many district female nurses as are deemed necessary. For the 86 elementary and intermediate school districts there is 1 supervising nurse in charge of 4 assistant supervising nurses, 1 nurse assigned to the certificating office, and 60 school nurses.

## PHYSICAL EDUCATION.

In 1907, the School Committee was authorized to provide for the extension of physical education and recreation of pupils, including proper apparatus and facilities in the buildings, yards and playgrounds under their control.

The School Committee appropriates, out of the tax levy, for this branch of education such amount as it deems necessary. The Committee has also the right to appropriate the unexpended balance of the previous year, plus the estimated income for the current year. The appropriation for 1945 is \$458,920.91. The cost of Military Drill is not charged against the appropriation for Physical Education.

The Department of Physical Education comprises 1 director, 4 assistant directors, 1 supervisor-in-charge of playgrounds, 16 instructors of military drill, 2 armorers, 49 women and 2 men instructors of physical education, 15 teacher coaches of athletics, 30 assistant teacher coaches, 84 play teachers and 11 supervisors of playgrounds, assisting in the direction of approximately 500 playground teachers assigned for different seasons. The latter have charge of games, plays, dances, etc., in the 110 schoolyard playgrounds, 29 park playgrounds in use, and 14 special play areas.

## INDUSTRIAL SCHOOLS PARTLY MAINTAINED BY STATE.

By Chapter 471, Acts of 1911, and Chapter 106, Acts of 1912, the State especially encourages the establishing of Independent Industrial Schools, allowing financial aid for their maintenance proportionate to the amount raised by local taxation and expended for all public schools. Under this arrangement the School Committee is reimbursed by the State to the extent of one half the net maintenance cost of such industrial schools established in Boston thus far with the approval of the State Board of Education. By Chapter 805, Acts of 1913, Continuation Schools, for employed children between fourteen and sixteen years of age, were included under the same plan of State aid. The schools thus maintained are the Boston Trade High School (for Boys), day and evening classes, Trade High School for Girls, Compulsory Continuation School, Brandeis Vocational High School, High School of Practical Arts, also co-operative courses in Brighton, Charlestown, Dorchester High School for Boys, East Boston,

Hyde Park, Roxbury Memorial High School for Boys and South Boston High, day canning classes in the summer, and practical arts courses in the evening elementary schools.

For the agricultural course in the Jamaica Plain High School, the School Committee is reimbursed to the extent of two-thirds of the cost of instruction.

#### MANUAL ARTS.

The Training School for Teachers of Mechanic Arts, located in the Parkman Schoolhouse, Broadway, South Boston, is conducted under the direction of the Department of Manual Arts.

There are eight co-operative courses in high schools, as follows: Brighton (auto mechanics), Charlestown (electricity), Dorchester (woodwork), East Boston (machine shop practice), Hyde Park (machine shop practice), Jamaica Plain (agriculture), Roxbury Memorial High School for Boys (printing), and South Boston (sheet metal). There is a mechanic arts course in shopwork in the Roslindale High School.

There are 170 shops in elementary and intermediate schools, in which the following-named subjects are taught: Auto mechanics, agriculture, drafting, electricity, interior decoration, machine shop practice, printing, sheet metal, woodwork, and diversified shop subjects.

Modeling is taught in fifth grades in all boys' schools, by a special teacher. Cardboard construction and bookbinding in the fourth and fifth grades are supervised by the department.

Gardening is conducted by the department as an after-school and summer activity; home gardening in 62, and school gardening in 19 elementary and intermediate districts.

#### HOUSEHOLD SCIENCE AND ARTS.

The Household Science and Arts Department comprises a director, an assistant director, and 201 teachers.

There are twelve high schools offering courses in Household Science and Arts: Brighton, Charlestown, Dorchester, East Boston, Girls' High, High School of Practical Arts, Hyde Park, \* Jamaica Plain, Jeremiah E. Burke, Roslindale High, Roxbury Memorial, South Boston.

In the high schools of Boston there are 28 regularly appointed teachers of Dressmaking, 2 regularly appointed teachers of Millinery, and 16 regularly appointed teachers of Household Science (Foods and Household Management), and 1 temporary teacher of Dressmaking. In these schools there are 31 standard sewing rooms, 15 cookery rooms, and 9 home practice suites.

In the elementary and intermediate schools there are 96 teachers of Sewing, 1 teacher of Millinery, and 54 teachers of Cookery, 1 temporary teacher of Sewing, 1 temporary teacher of Cookery, and 1 temporary teacher of Bookbinding. In these schools there are 63 rooms equipped for instruction in cooking, 22 of these cooking rooms having adjoining suites, and 111 classrooms are equipped for teaching sewing.

---

\* Jamaica Plain.—No Household Science. (Foods and Household Management.)

## EVENING HIGH, ELEMENTARY AND TRADE SCHOOLS.

There are seven evening high schools: Central (English High Schoolhouse), Brighton, Dorchester, East Boston (Joseph H. Barnes Schoolhouse), Roslindale (branch at Hyde Park), Roxbury (Boston Clerical Schoolhouse), and South Boston. These schools, the sessions of which are held on Monday, Tuesday and Thursday evenings, from 7.30 to 9.30, are conducted in the several high schoolhouses of the districts named. All but the Central High are commercial schools.

There are eleven evening elementary schools, and two branch schools of same, in session on Monday, Tuesday and Thursday evenings.

Evening trade classes for persons employed in the trade are conducted in the Boston Trade High School and four branch schools held in the Brighton, East Boston, Hyde Park and South Boston High Schoolhouses. Evening classes for persons not employed in the trade are conducted at the Brandeis Vocational High School Building, 25 Warrenton street.

## DAY SCHOOL FOR IMMIGRANTS.

There are 14 schools for immigrants where instruction in the English language is provided, classes being conducted daily (except Saturday) for two hours in the forenoon and the same in the afternoon.

## CONTINUATION SCHOOL.

Classes for boys are held in the Brandeis Vocational High School, 25 Warrenton street; classes for girls, at 10 Common street.

All children 14 to 16 years of age employed under an employment permit are required by law to attend the school four hours per week.

## USE OF SCHOOLHOUSES FOR EDUCATIONAL, SOCIAL AND CIVIC PURPOSES.

In 1912, the School Committee was authorized by statute to allow the use of buildings under their control by associations and individuals (other than school pupils) for educational, recreative, social, civic, philanthropic and similar purposes at times when the schools were not in session. Under this arrangement there are now fourteen School Centers, each having a manager and largely attended on two evenings and one afternoon a week. More than 75 school buildings are also used by Non-School Center groups.

The School Committee may annually appropriate for this purpose such amount as it deems necessary. The appropriation for 1945 is \$101,269.83. Besides the renting of school halls for club meetings, entertainments, etc., basements and other accommodations in schoolhouses are used by the Election Department as polling places, lighting and janitor service being paid for by the Election Department.

## PENSION AND RETIREMENT FUND FOR TEACHERS.

The School Committee, by a majority vote of all its members, may retire with a pension any member of the teaching or supervising staff of the public day schools who has reached the age of sixty-five years, also such other members as are incapacitated for further efficient service. If the teacher retired has been employed in the public day schools for a

period of thirty years or more, ten years of which have been in the Boston public day schools, the pension paid amounts to one-third of the annual salary received at time of retirement, but in no case is it less than \$312, nor more than \$600 annually. If the period of service is less than thirty years, the pension is proportionally less. The School Committee is authorized to provide for these pensions by appropriating annually such amount as it deems necessary, which together with the unexpended balance of the previous year and the amount of reimbursement from the Commonwealth, will pay pensions for the year. These pensions are paid to teachers who were retired before the establishment of the Boston Retirement System or who have not become members of such system. The Permanent School Pension Fund amounted to \$1,552,489.65 on January 1, 1945, and 333 retired teachers were receiving pensions therefrom.

The Boston Teachers' Retirement Fund Association, started in 1900, is paying \$120 per year to 531 annuitants, the total amount of its fund on September 30, 1943, being \$2,280,836.15 (Total Investment) or \$2,410,815.41 (Market Value of Investments). At that date 3,208 teachers were each contributing \$18 per year to this fund.

#### BOARD OF COMMISSIONERS OF SCHOOL BUILDINGS.

##### DEPARTMENT OF SCHOOL BUILDINGS.

Offices and Warehouse, 26 Norman Street.

[Stat. 1929, Chap. 351.]

ANDREW J. DAZZI, *Chairman*, appointed by Mayor. Term ends Dec. 1, 1947.

FRANCIS C. GRAY, appointed by Governor. Term ends Dec. 1, 1945.

ROBERT A. MACLELLAN, appointed by School Committee. Term ends Dec. 1, 1946.

##### JAMES J. MAHAR, *Superintendent of Construction*.

At the City Election held November 5, 1929, on the referendum — "Shall chapter 351, of the Acts of 1929, entitled 'An Act to establish a board of commissioners of school buildings and a department of school buildings in the city of Boston' be accepted?" there were 110,453 votes in favor, 57,276 against, and 50,632 blanks.

By the provisions of the Act, the board "shall consist of three citizens of Boston who otherwise are neither officials nor employees of said city, one of whom shall be appointed by the mayor . . . without approval by the civil service commissioners, one by the school committee, and one shall be chosen by the two so appointed, or shall be appointed by the governor if the appointees of the mayor and school committee fail to choose a commissioner as aforesaid within thirty days after a second of such appointees has been appointed."

According to section 2 of the Act, the Department of School Buildings is established, to be under the charge of a superintendent of construction who shall be elected by the board of commissioners, to serve at the pleasure of the board.

Upon the election of a superintendent of construction, the board of schoolhouse commissioners of the schoolhouse department and said department shall be abolished.

The Board of Police for the City of Boston, established in 1885, was superseded in 1906 by a single executive, the Police Commissioner.

The City is divided into seventeen Police Divisions, in each of which is a station house, the quarters of a captain and a force of men.

The Bureau of Criminal Investigation, a central detective agency of the Department, located in Headquarters building, and consisting of several subdivisions, is operated on a large scale and in an efficient manner. Members of this Bureau investigate felonies committed within the jurisdiction of the City of Boston. In addition to its divisions for investigation of reports of automobiles stolen, lost and stolen property, and homicides, squads are assigned to cover the following phases of police work and investigation: Arson, banking, express thieves, general investigation, hotels, narcotics, pawnbrokers, including junk-shop keepers and dealers in second-hand articles, pickpockets, radical, and shopping crimes. A night motor patrol squad performs duty throughout the city, to prevent so far as possible, the commission of crime, and if acts of violence or other serious crimes have been committed, to arrest and prosecute the

offenders. The Bureau also handles cases of fugitives from justice and conducts hundreds of investigations during the course of a year for various police departments throughout the United States and foreign countries. Further, it cooperates in every possible way with outside police departments in the investigation of crime and prosecution of criminals. Supervision of the daily line-up of all prisoners arrested for serious offenses is conducted by this Bureau.

The Bureau of Records, established at Headquarters, has been abolished as a Unit and functions of its several separate divisions, namely: criminal identification, fingerprints and photographs, missing persons, warrants and summonses, have been merged with, and its records and equipment placed under control of, the Bureau of Criminal Investigation, through whose commanding officer are reported all matters relating to work previously performed at the Bureau of Records.

The criminal identification division of this Department has continued to prove of great value and stands in favorable comparison with identification units of the most advanced departments.

Advancements and changes are constantly being made to maintain efficiency of various divisions of the Bureau of Criminal Investigation. To bring about this efficiency of service, equipment of the Bureau is continually being augmented by addition of modern identification apparatus.

Files of the Bureau of Criminal Investigation contain records of assignments made in the Bureau and all records of arrests made throughout the Department.

On file, also, are reports of all felonies committed within the city and all reports of investigation of these felonies.

The Bureau of Operations supervises the development and maintenance of the system of operations of the Department, including police broadcasting station "WQIP," located at Police Headquarters, and police broadcasting station "WRAS," located on the roof of the new Courthouse Building, Pemberton square; the latter station being operated by remote control from the Bureau of Operations at Police Headquarters.

These broadcasting stations insure speedy response to a call for police assistance and render possible speedy dissemination of information and quick concentration of necessary police power at a point where needed.

The Boston Police Department is completely equipped with modern two-way radio. There are 79 police cars, 4 police boats, and 17 combination patrol wagons and ambulances, fully equipped with two-way radio telephone. Police automobiles with two-way radio are moving through all parts of the city day and night. Any part of the city may be reached by a police radio car in a very few moments after receipt of a radio message from either the broadcasting station at Headquarters, "WQIP," or from the station upon top of the new Courthouse Building, "WRAS."

The radio has been a very important factor in the prompt apprehension of law violators as well as increasing the number of arrests. In many instances, the offenders have been taken into custody while in the act of committing crime.

The Traffic Division is located in the Police Building, 229 Milk street. Its commanding officer is responsible for proper regulation of traffic conditions and for safety of the public using the highways from 8 A. M. to 12 o'clock midnight, within the in-town and Back Bay sections of the city. On Saturdays such duty is extended to 1 o'clock Sunday morning.

The Property Clerk's Office is charged with the care of all lost, stolen and abandoned property, money or other property alleged to have been illegally obtained, and all articles and property taken from persons arrested for any cause. In its custody are also placed all seized liquor and gaming implements which come into possession of the Department.

All orders for supplies, building maintenance, repair work, plumbing, steamfitting, etc., uniforms and equipment are issued by this office.

The Headquarters of the Department is located at 154 Berkeley street, corner of Stuart street.

The Commissioner appoints a Harbor Master and assistants from the police force, and they receive pay in accordance with their rank in the force. The following motor launches are used in this service: the "Michael H. Crowley," a 60-foot craft; the "William H. Pierce" and the "William H. McShane," both 38-foot crafts; the "Argus," a 28-foot craft; and a 22-foot motor speed boat, named the "Dispatch."

By Chapter 114, Acts of 1921, as amended, the annual listing of residents, includes all women 20 years of age and over, in addition to the men.

On June 7, 1945, the police force numbered 2,324, consisting of 1 superintendent, 5 deputy superintendents, 27 captains, 66 lieutenants, 1 lieutenant-inspector, 188 sergeants, 1,914 patrolmen, 106 provisional temporary patrolmen, 15 permanent policewomen and 1 provisional temporary policewoman.

There are 18 men assigned to the signal box service, whose director has charge of 564 signal boxes.

Salaries: Superintendent, \$7,000; deputy superintendents, \$4,500; captains, \$4,000; lieutenants and lieutenant-inspector, \$3,100; sergeants, \$2,900; patrolmen, \$2,000 first year and \$200 increase after each of the first and second years, and \$100 after the third year, until \$2,500 (maximum) is reached. Two hundred dollars additional salary annually to officer who serves as aide to Police Commissioner. Uniforms and equipment are free.

An annual emergency compensation allotment of \$200, each, in addition to yearly salary, allowed to the Superintendent of Police, Deputy Superintendents and Captains.

## THE BOARD.

WALTER R. MEINS. Term ends in 1946.

MARY E. DRISCOLL. Term ends in 1948.

FRANK L. VRIER. Term ends in 1950.

The Licensing Board for the City of Boston was established by Statutes of 1906, Chapter 291. It consists of three members appointed by the

Governor, with the advice and consent of the Council. They must be citizens of Boston who have resided in Boston for at least two years preceding the date of their appointment. The two principal political parties must be represented on the Board and the term of the members is fixed at six years after the first appointment, which was for six, four, and two years. The Board was created to exercise all the powers and perform all the duties conferred upon the Board of Police of the City of Boston relative to intoxicating liquors (now called alcoholic beverages), innholders, common victuallers, billiard and pool tables, sippio tables, bowling alleys, intelligence offices, picnic groves, and skating rinks. By Chapter 169 of the Acts of 1936 skating rinks are now licensed by the Licensing Division of the Mayor's office.

The fee fixed by Section 202 of Chapter 140 of the General Laws is not less than \$2 for each class of license, with the exception of licenses for common victuallers and innholders. The fees for common victualler and innholder licenses were fixed by Section 2, Chapter 140, of the General Laws, at not more than \$5 for each license. By statutory authority the City Council has fixed the fee of \$7.50 for common victuallers and \$25 for innholders without alcoholic beverages; with alcoholic beverages, innholder's fee is \$5.

By Statutes of 1909, Chap. 423, the Board was given the right to issue licenses to "Sunday dealers in ice cream, or confectionery, or soda water or fruit," the fee for such licenses not to exceed \$5.

By Statutes of 1918, Chap. 259, the Board was granted the right to issue licenses to lodging houses. No fee was to be charged. By Statutes of 1921, Chap. 59, a fee of not more than \$2 was allowed, if established by the City Council. The Council established the fee at \$2 in 1922.

By Statutes of 1922, Chap. 392, the Board was given the right to license "retail vendors of soft drinks." The fee for such license was not to exceed \$1. By statutory authority the City Council has fixed the fee of \$2 for such license.

By Statutes of 1922, Chap. 485, the "firearm" law was amended, giving the licensing of vendors of firearms to this Board. The law relates to the renting, selling or leasing of firearms, and the word firearms includes a pistol, revolver or other weapon from which a shot or bullet can be discharged, and of which the length of barrel not including any revolving, detachable or magazine breech does not exceed twelve inches, and a machine gun irrespective of the length of the barrel. It does not include antique firearms incapable of use, nor sales of firearms at wholesale. The fee for such license to be fixed by the Board not to exceed \$5.

By Statutes of 1926, Chap. 299, the Board was given the right to grant entertainment licenses in places where such entertainment was carried on in conjunction with sale for cash of food or drink six days of week but not on Sundays. No fee was to be charged to common victuallers and innholders carrying on such entertainment, but a fee of \$5 could be charged to persons selling drinks who carried on an entertainment. Entertainments consist of dancing, music, cabaret, or amusements.

By Chapter 284 of the Acts of 1933, the Board was given authority to grant victuallers' licenses to clubs, societies, associations or other organizations which dispense food and beverages on their premises, to their stockholders or members and their guests and to none others.

By Chapter 376 of the Acts of 1933, now Chapter 138 of the General Laws, the Board was given the authority to issue alcoholic beverage licenses to common victuallers, innholders, taverns, clubs and retail package stores, and to suspend or revoke the same after a hearing.

NOTE: Chapter 120 of the Acts of 1933, which gave the Board authority to issue non-alcoholic beverage licenses containing not more than 3.2 per cent of alcohol, was repealed when the new alcoholic law (Chap. 376) was enacted. Any 3.2 licensee could carry on his business until May 1, 1934; or could surrender his license and get a refund, or a credit on the fee paid for an alcoholic beverage license.

FRANKLIN TECHNICAL INSTITUTE, Corner Appleton and Berkeley Streets.  
BRACKETT K. THOROGOOD, *Director.*

The Franklin Foundation is incorporated under Chapter 569 of the Acts of 1908, a board of twelve citizens being named therein as Managers of the Franklin Fund and having the standing of a City department with the object of maintaining the Franklin Technical Institute as an independent technical school for adults.

The Franklin Fund is the proceeds of a bequest of one thousand pounds to "the Inhabitants of the Town of Boston in Massachusetts" made by Benjamin Franklin, in a codicil to his will dated June 23, 1789. The

---

\* The Managers serve without compensation.

codicil provided that the fund "if accepted by the inhabitants of the Town of Boston" be managed "under the direction of the Selectmen, united with the Minister of the oldest Episcopalian, Congregational, and Presbyterian Churches in that Town," who were to make loans on certain conditions to "young married artificers under the age of twenty-five years."

Dr. Franklin, who died April 17, 1790, calculated that, in one hundred years, the thousand pounds would grow to £131,000, "of which," he says, "I would have the managers then lay out at their discretion £100,000 in Public Works which may be judged of most general utility to the Inhabitants. The remaining £31,000, I would have continued to be let out on interest for another hundred years. At the end of this second term, if no unfortunate accident has prevented the operation, the sum will be £4,061,000, of which I leave £1,061,000 to the Town of Boston, and £3,000,000 to the disposition of the Government of the State, not presuming to carry my views farther." The Town accepted the donation at a Town Meeting held June 1, 1790.

A futile suit brought by the Franklin heirs in 1891 prevented the division of the fund at the expiration of one hundred years; but on January 17, 1894, by direction of the three ministers and the Board of Aldermen of the City, which board claimed to be the successors of the "Selectmen," \$329,300.48 ( $\frac{100}{31}$  of the fund) was paid to the City Treasurer, for "the purchase of land and the erection thereon of the Franklin Technical Institute and for the equipment of the same." Owing to a series of complications the money remained in the custody of the Treasurer. Mayor Collins, in 1902, caused a petition of the City to be filed in the Supreme Court, praying for instructions as to the authority of the persons then acting as Managers of the fund. The Court rendered an opinion November 25, 1903 (184 Mass. 373, page 43), to the effect that the three ministers were Managers of the fund under Franklin's will, but that the Aldermen did not succeed the "Selectmen" as Managers and had no powers with reference to it. The Court, under its general power to care for public charitable funds, appointed, on March 16, 1904, a Board of Managers to take the place of the "Selectmen," and provided in the decree of the Court, that the Mayor of Boston should be one, *ex officio*.

On December 2, 1905, the City Treasurer received from Mr. Andrew Carnegie \$408,396.48, said sum being equal to the amount of the Franklin Fund in August, 1904, which Mr. Carnegie agreed to duplicate. Only the annual income from this fund is used.

On November 17, 1927, \$100,000 was received by the Foundation from the estate of the late James J. Storrow, the income to be used for maintenance of Franklin Technical Institute.

On January 31, 1907, the amount of the "accumulated" fund available for expenditure by the Managers was \$438,741.89, and in that year the Franklin Technical Institute Building was erected at the corner of Appleton and Berkeley Streets. It was opened in September, 1908, as a Technical Institute to train young men and women for positions of supervision

in industry. In 1941 the name was legally changed to Franklin Technical Institute. It is maintained partly by tuition fees (\$147,000 for the school year 1944-1945), and income from the above mentioned Funds (*i. e.*, the Andrew Carnegie Donation and the Storrow bequest). The building contains 11 classrooms, 5 draughting rooms, and 16 shops and laboratories, where due to the War only about 630 adult students received instruction at evening sessions and 56 in day courses during the school year 1944-1945. Besides the civilian students, training has been given to large numbers of United States Coast Guardsmen, and ex-service men, under government contract. There is also an auditorium with a seating capacity of 927. The building, with equipment, cost \$436,970.59. The site, containing about 16,000 square feet, was purchased in 1906 for \$100,000, a 20-year loan being issued to cover same.

The Franklin Fund (Second Part) will become available in 1991.

GEORGE ROBERT WHITE FUND.

Office, 45 City Hall.

TRUSTEES, 1945.

JOHN E. KERRIGAN, Mayor, *Chairman*.

WILLIAM K. JACKSON, President of the Boston Chamber of Commerce,  
*Vice-Chairman*.

CHARLES J. FOX, City Auditor, *Secretary*.

WILFRED J. DOYLE,

NORMAN W. BINGHAM, President of the Bar Association of the City of  
Boston.

---

JAMES J. MCCARTHY, *Manager*.

GEORGE L. DRISCOLL, *Clerk and Assistant to Manager*.

The late George Robert White, who died in Boston, January 27, 1922, left the residue of his estate to the City of Boston to be held as a permanent charitable trust fund, "the net income only to be used for creating works of public utility and beauty, for the use and enjoyment of the inhabitants of the City of Boston."

The control and management of the fund is in the hands of a board of five trustees, consisting of the Mayor as Chairman, the President of the City Council, the City Auditor, the President of the Boston Chamber of Commerce and the President of the Bar Association of the City of Boston.

At a meeting of the Trustees held on Tuesday, April 5, 1938, it was unanimously voted that the services of a paid Manager be engaged. In accordance with this vote the custody, care, control and management of all real estate constituting a part of the George Robert White Fund is now in the hands of a Manager; all legal matters are attended to by the Corporation Counsel; all financial disbursements and investments are in the hands of the City Treasurer; all collections and receipts are handled by the City Collector; and the examination of all bills and demands

rendered against the Fund, together with the approval of all expenditures and the auditing of all accounts, rests with the City Auditor.

Health Units have been provided at Baldwin Place and North Margin Street in the North End, at Paris and Emmons Streets, East Boston, at Dorchester and West Fourth Streets, South Boston, at Blue Hill Avenue and Savin Street, Roxbury, at High and Elm Streets, Charlestown, at Blossom and Parkman Streets, West End, and at Whittier and Hampshire Streets, Roxbury, in the hope of being able, by proper instruction, to better the living and health conditions of the communities in the congested districts.

A Prado has been established at Hanover and Unity Streets in the North End, to provide an open air space for the residents of the North End. In 1935, the Trustees voted to change the name of the Prado to Paul Revere Mall.

In the spring of 1936 the Trustees voted to establish a wading pool and locker building in the yard in the rear of the Whittier Street Health Unit, Roxbury. The wading pool and locker building have since been in full operation for the use and enjoyment of the inhabitants of the City.

In the summer of 1936 the Trustees voted to have thirteen memorial bronze tablets fabricated and placed in the walls of the Paul Revere Mall in the North End. The inscriptions to be placed on these tablets involved considerable research work and as a consequence these tablets were not completed until the summer of 1940. This was done as an improvement to the Mall.

On January 27, 1940, the Trustees voted to purchase an equestrian statue of Paul Revere — made by Cyrus E. Dallin, sculptor — to be placed in the Paul Revere Mall in the North End, as an addition and further improvement in accordance with provision of the will.

On September 22, 1940, the Trustees dedicated the thirteen bronze tablets and the statue of Paul Revere at the Paul Revere Mall in the North End.

In the summer of 1941 the Trustees voted to establish a number of play spaces, fully equipped, in various sections of the City from the Income of the Fund, for the use and enjoyment of children under 12 years of age. It was voted to establish the first four play spaces at the following locations:

- Pitts and Hale Streets, in the West End.
- London and Decatur Streets, in East Boston.
- Troy and Rochester Streets, in the South End.
- King and Roxbury Streets, in Roxbury.

This chain of play spaces consists of the most modern architecture: Wading pools, play-yard equipment, concrete seats, concrete sandboxes, etc., and is a great asset to the City.

On December 6, 1941, the Trustees voted to establish as a post-war project, a Bathhouse and Recreation Center on certain park land on the Charlesbank in the West End.

In January, 1944, the Trustees voted to establish as a post-war project, a War Memorial to the Veterans of all wars, in the Fens.

BOSTON HOUSING AUTHORITY.

Office, 10 Post Office Square.

[Stat. 1935, Chap. 449; Stat. 1938, Chap. 484.]

APPOINTED BY MAYOR AND CITY COUNCIL.

JOHN CARROLL, *Chairman*. Term ends in 1947.  
 EVA WHITING WHITE, *Treasurer*. Term ends in 1948.  
 THOMAS E. LINEHAN, *Assistant Treasurer*. Term ends in 1946.  
 DONALD B. STANBRO. Term ends in 1950.

APPOINTED BY THE MASSACHUSETTS STATE BOARD OF HOUSING.

REV. THOMAS R. REYNOLDS, *Vice-Chairman*. Term ends in 1949.

JOHN F. MILLERICK, *Acting Executive Director and Secretary*.

The Boston Housing Authority, established in accordance with the Housing Authority Law of the Commonwealth, consists of five unpaid

members. As the terms of members expire, successors are appointed by the same appointive power for terms of five years.

The Authority is charged with investigation to determine the unsanitary and sub-standard housing conditions existing within its jurisdiction which cannot readily be remedied by private enterprise, and the clearance, replanning and reconstruction of such areas in accordance with the terms of Chapter 449 of the Acts of 1935, as amended by Chapter 484 of the Acts of 1938. With the approval of the State Board of Housing and the Mayor, it is empowered to enter into agreement with any agency of the Federal Government for assistance, financial or otherwise, to remedy such sub-standard conditions.

The Authority has constructed seven projects with the cooperation of the United States Housing Authority, now the Federal Public Housing Authority. One of these projects, in the Bay View section of South Boston, was subsequently sold to the Federal Government to house war workers under the management of the local Authority. The Old Harbor Village project in South Boston was constructed by the Federal Government and is now leased to the Boston Housing Authority.

The eight projects in the City are now operated by the Authority. The projects in the Charlestown, Mission Hill and Lenox Street districts, together with Old Harbor Village, are primarily for the housing of low-income families. The projects in the Bay View section of South Boston, Orchard Park section of Roxbury, Heath Street, Roxbury, and East Boston are operated for the benefit of war production workers and families of enlisted personnel of the armed forces of the United States.

Additional areas have been cleared in the East Brookline Street section of the South End and the D Street section of South Boston for further construction.

SUFFOLK COUNTY COURT HOUSE COMMISSION.

Office, Room 309, New Court House.

[Stat. 1939, Chap. 383.]

ARNO I. DREW (Appointed by the Governor), *Chairman*.

ARTHUR J. SANTRY (Appointed by the Chief Justice of the Supreme Judicial Court).

† FREDERICK R. SULLIVAN, Sheriff of Suffolk County.

The Commission chooses its own Chairman and its own Secretary. Its members receive no compensation for their services.

The Commission was established by Special Act of the Legislature, for the care, custody and control of the Suffolk County Court House, and is required to appoint a Custodian and such other officers as it may deem necessary for the proper operation of the building, and to determine their term or terms of service.

The Commission succeeded to the authority given to the Sheriff of Suffolk County over the Suffolk County Court House, in Chapter 525 of the Acts of 1922, and took over the management and control of the Court House upon its completion during 1939, by the Special Commission created under Chapter 474 of the Acts of 1935 for providing additional accommodations and facilities for the Suffolk County Court House.

A thirty per cent contribution by the Commonwealth to the annual costs and charges of maintenance and operation of the Court House began in the calendar year 1939 when the additional Court House enlargements and improvements, made under authority of Chapter 474 of the Acts of 1935, were "substantially completed" and in "actual use," and the remaining seventy per cent is paid by the City of Boston. While the Commonwealth now pays thirty per cent of the operating costs of the Court House, it has taken no part in its operations, other than the exercise of its authority in the make up of the Commission in charge.

ORGANIZATION AND OPERATION OF THE BOSTON BOARD OF RECREATION.

In pursuance of a legislative act (Chapter 451) approved June 7, 1943, and accepted by the City Council under the provisions of its charter on December 11, 1944, Mayor Maurice J. Tobin, on January 4, 1945, appointed the following members of the Board of Recreation of the City of Boston: Bernard P. Casey for a term of three years, Ellen H. Gleason for a term of two years, James E. Murphy for a term of one year, and Thomas J. Turley for a term of four years; the School Committee in their January meeting appointed Joseph V. Comerford and Joseph Lee each for a term of two years; and Mr. William P. Long, by virtue of his position as Chairman of the Board of Park Commissioners, became the seventh member of the Board of Recreation.

The Board held its first meeting on Tuesday, January 30, 1945, with Park Commissioner Long acting as chairman. At this meeting Mr. Turley was elected chairman of the Board for one year, as provided in the legislative act. At their meeting held on February 2, 1945, the Board elected Mr. William Mullen, at that time Director of Recreation of the Park Department, to be Superintendent of Recreation of the Board of Recreation, a transfer specifically provided for in the Act.

The seven members of the Board serve without remuneration, but are empowered by the Act to employ such persons in such positions as may be necessary to carry out the duties of the Board.

These duties and powers are as follows:

To appoint a Superintendent.

To hire necessary employees.

To study recreation needs of the city and formulate plans for adequately distributed, coordinated and diversified recreational services.

To encourage establishment of voluntary committees to advise and cooperate with the Board with respect to the operation and supervision of neighborhood play areas.

To submit recommendations to any licensing authority.

To consult from time to time with any city department or agency empowered to provide recreational services or having jurisdiction over premises and facilities which may be used for recreation in relation to recreational services or premises and facilities provided by such departments and in relation to recreational services formulated by the Board.

To receive from such city departments or agencies from time to time the management of such recreational services or the use of the premises and facilities under the control of said departments or agencies, together with such personnel as might be transferred.

To provide and conduct recreational activities and supervise recreational premises and facilities delegated or made available to it by other city departments.

To cooperate with and promote by advice, suggestion and otherwise, such voluntary or amateur organizations for recreation, entertainment or mutual improvement as shall meet its approval.

To acquire and utilize recreational supplies and equipment and other supplies and equipment necessary for the conduct of its work.

To report annually to the Mayor its activities during the preceding year, making such recommendations for the development of playgrounds and recreational facilities, including additions thereto, as it may deem advisable.

Acting under the above authority, the Board of Recreation has developed a Department of Design and Construction to study present recreational facilities and prepare plans for such changes and improvements or additional facilities as may seem necessary; a Department of Games and Athletics through which it has placed nearly a hundred young men and women on the city playgrounds as playground instructors and set up a comprehensive system of District Supervisors whose duty it is to develop play and recreation programs in cooperation with recognized community groups and leaders; a Department of Special Activities through which it has introduced drama, music and the arts into the supervised play life of the city.

The Board aims to be a constructive cooperative agency to which the communities making up Boston can come with their recreation problems and through which all these interests striving to build youth and American ideals through wholesome, planned, supervised recreation can find a means of accomplishing their ends.

## THE MAYOR'S COMMITTEE FOR JUVENILE DEVELOPMENT.

DOUGLAS LAWSON, *Chairman*.

JOSEPH GANNON

PATRICK F. McDONALD

REUBEN L. LURIE

JUDGE FRANK W. TOMASELLO

This Committee was created by executive order of Mayor John E. Kerrigan on March 24, 1945.

The Committee was in an advisory capacity to the Mayor to aid him in coordinating and integrating the work of the different executives, committees and organizations dealing with the juvenile delinquency — juvenile development problems. The work of the Committee was to inspect, survey, and report to the Mayor on the various activities affecting the problems.

The Committee met with many groups and made many physical inspections of the recreational and other facilities for aid in juvenile development.

The reports of this Committee were based on inspection work in New York, Indianapolis, and Chicago as well as local.

The Committee is non-paid, serving without secretarial or other appropriation.

† Twice elected for two years.

‡ Elected for two years.

¶ Elected for four years.

NOTE.—Andrew J. Peters was the first Mayor not eligible to succeed himself. See Special Acts, 1918, Chapter 94. See also Acts, 1938, Chapter 300.

NOTE.—From January 6, 1845, to February 27, 1845, or from the close of Mayor Brimmer's term of office till the election of his successor, Thomas A. Davis, the Chairman of the Board of Aldermen, William Parker, performed the duties of Mayor.

In the interim between the death of Mayor Davis, on November 22, 1845, and the election on December 11, 1845, of his successor, Josiah Quincy, jr., Benson Leavitt, Chairman of the Board of Aldermen, acted as Mayor.

There were three ballotings for the election of Mayor for 1854, between December 12, 1853, and January 9, 1854. In the meantime the duties of Mayor were performed by Benjamin L. Allen, Chairman of the Board of Aldermen.

In 1873 Mayor Pierce resigned his office on November 29, on his election to the Congress of the United States. During the remainder of the municipal year Leonard R. Cutter Chairman of the Board of Aldermen, served *ex officio* as Acting Mayor.

Mayor Collins died on September 14, 1905. Daniel A. Whelton, Chairman of the Board of Aldermen, acted as Mayor for the remainder of the municipal year, viz., September 15, 1905, to January 1, 1906.

ORDINANCES OF 1945, CHAPTER 9.  
CONCERNING THE DEPUTY CITY  
TREASURER.

*In the Year Nineteen Hundred and Forty-Five.*

*Be it ordained by the City Council of Boston, as follows:*

Chapter thirty-six of the Revised Ordinances of 1925, as most recently amended by chapter three of the Ordinances of 1935, is hereby amended by adding at the end thereof the following:

Section 11. The city treasurer may appoint, subject to the approval of the mayor, an employee in his office to the position of deputy city treasurer. The deputy city treasurer so appointed shall furnish a bond to the city subject to the provisions of sections two and four of the Revised Ordinances of 1925 in the sum of \$200,000; shall be sworn to the faithful discharge of his duties and obligations, and shall hold office until his successor is appointed and qualified. The deputy city treasurer shall perform such duties as may be assigned to him from time to time by the city treasurer, and in the temporary absence of the city treasurer the deputy city treasurer shall perform the duties of the city treasurer.

In the City Council, September 24, 1945. Passed.

J. B. HYNES, *City Clerk.*

*In the Year Nineteen Hundred and Forty-Five.*

---

*Be it ordained by the City Council of Boston, as follows:*

Chapter thirty-six of the Revised Ordinances of 1925, as amended by chapter three of the Ordinances of 1935, and as most recently amended by chapter nine of the Ordinances of 1945, is hereby further amended by striking out section eleven of the foregoing ordinance and substituting in place thereof the following:

Section 11. The city treasurer may appoint, subject to the approval of the mayor, two employees in his office to be designated as the first deputy city treasurer and the second deputy city treasurer. The deputy city treasurers so appointed shall furnish bonds to the city subject to the provisions of sections two and four of the Revised Ordinances of 1925 in the sum of \$200,000, respectively; shall be sworn to the faithful discharge of their duties and obligations, and shall hold office until their successor, or successors, are appointed and qualified.

The first deputy city treasurer shall perform such duties as may be assigned to him from time to time by the city treasurer, and in the temporary absence of the city treasurer the first deputy city treasurer shall perform the duties of the city treasurer.

The second deputy city treasurer shall perform such duties as may be assigned to him from time to time by the city treasurer, and in the temporary absence of the city treasurer and the first deputy city treasurer shall perform the duties of the city treasurer.

**Altering, Amending, Extending or Rendering Ineffective Provisions of Chapter 479 of the Acts of 1938, Entitled, An Act for Codification, Revision and Amendment of the Laws Relative to the Construction, Alteration and Maintenance of Buildings and Other Structures in the City of Boston.**

---

*In the Year Nineteen Hundred and Forty-Five.*

---

*Be it ordained by the City Council of Boston, as follows:*

Section 2312 of chapter 479 of the Acts of nineteen hundred and thirty-eight is hereby amended by striking out in the second line of paragraph (d.) the words "at thirty pounds per square foot" and inserting in place thereof the words "at fifteen pounds per square foot for those portions less than sixty feet above the ground, at twenty pounds per square foot for portions between sixty and eighty feet above the ground, and at a minimum of thirty pounds per square foot for portions more than eighty feet above the ground"; and by adding a new sentence; "The commissioner may require a sign structure to be designed for greater pressure than the pressures given herein if in his judgment the exposure requires it", so as to read as follows:

(d.) The wind pressure on vertical plane surfaces of all signs shall be taken at fifteen pounds per square foot for those portions less than sixty feet above the ground, at twenty pounds per square foot for portions between

sixty and eighty feet above the ground, and at a minimum of thirty pounds per square foot for portions more than eighty feet above the ground. The commissioner may require a sign structure to be designed for greater pressure than the pressures given herein if in his judgment the exposure requires it.
